**SEASON'S GREETINGS FROM BORIS & MS NAR!**

This being a perfect opportunity, both Boris & Ms Nar and their alter egos, Paul & Meg wish you and yours a Happy Hannukah, a Merry Christmas, and a prosperous New Year. And for your present, we'll give you an extra week to mull over your orders.

Boris has a lot of "use or lose" leave to burn up this holiday season and has several projects in mind for his planned three weeks off, several of which concern the 'zine. Included are transcript updates for "Boris IV-VI", reviews of the House Rules for 1830, 1835, STELLAR CONQUEST, KREMLIN, DUNE, and BOURSE, finalizing House Rules for GM DIP and COSMIC STELLAR CONQUEST, producing disk-based versions of the game maps, finishing my KREMLIN adjudicator program, compiling a German-English dictionary for 1835-B, and a "Hall of Fame" feature for Boris #25 listing all our winners and the leaders in Press Excellence and Super-Sudsy. That and finish NIGHT & MAGIC II, clean the "Futility" Room, fix the fence, and get a few fit games in, and watch the Colton Bowl.

Yeah, right. I'll see the Bowl, get the gaming in, some progress in N&M II, and parts of the dictionary done. After that, good luck.

Hank Burkhalter has resigned as Atreides in our DUNE game. If you are interested, contact me soonest so we don't slow the game.

"1835-A" will almost certainly end next time. "Greed is Good" made it into SR 9, so will finish in about four months. "16 Tons" could end next month with a bankruptcy, although I doubt it. "Boris VII" starts next time. We'll be replacing "A" with a new 1830 game; we have five signed up so hurry for that sixth slot.

**BORIS'S BULLETIN BOARD**

**THOUGHT FOR THE MONTH:** Don't get drunk unless you're willing to pay for it  
 --Capt Montgomery Scott

Don Chianery wants to GM some games of 1830 and 1835. If interested, contact him soonest at his Asheville address or via his Cincinnati maildrop if you daily.

Lee Fendler, Jr, is closing down his *Get Them Done Now!* A pity in that it's the most punctual gaming 'zine I get. Lee has signed on here, so soon y'all will get to cross pens with him.

Rules for QUANTUM MECHANICAL DIP are on page 8. Enjoy.

**NEWS RELEASE.** Contrary to popular belief, The Rookie, Rob Racicot (Austria, "Boris VII"), is not a graduate of the Wormtongue school of backstabbing. In fact, Wormtongue and I have a remote acquaintance through work. I do know enough about him though, that if we were in the same game, I would personally see to it that his armies were crushed and the women and children enslaved for all eternity.

**BOOS & KUDOS**

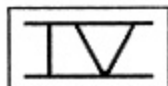

This month's Madame Bolduc Press Excellence Award goes to Rob Racicot for his news release (above).

No Ms Nar Super-Sudsy Bomb will be awarded this time. You guys must be improving.

**DEADLINE FOR ALL GAMES IS NOON (CST) 8 JAN 94**

## WORMTONGUE WARMS, WEST WANES

Fall 1910

CLIFFHOME--Italy continues to scavenge English centers while Wormtongue prepares to rip out his living heart, ROM--or could this *dance macabre* around BRE and SPA be an elaborate mechanism for converting useless English fleets into marauding English armies? The question for Wormtongue, of course, is where to find those last four centers. ROM and NAP certainly, but these can be difficult acquisitions if protected by fleets to the west. STP and Scandinavia can be forever barred by just three English units. TUN is unreachable without sea support. BER and MUN are staunchly protected by the Kaiser. MAR might be taken, but probably can't be held. Meanwhile WAR looks a bit shaky.

## GERMANY OUT! HOW LONG ITALY?

Winter 1904/05

**WALL STREET JOURNAL**--The market had anticipated Germany's defeat, so her surrender caused no major stir. Some analysts think it might be good news in that it could hasten the impending collision of the giants. France needs to make quick work of the Italian remnants and to develop a clear defensive strategy with England against the Eastern colossi.

Eng-Ms. Nar: You just don't appreciate truly fine journalism!

### BORIS WORLD PRESS REVIEW

**VATICAN VIEW**--The Hapsburg Emperor today participated in the Christmas celebrations in the Vatican. After the dual thanksgiving ceremony (for the liberation of Italy from the erstwhile Neapolitan upstart, and for the final elimination of the Moslems), the Emperor returned the Papal States to the Pontiff, personally crowning him "King of the Papal States." Various other honors were given by the Emperor, to include crowning Mary Sobieski-Stuart as "Queen of the Kingdom of Sardinia and Sicily" thus restoring her ancient line to at least a portion of its lost power. Her descent from Henrietta, Duchess of Orleans also occasioned some favorable comment from the French contingent present, though the British maintained an aloof silence throughout the proceedings.

## Quantum Mechanical Diplomacy

A DIP Variant by T. Welker, W. Heisenberg, M. Planck, et al.

- 1.0 The standard rules of DIPLOMACY apply unless otherwise stated.
- 1.1 The standard laws of physics apply (using the Copenhagen interpretation of quantum events even though many worlds is better because we haven't got an infinite number of parallel boards) unless otherwise stated.
- 2.0. Each power starts with their choice of the following particles in their home state (or modes of vibration in the matter/antimatter field), with the restriction that at least one fermion and one boson is taken, and that Russia may not take fermion STP(nc). The particles are similar to units in standard DIPLOMACY.
- 2.1. Fermions may only exist in "sea" provinces, as they have Fermi statistics (fractional spin quantum number). Bosons may only exist in land provinces, as they have Einstein-Bose statistics (integral spin quantum numbers). Coastal provinces have variable statistics so either particle type can occupy.
- 3.0 MOVEMENT: In accordance with Heisenberg's Uncertainty Principle, the location of the units is represented by a probability wave. In accordance with our aim of keeping this variant simple, we will abstract this to the following system:
- Each particle has a 50% chance of being in the province it is placed in. It has  $(50/n)\%$  chance of being in one of the  $n$  adjacent provinces. If at any time there is a chance of two particles being in the same province, the probability wave will collapse and the precise position of the particle will be determined by the GM, using decimal dice and the above formula. Specifically, each turn the GM will process all the order with the assumption that they would have succeeded. He will then check to see if any probability wave functions overlap. This will occur if units are within two provinces of each other (example: units in GER and TRL will have their wave functions overlap in MUN). The GM will then collapse the wave functions of the particles. If after collapsing, the particles are in the same province, a normal stand off is assumed to occur, with the particles with most supports/strengths getting in. The GM will determine the position of each unit that has an uncollapsed wave function using decimal dice.
- 3.1 if a unit has moved further than is theoretically possible due to the collapse of a wave function, the law of relativity will come into play and the unit will be double strength for that season only.

-----  
Adapted slightly from the rules published in *Set Them Jots Now!*, #60. This is probably not a serious variant, but I'm looking into adding "quantum mechanical tunneling" of fermions from one coast to the other in BUL, SPA, and STP.

This could be a hoot. Any comments?

Emperor Wins at DRSI  
A New Accidental  
Nexus

Citing a busier than anticipated schedule after moving to TN from laid-back FL, Hank Burkhalter has resigned as the Atrides player. The position belongs to the first person that wants it (including Hank if he reconsiders soon). Refer anyone interested to me soonest.

**ERRATA:** Emperor Fisher has asked how the Fremmen could start at Habbanya Ridge Sietch. Well, er, they couldn't. Fremmen movement is hereby amended: Place 2T in False Wall West, move 2T from Habbanya Erg to Habbanya Ridge Sietch.

**ATREIDES:** (Burkhalter) 3C, 4S, 7T in Arrakeen, 2T in Wind Pass North, 3T in Polar Sink.

**BENE GESSERIT:** (Bodkin) 2C, 2S, 4T in Habbanya Ridge Sietch, 1T each in Arrakeen, Carthag, Tuek's Sietch, & Shield Wall(s8).

**EMPEROR:** (R. Fisher) 4C, 19S, 8T in Habbanya Ridge Sietch, 2T in Shield Wall (s8).

## TURN 2 (continued)

7. Combat: E (♣) w/8T plays Cpt Aramsham, 5T, 5S, Ellaca Drug, and Baliset, dialing 5; F with 2T plays Shedout Mapes, 2S, and Crysknife, dialing 2. Both leaders are killed; E wins 5-2, collects 8S, and discards Baliset.
8. Spice Collection: A collects 2S for Arrakeen and 6S at Wind Pass North. H collects 2S for Carthag and 6S for Oh Gap, G collects 1S for Tuek's Sietch.

## TURN 3

1. The Storm moves to Sector I. F loses 1T in Habbanya Erg and A loses 2T in Wind Path North. It will next move to Sector \_\_\_\_
2. The spice blows are at Haggas Basin (6) and Broken Land (8). But first a Worm appears at Oh Gap and munches on 4T there. We have a nexus.
3. Bidding: B & F receive 2S in CHOAM charity. There are 6 cards available.

Due next time are any alliances, and orders for the Bidding, Revival, and Shipping, and Movement phases. Conditional orders based on which, if any alliances are formed are welcomed.

# MAGIC REALM

BART & CO. THE WACK GUARD!

## The Cast

John Butitta: "Moondoggie" the Sorcerer (Bushytail, Misty)  
 Scott Cameron: "Black Bart" the Black Knight  
 Don Chinnery: "Scitch" the Witch King (Ribbit Silky)  
 Dan Farrow: "Woolly" the optional Wizard  
 Marcel Carbonneau: "Amber Rose" the Amazon  
 Richard Price: "Sir Jordan" the White Knight  
 Jack Shacklett: "Fang Gulfwulf" the Berserker

**ERRATA:** The Crone should have appeared to the Large Campfire with the Beshkers after Scitch's turn. Rule 31.3 prevents the Quest chit from appearing.

## EVENING 18

Monster Roll = 3

Woolly buys drinks (-3G) for the Guard, then T(2,1 = x1), and buys a treasure for 6G and his axe.

After hours of hard bargaining, Scitch fails to make a deal for a pony (5,1 = x4).

Sir Jordan & Woolly grade technique as Black Bart and the Company take on the Guard. First C2 (Carl) lures GHQ (George), C3 (Casimir) lures G1 (Gregor) and C4 (Cyril) lures G2 (Gabe) C6 (Curly), C5 (Cecil), and Bart join in the fun. George swings T4\* at Carl while dodging 6; Carl counters by thrusting H6 and charging 4; Curly fires H1 (5,3 -> L1), ping-pong off George's armor. George and Carl miss each other. Meanwhile, Gregor smashes H5\* at Casimir while dodging 5; Casimir responds by swinging H6 and dodging 4 and Cecil thrusts T4, skewering Gregor. Death enfolds Gregor. Gabe smashes H5\* at Cyril and ducks 5, Cyril also smashes H6\* and ducks 4, while Bart thrusts H3 with his alerted mace. Cyril's pike splits Gabe asunder before either the swordsman's or Bart's blows can score. Gabe too is gathered by the Destroyer of All Things. Bart's mace remains alerted.

Deprived of his prize, Bart calls off Carl and Curly and challenges George to one-on-one. George, noticing that it would be 8-1 otherwise, readily agrees. The two champions eye each other warily for a few seconds. George launches a mighty smash T4\* while ducking 6, but Bart is too quick, smashing H3 and charging H6. George too begins the trip to Pluto's Deemesne. Bart gets 18N & 12G.

# THE BOURSE

MARK CRASHES!  
Winter 1904/05

The Bourse is a game of foreign exchange. Each player starts out with \$1000 American and can invest it in the currencies of the European Great Powers. Each unit of European currency costs its current number of supply centers in dollars. This game is pegged to the results of BORIS VI (on page 3). The game is open to all but players in BORIS VI. Players can buy and sell currencies freely except after a Spring turn (the Bourse is closed to prevent panic selling and rampant speculation). Of course the player with the best net worth at game's end will be the winner.

# Newsletter #1 ON DipCon XXVII

*DipCon XXVII*  
*Chapel Hill, North Carolina*  
*May 27-29, 1994*

The Carolina Amateur Diplomats will again host DipCon in Chapel Hill, North Carolina, in conjunction with the regional gaming convention DixieCon. DipCon is the North American Diplomacy Championships, a tournament which rotates among various sites in North America every year. DixieCon was the DipCon site in 1990, when the event drew its largest field of Diplomacy players since 1983. This year's event promises to be another outstanding Diplomacy tournament as participants from around North America and beyond travel to Dixie for the chance to become the 1994 North American Diplomacy Champion.

Of course, DipCon isn't just about playing Dip with the best players in the country. It's also about meeting hobbyists for the first time, seeing old friends, and partaking of the many side-events, including past DixieCon favorites such as Titan, 1830, United, Miniatures, Diplomacy variants, and others, both in tournament and open-gaming formats.

Below is a list of DixieCon/DipCon staff members, and the functions they are likely to perform. Early registrants will receive future DipCon News letters as they come up, with information such as tournament schedules, expected participants, scoring systems, travel aids, and other news on the upcoming event. Contact David Hood now to put your name on that mailing list.
