

An 007 Publication, edited and Published by a somewhat badgered and beaten Gamesmaster, who is making more changes than My zipper. Effective Monday (I hope) may 11th, I will go back to working 7AM to 3:30 PM-That is if everything works out and the spouse is out of the Hospital by then. Today is the second day of my vacation and what has it been doing, you guessed it raining It rains, clears up, the sun comes out and then it rains again-what a hell of a way to do anything.

ADAG INC is affiliated with the NFFG Games Bureau Diplomacy Division. And is Published under the sign of the Ham by Harold (Hal) Maus 1011 Barrett Ave Chula Vista, California; 92011...NO PHONE, NO PHONE...There are no openings for any new games--As soon as the current one's are completed then the Magazines will cease to exist. Though I reserve the right to change my mind if during the following years events change.

ANKARA:-The lack of response from Miss Cardinale's indicates that a censorship and reduction of the Freedom's of the Peopl has been imposed in Italy. The Sultan will remedy this problem immediately;

BUCKINGHAM PALACE(London (QEN); The new Italian Ambassador, Miss G. Cardinale, arrived today and presented her papers. She was immediately granted a personal interview with HRH which lasted several hours. Miss Cardinale, who was formerly attached to the Italian Consulate in Constantinople, stated she was quite happy with the tranfer. When asked what made the difference in English and Turkish Hospitality, she smiled happily and siad; "About six inches." (Shame on you.) Miss S. Loren Italian Ambassador to England, today denied the rumors that she would return to Italy for rest and recuperation which followed her recent collapse from exhaustion. "I do not want to go. I want to stay. I will not go. "She delivered the interview from her stretcher as it was being wheeled abourd the H.M.S. Rampant, reportedly bound for Amalfi.

COMMENTS

- (1)...All ADAG Variants carry the designation "X" as example I have seen  
1966-XA, XD XF 1967-XE.
- (2)...If all supply centers are occupied by an enemy power I would like to  
build in your homeland, I had toyed with the Idea of not allowing  
that a Capitol if occupied by an enemy nation stops such building  
from building until the Capitol is Free.
- (3) Delete reference last issue to the Sea of M. It still requires the  
same-Change that Since the Western Part of Constantinople is  
separate Province from Constantinople the Sea of M. had been  
thus stopping an Army From Briding it into Irdino. The correct  
boundries for the Sea of M should be the western Black Sea  
Aegean, Running from Edirne of the West South to Constantinople.
- (4) The Reference to Cophehangen being the same as Denmark is a reference  
to the same affect it has in the regular game. Taking into consideration  
the Islands that are not shown on the map, but are on the regular map.

I am attempting to make a completely new set of maps a little smaller than  
the ones I sent to all the players, But bringing Feeryds Map up to a  
scale is a lot more work than I had originally thought it would be.

I would like some suggestions on this game that any of you would like to  
Improve it, Anything that is except buring the hole thing.
