

BESEROVIA is an occasional publication of Rod Walker, 4069 Jackdaw St., San Diego CA 92103, containing whatever I feel like putting in it. This is Pandemonium Publication #542, and is dated 12 July 1974.

This issue is to take care of a lot of business in 1973IK. We have the Spring 1903 orders, for one thing, and the stand-by players, for another.

Please note my NEW ADDRESS. This is permanent. My telephone number there is 298-1523. It will not be easy to reach me until toward the end of this month. However, if I'm not there, Jim (Yeah, I'm not living alone...) will be glad to take a message or your orders or whatever.

Well...now we will have a complete listing of players & addresses. We now have a complete slate of stand/by players for the 6 remaining countries. Please check House-Rules 15 and 16 for how this system works.

Stand-by players will receive a copy of my House-Rules with this issue of BESEROVIA, if they do not already have a set (von Metzke and Kostoff do, I believe). Please check under HR 15a, and note that you-all can do just about anything you like. Isn't that nice about the preferences? Everybody got what he wanted, except Tony, who never let me know.

Wouldn't you know it...no sooner do I get this page typed, than somebody changes his address. OK, all together now,

Capt. Steven Brooks
