Fowble Wins DwtK!

Congratulations to Wade Fowble for winning our second game of DOWN WITH THE KING. 'Twas a long, painful struggle. Given at least five players, we can run it again (John B, Jack & Rose S are you interested?) I've assembled the "Second Edition" Rules and will post them to the website once I've constructed the revised tables.

Well, we have five (Anderson, Barrett, R Fisher, Scott, Zodda) signed for KREMLIN and plenty of space, so that begins this time (p 16). Can take a 6th or more if some of the worthies reconsider.

The next deadline is a week later than the usual first Friday, due, as has become traditional, because I'll be at the World Boardgaming Championships (Reference 1) on the usual deadline. Still need a roommate (or two) to split \$122.04/night room for five nights. Will also split food vouchers.

IMMEDIATE GAME OPENINGS:

DUNE: The BGs are available. Their prediction will stand.

Gunboat MACH: Have three signed up. Want two or more more.

KREMLIN: Starts now. Have 5, can take one more.

BORIS'S BULLETIN BOARD

THOUGHT FOR THE MONTH: "The next best thing to winning is losing! At least you've been in the race." --- Nellie Hershey Smith

New address for Paul Saunders, find it on p 19.

Tom Cundiff (Reference 2) and Jim Pratt (Reference 3) are trying to organize separate pbem games of GUNSLINGER. Tom's would be "blind", Jim's would be duplicate. Contact them if interested.

ERRATA: English F LPL must retreat oth or to CLY or NAT. French A Wal-Lpl succeeded. Turkish [A Ank-Smy] failed.

MINAS MORGUL: The next season should be quite interesting. Germans in STP, Austrians in MOS and SEV, Russians in ANK, Italians in CON, and the Brits in TUN. The fate of Sultan Ali Cary hangs by a thread. Will Tsar David forgoe defending SEV and help destroy militant Islam by capturing ANK? Can Emperor Rick and King Ron agree on who should get CON? Probably, since MOS is wide open and an English retreat to NAF or WES threatens vulnerable TUN. But they also need the Tsar's cooperation to do it swiftly. Kaiser Rudy must soon decide which faction to back lest he soon be the target of all the survivors.

TROOP MOVEMENTS

Austrian A RUM retreats to GAL. English F LPL retreats to CLY. Austria builds A BUD. England disbands A STP. France builds F BRE. Germany builds F KIE. Russia scuttles F LVN.

Errata: French F GON was destroyed for lack of a legal retreat.

Ragnocitti: Looks like Venice will soon join Milan as a footnote in the history books since the Doge has but three units and one of them will likely be starved out this summer and another this fall. The French war machine has inexplicably gone into neutral, just three cities shy of victory -- good news for the surging Turks.

TROOP MOVEMENTS:

BORIS PRESS REVIEW

France-All: This month has gotten by way to fast. With additional duties at work, and less pay, I've had no time to answer your e-mails, or to write with my own thoughts. Sorry guys. Maybe next month.... No Stabs, just playing along...

France to Turkey: Have you made up with Austria, or just waiting till you finish in the north? Either way OK, just he's pushing north as if he wants to coast thru me to reclaim his areas.....

Due next time are your initial IP allocations and orders for Phase 1.1 (Cures) to 1.4 (Health, if you have appropriate cards.

System rules are posted on the Website as are any special House Rules.

Your cards are:

HOUSE RULES FOR KREMLIN

1. The Advanced Rules as supplied in the game will be used except as modified in these rules. The expansion deck less Card #66 will also be used.
2. The first set of orders mailed in by each player will be the distribution of the 55 allocated IP (these IPs need not be declared yet, merely allocated) and orders for the 1st mailing of Turn 1.
3. Each turn is generally divided into two (2) mailings. The first mailing consists of the Cure, Purge, Investigation, and Health phases. The second mailing consists of the Replacement, Rehabilitation, and Parade phases. The GM reserves the right to separate the turn due to a radically unpredictable intrigue card events.
4. Increasing Influence: At the end of the 3rd, 6th, and 9th turns a separate mailing turn will be issued for the option of publicly announcing increased IPs or acquiring additional intrigue cards. Conditional orders are recommended.
5. Special procedures for the first mailing:
 - a. PURGE: Each Player eligible should write purge attempt orders. Only one of those character will actually have the chance to attempt a Purge; however, since the others do not know who will be active or if a "first purge attempt" intrigue card is used, all characters should have Purge Phase orders just in case.

b. **INVESTIGATION:** Each player eligible may attempt to conduct a trial and/or condemn a Candidate to Siberia. In addition ALL Politburo members must order Guilty or Innocent votes for each member of the Politburo under investigation in case a member is brought to trial. If a Politburo member is put on trial, any other Politburo member not casting a vote for or against the one on trial is considered to have cast a Guilty vote.

6. Special procedures for the second mailing.

FUNERAL: If the Party Chief post is vacant, each of the Politburo members do the following:

- a.) Nominate an eligible Politburo member to become Party Chief.
- b.) Vote yes/no on each Politburo member in case he is nominated to become Party Chief (if no vote is ordered for/against a certain nominee, the vote is considered to be "yes").
- c.) List the Politburo members, other than himself and the member listed in a.) in order of preference, to become Party Chief (regardless of their eligibility for step a.); this list is used in case a second nominee is needed.

7. **Bribes and Deals:** The GM requires a copy of all bribes and deals made between the parties involved in order to be able to enforce the three intrigue card limitation. The GM encourages the players to strike deals where they can.

8. **Assigned IPs** can be declared at any Point in the turn and can be conditional on any events that occur prior to the declaration of the IPs in the same mailing. If, at any time, two or more players have the same number of declared IP on a character, tie breaker points may be used. If this fails to resolve the tie, the GM decides who has control based on when the IP were declared. If the deadlock continues, the GM will flip a coin. Orders such as "declare as many IP on Badenuff to control him in the Purge Phase" will be followed if possible. Any order ambiguities will be handled by the GM as consistently as possible.

9. If a player does not send in orders for the first or second mailing of a turn his characters make no voluntary actions. If he must make nominations, the oldest eligible character is nominated and all votes are "yes" or "guilty". If a player does not send in orders for the "Increase Influence" Interphase:

- a) He shall draw Intrigue cards to fill his hand.
- b) He shall place any remaining IP on the highest ranking politician possible.
