****if Turkey retreats to Greece then they are even and Austria must remove one, if she does not then she must remove one and Austria will remain even, or if she elects to annihilate the unit then she is still even and Austria is even. Now if you all can understand that above quotation then everything should move smoothly, also for the benefit of Hall and Bann the movement around the mid-atlantic failed because (i) England could not dislodge its fleet that failed to move and also the Italians were in the same position this would have been called in the old days the OH ALGER RILING or the GULFLEND SEAWAGON .

LONDON: Foreign Minister Hall A.S. Seawright has announced the recall of the Crown Ambassador from Moscow. It is reliably reported that the latter will be required to answer questions in the Commons about his excessive zeal in representing to the Soviets the dis- favor which an aggressive expansion program would have aroused in England.

LONDON Word of the recent expansion of the French Atlantic Fleet has resulted in considerable furore in the Capitol. Strong action to bring about a revision to the status quo are reportedly underway. The Prime Minister is known to consider the situation "extremely grave", but still believe that the demobilization of the new French forces will occur before serious damage is done to Anglo-French relations.

DEADLINE FOR FALL 1961 MOVIES IS SATURDAY JANUARY 20,1973.
