

This is BESEROVIA ...or Beserovien, since all Europe is likely soon to have to pay homage to Der Kaiser... and it chronicles the progress of 1969G. This odd issue is for the purpose of reporting Spring 1907 moves in this idiot game. All other information is as given in #9. This issue is going to the players, to two stand-bys, and to Mr. Calhauer. All others must pay some perfectly exorbitant fee in order to get it.

1969G

RESISTANCE CRUMBLES AS AUSTRIANS, TURKS SCATTER INTO HILLS; ITALY HAS GIANT PEACE STRIKE

Spring 1907: In Fall 1906, Trieste was erroneously credited to Austria. That Power owes Vienna and Venice.

Austrian moves were made by Sealed Orders (from Spring 1901, would you believe). Italy made no moves at all. Stand-by moves are requested: for Austria, Hal Naus; for Italy, Andrew Phillips. See the address list for their locations.

I apologize for the delay in getting this out. I foresee further delays in the future; my time for this sort of thing is becoming quite limited.

Please notice the enclosed change-sheet for my House-Rules. They are effective immediately.

AUSTRIA (Welsh): BY SEALED ORDERS: A Vie-Tri S by A Ven (A Vie /a/, A Ven /d/ /Tus, Apu/).

GERMANY (Lindsay): A Mun-Tyr, A Tyr-Ven S by A Rom, A Pie, & A Tri, A Boh-Vie, A Sil-Mun, A Kie H, F Mid-NAF, A Yor-Edi, F NAT-Mid S by F Eng, A Mar H, A Spa-Por.

ITALY (Just): NMR. F Tyr, A Gre, F Nap, F Por /h/.

RUSSIA (vonMetzke): F Sev-Bla S by F Ank (F Ank /d/ /Arm/), A Mos-Sev, A Rum-Bul S by A Ser, A Ukr-Rum, A Gal-Vie S by A Bud, A Den H, F Nwy H, F Swe H.

TURKEY (Ansoff): A Bul S ITALIAN A Gre /a/, F Bla-Ank S by F Con.

FALL 1907 MOVES are due Friday, 11 September 1970. Players should note in the Russian moves the last instance in this 'zine of Miller's Rule. The invalidated Russian support (F Ank) was not necessary to F Sev-Bla, so that the practical consequences of the use or non-use of Miller's Rule were in this case nil.

I would like to thank Conrad vonMetzke, the only player in this game who bothered to vote on the rules questions. Since I received only 9 votes out of 52 eligible, I made up my own mind, as I said I would. If any of you is displeased with my decision, I hope you will consider voting the next time I put something up for player decision (which I may not, considering the picayune response I normally get).

This was, by the way, Pandemonium Publication #188.

Moves may, of course, be made conditional upon the direction of the Italian retreat (if any).
