## BORIS THE SPIDER

A Journal of Duplicious Doings, Raw Power, and Naked Greed

"Oh, what a tangled web we weave  
When first we practice to deceive."  
---Sir Walter Scott---

### AOR DELAYED!

With both "Achilleus" and BRITANNIA not finishing this time, we're extending the last call for AGE OF RENAISSANCE. We have A & J Bargender, Crandlemire, Farrow, Frueh, McCabe, and Osborne signed up. Are we missing anyone? Anyone want to play in two games? With MAGIC REALM perhaps finishing next time also, any other suggestions?

Strewn about the issue are the additional rules used at this AvalonCon's CIRCUS MAXIMUS tourney. This variant employs five new capabilities and three new tables.

We've had a spate of orders lately that basically call on the GM to make the player's whole move. This is especially true in ADV CIV, DWTK, and 18xx. Stuff like "Maintain ships, rebuild Moscow and Timbuktu" or "Play Scandal chit", or "Connect Berlin and Paris in most beneficial manner." The GM's don't mind expediting things in complicated positions if your intentions are clear enough ("Reinforce Byzantium with adjacent units if it is being sacked"), but we're not here to play your position for you.

**STANDBY ALERT:** We have possible openings for the following positions:

- \*Achilleus\*: Asure and Black
- ADV CIV: Assyria, Crete
- \*Boris X\*: Osborne has first dibs if multiple entries
- \*Boris XI\*: Turkey
- CIRCUS MAXIMUS: Raizedre Al-Ghul
- DUNE: Emperor
- DWTK: Knight Michael

Interested parties should send in orders for each position they are interested in. If the present player again fails to submit orders on time, a random drawing will be held.

### BORIS'S BULLETIN BOARD

**THOUGHT FOR THE MONTH:** "I see Courage comes in all sizes -- but don't tempt Fate."

---General Martok

Double congratulations go to Phil Naest, first on the birth of a daughter 2 Sep, second for having attained e-maildom.

Peter Boyum has moved. New address and phone number are on p 19. Now if he can just find his CIV set, ...

### BOOS & KUDOS

Last month's Madame Bolduc Press Excellence Award (and free issue) was erroneously awarded to Mark Frueh for the 1880 Press. It should have gone to Chuck Hanna.

This month's Madame Bolduc Press Excellence Award (and free issue) goes unawarded.

This month's Ms Nar Super-Sudey Bomb is lobbed at Debbie Osborne, for four NMAs.

**MINAS MORGUL:** Italy quietly follows Austria into the dustbin of History. England should soon follow and Russia, doomed to be ground between the two giants, would be next. France would seem to be the ground where the question will be answered: Will Europe be Christian or Muslim?

**NOTE**

Marcel had the sole set of orders for France in at the deadline, so he took over. On Monday I received another letter from him resigning all games again (presumably for health reasons), so the position is open again. Ms Osborne has first priority, but any interested party is invited to send in some orders. Phil and Jack, you could lose the same game twice! Or emerge gloriously triumphant.

CRITICAL HIT		Long Whip From Rear	Results
Dice Roll:			
2	Defender entangled by whip and pulled out of car (see Dragged Drivers, 16). Attacker loses his whip.		
3	Severe Wound - Reduce Driver Modifier by one.		
4	Arm Wound - Defender must halve all future voluntary strain die rolls (fractions rounded up) and the resulting endurance costs for the duration of the race.		
5	Eye Wound - Vision obscured. Defender may not evade (9.31) future attacks from the side of the chariot on which he was just lashed. Defender may brake normally, and evade attacks from the opposite side of the chariot normally.		
6	Defender taken by surprise. Repeat original lash attack with one less lash factor. The attacker need not pay an extra movement factor for this additional attack.

**TOURNAMENT CIRCUS MAXIMUS**

---

The tournament rules are the same as the standard Advanced Game Rules except as stated below:

1. Starts from a dead stop lose 1 die's worth of MP.
2. Players start with five (5) prep points, not four.
3. During the initial chariot build phase, a roll of "6" for team speed or endurance may be re-rolled at the cost of one driver hit for each. Additional sixes rolled for the same attribute may be re-rolled for free.
  - a. Counterweight (Cost: 1/2): Chariot enters corner using safe lane speed of next corner to the outside (thus a chariot may enter the 20 lane safely at a speed of 24 without paying endurance). Max speed in the 28 lane is unlimited.
  - b. Driver Armor (Cost: 1/2): Subtract 3 from lash factor for all whip attacks against driver. Subtract 3 from hit total when hit by dagger. Divide dragged driver die roll by two, rounding fractions down.
  - c. Wheel Armor (Cost: 1/2): Subtract 3 from wheel damage roll to cart.
  - d. Horse Armor (Cost: 1): Subtract 3 from horse injury roll against your #1 and #4 horses. Does not help against lash attacks.
  - e. Long Whip (Cost: 1/2): Receive long whip and dagger in addition to usual standard whip. Use Long Whip Lash Attack Table. Dagger may be thrown only when the --

#### PRESS:

Albania to all: His Royal Majesty, King Kevin III of Albania, wishes to invite all parties to the pending hostilities to visit beautiful islands of the Mediterranean. There is nothing of value or beauty in our poor country to warrant any attention from your soldiers or sailors. We just wish to be allowed to exist peacefully.

Serbia to Albania--2 neutrals, we each get one, or we end up fighting over one. Let's talk and divide this up, what has been done can still be undone.

Serbia to Bulgaria & Rumania--Would it not be a lot easier if we did not have to watch our backsides among each other?

If the defender rolls equal or higher, the dagger misses. If the dagger hits, roll one die for driver hits versus the target. The standard whip may be used if the long whip is lost. We'll stop here: I (i.e., Chuck Hanna) have usable orders for OR8.1 from everyone except Dan, but everyone may offer revisions. We should be able to play 8.1, 8.2, and 8.3 if everyone's either quick (so that I can get early OR reports back to you) or thorough (so I can figure out what you want to do in all three rounds). With three diesels in play and one on the way, we'll probably finish the game this turn. But it may be close. Official deadline is 1 Oct 97.

Long Whip Attacks From Adjacent Use Standard Driver Lash Attack Table

W, B, S and M = Same as on standard driver lash attack table (see left)

SS = Double Sideslip. Chariot immediately moves two lanes to the outside and may not use any straining for the balance of this turn (see J below) and the next game turn. This is not a normal lane change. There is no movement cost for this event, but a chariot which must double sideslip cannot willingly change lanes to the inside for the duration of that turn. Note that a defender in lanes 1, 2, 7 or 8 would be forced into the wall and flip.

J = Jostled. Driver is jostled. Reduce driver's current modifier by three (-3). Chariot is unable to use any straining including voluntary straining and cornering over the safe maximum speed (such as would be caused by making an inside corner lane change) for the balance of this turn and all following game turns in which its Current Driver Modifier is negative. Thus, all MFs gained during the present movement phase as a result of voluntary straining would be negated except for those necessary to reach the corner square at which the "J" result occurred. Endurance costs for any lost MFs must still be paid.

M2 = Double Movement Loss. The defender rolls two (2) dice, and reduces his team maximum speed by that amount for his next movement phase.

C = Cower. Defender cannot voluntarily attack on his next movement phase.

V = Vendetta. The defender's CDM is increased immediately by two (+2) until he finishes his next move.
