Underlined moves failed. Provinces in parenthesis are where the peice has retreated to. Builds/removals may be made conditional upon FNth's retreat. Since there will only be a total of four winter moves I am going to make next move a winter/spring combination. Spring 1905 moves may be made conditional on the winter season. If Griggs does not send in removal one of his pieces will be taken off according to the house rules. Replacements are needed for both Griggs and Stevens if they miss next season.

why do you make me work over time? This is the second time
that you've sent in orders for pieces that didn't exist.)
ADen-Kie/FNwy(unordered)H

Underlined moves failed. Provinces in parenthesis are where units are retreated to. AMun may be disbanded instead of retreating to Bohemia, Fall 1903 moves may be made conditional upon this. Fleet Sweden does not exist. Germany, I have no doubt that you did send in your builds, however I did not recieve them. The mails now are as bad as they were in the first world war, just pretend it's giving realism to the game. Pawlak and Griggs will need to be replaced if they do not get their Fall 1903 moves in.

Underlined moves fail. Substitutes are needed for Duncan Smith, and Alex Katzoff. John Stevens and Gary Bleming get one more season to get there moves in.

A lot of replacements are called for this time and I'd like to explain the process that we use, if someone's position is up for grabs I call for replacements and whose ever moves I get in first for that position gets it for no charge. So send in moves for those who have NMRed. (No Moves Recieved) and you will probably get the position. What's happened to the press, I haven't recieved any recently, just because somebodys press got lost doesn't mean anyone elses will. I am fairly organized now and will be doing a better job of keeping track of things from now on.

My phone number is 714-344-1589. Does anyone know what Ron Kelly's phone number is? He calls me all the time, but I can't call him. Has anyone ever seen Ron Kelly and Edi Birsan at the same time? I haven't heard or seen Edi so I can't shed any light on the idea that someone brought up claiming they were the same person. I do know that Ron Kelly seems to be in an awful lot of games and that he is a very good player, and stabs unmercifully. Too good, almost, for the short time he has been in on the hobby. Maybe he should explain where he learned to play. From what I've heard of Edi it seems that Ron is a recent graduate of the same school of Diplomacy that Edi went to. I heard Ron was in fourty(40) games! How can anyone be that organized?--MWR
