Issue #1

February 9, 1971

After a long wait, the game is finally filled. A few of the more obserbant ones of you may have noticed that this is reproduced by photocopy rather than carbon copy. I have access to a copier, and it's a hell of alet easier than typing up carbon copies.

Some of you might be wondering what country you are, if so:

AUSTRIA: Dennis DeBol; 165 Rhode Island; Highland Park, MI 48203

ENGLAND: Dan Bedrosian; PO Box 185; Manchester, MI 48158

FRANCE: Bob Matthews; RR#1; Ludington, MI 49431

GERMANY: Gregory Johnson; 151 Grove; Highland Park, MI 48203

The Spring 1901 moves are due March 2, 1973 by phone, ✕ mail, in person or whatever.

The House Rules:

1. All moves should have the game number (A-1XX for now), country, season and year, and signature.
2. If you miss a move, all units will hold in civil disorder and a stand-by player will send in the next move for your country. If you miss the next move, the standby will replace you.
3. You may send in press releases, but because of space limitations, it may be delayed.

Also, the missed move could be rid of completly if Herb, Dean, and Bob agreed to being called collect if their moves haven't arrived on the day of the deadline. I will call the Detroit area people because those calls are fairly local.

If you are going to be in Detroit on the 17th of February, there is going to be a meeting of Intrest Group Highland Park(IGHIP) at 3rd and Pitkin in a big green building in Highland Park. If you are there, you can stab your GM at Diplomacy.

One more thing, I'M going to drop the SASE bit and just ask you people to get some 8¢ stamps in.

The W'01 builds are due March ~~20~~. In case I didn't mention it before; in the supply center chart, an underlined province is one that is gained, a province with slashes through it is lost.

PRESS:

Moscow: Czar Nicky I, today announced that it is Russia vs. the world. "They have cut off all contact with us, we'll show them what we are made of!" said Nicky.

Zurich(AVANTI): The World Surgeon General today announced that Russia is hazerdous to your health. If you have the following symtoms, report to the nearest hospital immediatly: little red holes with red stuff oozing out of them and pain in the general area of the holes. Failure to get medication results in loss of blood,limbs, heads, lives, etc. Also, the disease has spread to Bulgaria, Rumania, and Sweden. Avoid these areas.

On March 31st, there is going to be a Diplomacy convention on the MSU campous. If you want any info, I will be able to dig some up for you. I plan on attending, assuming I can get some transportation. My second game has six, only needs one more.

Richard,

I imagine that it is pretty unusual to have a couple of brothers in a game,
but I know both of them, and if they get a chance, they will probably be
enemies. The S'01 moves are due April 25. All moves should have the
game designation(A-II for now), country, player, and season and should be
signed. If a player misses two consecutive moves he is dropped from the
game.

Conrad, would you please assign a number for this game?

I know Dean Schwass pretty well, so I can safely say that he wont miss the next move. The deadline for the F'02 moves ~~XX~~ is May 11. This gives some extra time and allows this game and the other one to be sent out together. The typing this issue ~~XXXX~~ isn't ~~XXXXX~~ very good because I'm exhausted. This issue will also be small due to the lack of press and things to say. Good, I'm done.

Observe that this game now has an officially assigned game number; 1973BJ. The F'02 moves are due May 11. Starting next issue, both games will be together. I can't imagine what I had to say in previous issues to fill space; maybe there was some press. Rather than to nothing as in the sub-issue for 73W, I will give an account of what I did at the last IGRIF meeting.

Dan Bedrosian, up from Manchester, and I went to the big, ugly green building with the expectation of a good game of Diplomacy. Not so, we got involved in a naval miniatures battle between four American battleships and five destroyers against three Japanese battleships, the Yamato being one, and three cruisers and one destroyer. I had one of the Japanese cruisers and the destroyer. The battle started with both fleets steaming toward each other with scattered long range firing with no results. When the Americans came within effective range, we started picking off their destroyers one by one. About the time the Americans were down to two destroyers, we decided to launch about 60 long lance torpedoes. The battle was over after the torpedoes did considerable damage, but we played it out until every American ship was sunk and one Japanese cruiser was sunk, the Atago's magazine blew up. I with the Mogami blew up one destroyer and Dan with the battleship Haruna, blew up two destroyers and participated in the destruction of all four American battleships. In case you're interested, the rules used were the Victory at Sea rules.

I will be on vacation from June 18 to approx. July 10 and will not be able to be reached during that time. Because of this, I of course will not be able to continue my activities until then which means a month deadline next time. In case you're wondering, the multi-commander Strategy I game lasted two game turns and was a lot of fun. you're GM, as Axis naval commander in the confusion, left some transports unescorted and out at sea to be torpedoed. Such is life. During those two turns, The Axis crushed France, but it looked like the Russians might do pretty good despite their inferior ability.
