

This is the St. Valentine's ~~W/444/444~~ Issue of ~~MS-~~EROVIA, published umpteen days after the last deadline, making it early in relation to the former and late in relation to the latter. Let's pretend it's early, OK? This is Pandemonium Publication #586, edited and published by Rod Walker, 4069 Jackdaw St., San Diego CA 92103. Maybe.

Fall 1906: Well, let's see. Russia asks if there was not another Austrian unit last time. Indeed there was, as everyone seems to have noticed. The Austrians had A Gal, which was ordered to support A Sil, which was stomped to fudge anyway. Forgive this unworthy one's clumsiness, sahib. I trust everyone realized that this unit was still around?

SPRING 1907 ORDERS are due on Friday, 28 February 1975. Orders may be made conditional upon the Austrian build. Please observe the following:

1. Austria, send your build with S07 orders.
2. England and France, send your retreat with S07 orders. If you do not retreat, you may build one, so send the build. Players may assume that the unit is retreated. If either England or France, or both, elects to disband the unit and build another, I will publish W06 separately and set a new deadline for S07.
3. We may be moving. If you mail your orders after 20 February 1975, mail them to this address: 1273 Crest Dr., Encinitas CA 92024.
4. Don't forget to vote on the draw.
5. The players should note that one season has passed without change in the supply center count.
