CONTRACTOR OF THE PROPERTY OF correspondence conserning the games to the gamesmister alker bur-

Becoming a gamesmaster has to be the single most frustrating thing that I have ever done with my life. hy did it have to happen to me. I ask myself. Ind the only answer I can give is that I just am the gullible type. ell here goes the hassles of the games.

Vienne to Turkey/ You didn't think I was dumb enough to ally with someone who can't even keep track of the location of his own units, did you?

CO STANTING LE/ If you have ever wondered why Austria is known as the dual monarchy it is because the leaders are two-faced. Archouse woneld conomic can sign a treaty with one hand and sign an order to stab you with the other. Such trustworthyness will cause konald's tongue, as analogous to Pinocchio's nose, to grow both long and forked. ope Vulerable and Czar Zikon should consider that before allying with him.

PARIS//((How do you like that, .alker))(((I like it, all of you others should uso slashes too.))) that with German being at France's feet and all that, one would think that the country would soon be under complete French control. However, such is not the case. remeir Gelger upon discovery that he was really Katser vonLagerson's long-lost brother, and therefore intervened totally and comppletely on the side of the Beergarden Empire. Stay tuned to this station for further details (what station?). NOTICE/ On Lay 17, 1974 Stave Nozik's address will be changed to the tollowing/ 810 Felissa Drive, Oxford, Ohio 45056.

The game is going to be delayed. Gary Fleming sent in his moves in plenty of time and before the Canadian rostal strike even started. He had no way to know that he hadn't gotten them in. So after much consideration I've decided to use them and extend the deadline as the issue number six that we sent to him (after the postal strike) was returned to us. His moves are as follow/ ITALY AVen-Tyo, ARom-Ven, FNap-Tyr. Fall 1901 moves and builds are due May 31, 1974. Ocops, I almost forget another correction Germany's move was FKie-Den and not Fkie to Ber which would've been pretty studie.

ON THE ROAD TO GONBOROUGH/ Melvin Schwartz, Holy Moman Emperor, was was heading for Egonborough, capital of England and home city of Ego Birsan, the only Diplomacy player to ever win 10 games, what was Diplomacy? Hopefully Ego could tell him. It was going to be a dong trip from Vienna to Egonborough in the age of war. Still there was one thing driving him on, that question "that is Diplomacy?" It took him four years to reach Egonborough but finally he made it. He walked to the palace residence of the great and all-mighty Ego birsan. Melvin Schwartz knocked and the door opened. At the door stood Ego Eirsan. He was about 5ft 7, had short greasy black hair and held a Thompson submachinegun in his hand. Strapped to his shoulder was an automatic pistol, a mauser. Slung on his other shoulder was an anti-tank hasooka. Hooked on his belt were ten grenades. Ego Eirsan was well armed.

that game are you from? that Boardman number? Are you going to

STAB me?" he asked.

"No, no and no. I'm Melvin Schwartz, the Holy Rom..."

"Are you from 73-6? Please don't STAB me! I'm so tired of people always coming here to break their treaties and to kill me..."

"I just want to talk to you a minute." Pelvin said.
