THE MANY LOVES OF CORLISS ARCHER-FINAL CHAPTER:

ON Friday June 22, 1979 the final chapter of this saga rang down with my getting Married and thus we bring an end to Corliss Archer, who for you younger generations was an old favorite in the days before TV called RADIO.

VIENNIA:....Reinsel, the reason why I propose adraw in this game is so that we can quickly end the game. Hal is trying to close down ADAG so that he can get on to better things in life and I am trying to help him. You and France can probably beat me and Russia. But it is going to take you a awfyl long time at the rate you are moving. why not take a quick drew and be done with it?.

SWEETWATER:...If there is no progress in this and that does not include trading centers, this game will end by 1911, three year rule.
