COMMENT:- This issue is late, Very late for many numerous reasons, mainly one that my working hours have changed, I now work from 4:00 PM to 12:30 AM 6-7 days a week, My home hours are from 9AM to 2:30 PM, so you can see that it leaves me little time to complete all the work I have around the House plus the work involved in getting out four (4) magazines. In the future I will try to get back to a three weeks deadline, but for the present I must get it out when I can.

Smolensk (FFUG); -The Reichkommand was amused today to learn that the large supply of rubbers captured by a German patrol outside of Ravenna were not, as originally thought, prophylactics for the underdeveloped-but were actually rainhats specifically designed for and commissioned by the pinheads of the Papacy (What else for, he's still cherry).

Moscow (BRR); Someone is giving aid and comfort to the enemy, And it aint me.

CONSTANTINOPLE; -Muhammad Alle Qualle leader of the Moslem faith, today called for Holy War against the Russian Infidels. "Allah has called for jeh against the Czar and his armies. We must fight to the last Russian or the last Turk, irregardless of the cost. The extermination of the Russian people will be looked upon with great favor by Allah; We must fight or incur his displeasure and out own dishonor." Mr. Qualla's statement was taken in most quarters to be an excellant example of constraint and moderation in relation to the views currently being expressed by the population of the Nation.

PARIS; -"Pointy little nose" is it?. I always thought of my nose as a rather undistinguished blob somehow stuck in the center of a rather nondescript face. (Fugg) Thank you for the kind remark. I must warn you that flattery will get you nowhere.

WALES; Headquarters of Marshall Fish, Commander French Expeditionary forces (England); The attack on London was smashed by the English defenders. French forces suffered heavy casualties. Reports from the seige lines surrounding the City indicate that the cause of the Disaster was the Perry's pen. If th rumors are true and the indication of the weapon's effectiveness, the Britis will be able to retain control of London for at least several years.

ST. PETERSBURG (JAP): - Foreign Minister Count Andrei Vishnikolovich was pleaded to announce the formation of his latest Supercolossal alliance; The Quadrumvirate. Friendly observers shuddered at the very thought, and the Count was observed to mutter to himself, "Now if only the Pope would Write in English." Even the Court Astrologer took a "wait-and-see" approach when asked about this supposed paragon of Diplomatic achievement.

Through it is as yet unbroken by our forces, Operation "TRACY" probably contains the vital link in the French-Turkish conspiracy. Only the true identity of "TRACY" will solve the most powerful mystery in Europe.

APT#4 - What is Operation "MAGGIE" -? What is the secret meeting of NAUCANDA SUMMITT about???. Are there really Rattlesnakes in Rattlesnake Hills???. Is Tumwater good for the Tummy?. Who is the mysterious visitor from Alderwood Manor???.

BUCKINGHAM PALACE, LONDON (QEN) :- In his weekly report on the state of the crown HRE sounded faintly apologetic as he explained the failure of the sanitary Engineering Corps to prevent the incredible stench now emanating from the abandoned City of Edinburgh. It appears that one contingent of Sanitary Engineers was sent north, and that one squad displaying incredible olifactory fortitude penetrated to within 9 miles of the City Limits with the help of a favorable wind. At that point the wind changed, and the squad was forced to retreat.

YORK (QEN) - Doctors at Breckinridge Intesive treatment Center, where the remant of the abortive Sanitary Corps Edinburgh expedition are receiving care were very grave as they reported yet another death. They were unanimous that such severe cases of Olifactory shock were unheard of. They also released several eyewitnesses reports, including one fromx a member of the Sanitary Suicide Squad that penetrated within 12 miles of Edibutgh that described the death of one squad member that lost his breathing apparatis; "He took one breath. Turned Purple and Idguified."

COMMENT:- Because of the recent Postal strikes in many of the Cities that the players reside in, I have delayed this issue, also two games were delayed because of Player requests-Hereafter in the future I will try to get out the issue one week after the deadline-That means that any game that is delayed will have to wait till the following issue to be completed. I am at Present working 4:00 PM to 12:30 AM 6-7 days a week, leaving me very little time to complete all the magazines and games that I have. 9 AM when I get up and 2:30 PM when I leave for work, so you can see how much actual time that I have to complete all this work-Future issue where I am pressed for time, I will have to junk all the press-releases in order to get the issue out. Also a call for Spring moves over the Winter builds in not a command. But a request, all you have to do to delay is not send any Spring moves.

NOTE In answer to a question from Andrew Phillips-The occupation of a province, other than a supply center does not remove that province from being built in...The status of Provinces and supply centers are the same as the regular game.

SEA OF M-The Area between Constantinople and Edirne is a passable sea area. Its occupation does not mean that either Edirne or Constantinople are occupied. BUT an Army may bridge these waters from Constantinople to Edirne and in reverse.

THE Area below Aleppo and Magnitogsk are impassable areas, The dividing line runs directly south along the Levant Coast to the end of the Maps.

KOLIN Borders both Brussels and Antwerp (Just the same as Ruhr borders Belgium and Holland).

COPENHAGEN -Has the same status as Denmark.

ITALY -Larry Feng due to pressures of publishing his magazines has asked that I find a replacement for him, but will remain until such time that I am able to find one....If any player out there knows anybody that would like to take over Italy..send his name along.
