ROBERT FRANCIS KENNEDY

Once again a cowards bullet has struck a great American and in the
Second time in this Generation from the Same Family. John Fitzgerald
Kennedy and Robert Francis Kennedy both paid thier lives for what they
believed-That America can never exist if all her people are not protected
by the Constitution-It is not enough to say a man is free, if because
he is black he is restricted from the life that a white man lives, if
because he is Red an Indian he is not considered in many areas of this
Country to even be a citizen.-That the people of this Country should
never have fears to earning a living or providing food and comfort for
thier Familys-these and many more they believed in and for thier beliefs
they paid for their lives, Who shall next pay the Almighty price for
believing that all People should be free?

BONN-Germany declares an alliance with Austria, and Silence for England and Italy.

BONN-N.S!G. Hi Dr. Strangelove Pax Romus

ALGERIA-E,peror Caliph Hornan the Hungnan, Dey of Tunis, Emir of Algeria, Emperor of the Faithful of the West, was today informed that Turkey declared war on Italy. His sublimity found this amusing, commenting "How in the name of Djinn and all the shades of hell do the Turkish expect to get TO ITALY? The Barbary States have unfinished business to settle with the Austrians, for if they have forgotten that they still hold captive an entire army of our occupation troops peacefully stationed in Greece, we have not. We had unfinished business with an unfaithful ally to the East, and we are rapidly concluding it. We will then be needing the Ionian Sea to get at the Austrian dogs. There is no route From Turkey to Italy except through the Ionian and we will be using that---we presume that our three fleets which bear on that sea will be sufficient to get us there. We would be MOST ANNOYED if the Turks were to destroy Austria before we get at the swine. Turkey had best ge her onw way in peace and forget the Mediterranean. She has ample lands to conquer to her North and East---let her stay out of our Lakes.

VIENNA- The Austrian government announced today that should any of the Barbaric Barbarian, Barbary fleets or Army's land on Austrian shores that they will execute the Barbary Army that was captured in Greece without a shot, the cowards just laid down their arms and surrendered. The Government also announced a long range treaty with Germany. If the Barbarians want war they will get it, if they want peace then Austria will lend every able assistance that it can muster. But it is up to the Barbary States, which shall it be, War or Peace.
