

PRESS FOR AR74-2

(Somewhere in Erewhon) Melvin Schwartz, HRE and mayor of Vienna, could see a heavenly glow on the horizon. He knew that it was the home of God Walker, Duke of San Diego, and honorary Diplomacy nut. Perhaps Melvin would learn what Diplomacy was all about this time. He still hadn't gotten over his experience with Ego Birsan.

"Nyah Ha Ha, I will fix my readers this tim," God could be heard saying "They'll never get this one. What is Conrad Von Metzke's real name? If anyone gets that, I'll give them a free sub to The POUCH. They'd deserve the punishment!"

"Excuse me, but are you God Walker?" Melvin cautiously asked.

"Why yes, and who might you be? Certainly not an Air Force man, cause I'd recognise you."

"I am Melvin Schwartz, Holy Roman Emperor, and mayor of Vienna!"

"Is that supposed to mean something to me? I am God and know all! I asked you who you were, not what your name was!"

"Please don't scream so! I'll answer. I am the seeker of the answer to the question of what is Diplomacy?" Melvin asked restraining his tears.

"Oh." God simply answered.

"And I was told that you could tell me. Could you?"

"WILL God Walker tell Melvin what Dippy is all about? Will he give him the measurements of Naomi? I doubt it, but you'll find out!"

...diplomacy games also. No charge, if you notice anyone moves missing just send in the ones for the next season and if that person doesn't rectify the mistake you'll get the position.

ATTENTION/ STEPHEN DAVIS, TOM BEREN, TIM CARLETON, ALEX KATZOFF, AND JOHN MIRASOU OF COMMAND POST, (YES YOU!) An OWWT game was announced last issue and you guys were in it. Where are the moves? Tom and Alex are the only ones that were paying attention it seems.

Our final new Diplomacy game is about to open, we only need one more person. Already paid and raring to go are Ronald Fischman, Steve McClendon, James B. Thomas, John Baker, David Hertz, and Cameron Schaffer. Does someone out there want to put joy into the hearts of these people and get them off of my back?

Another game that is almost filled up is our Transatlantic variant. So far we've got Ron Melton, inventor, Tom Beren, Ben Grossman, Greg Costikyan, Cameron Shaffer, and Stephen Tihor. Only need one more. The game fee is only a dollar plus sub for this one!

Our regular game fees are only two dollars plus a sub which is probably going to stay around the present price of 12 for \$3 for awhile.

You no longer have to worry about the Briefing Room coming out late. You people in the games are going to get yours on time no matter what. Ron and I finally noticed that if we got the BR typed up we could send it out early.

FRA (Katzoff) TUR (Chamberlain) Underlined moves failed. All moves for this game and all games is due in about three weeks. October 14, 1974. David Lagerson's position is probably not up for grabs, he changed his address and didn't get a copy of AR, but the game has got to go on, it had been delayed for about three months. I know how frustrating it can get to wait for your moves and its delayed.

### MORE PRESS FOR AR-74

(GOD LAYS DOWN JUDGEMENT) "Diplomacy my dear Melvin is doing what you want, when you want. To be honest with yourself, and care about yourself more than anyone else. Does that answer you question? Not really I suppose. You see I don't really know what Diplomacy is. What I gave you was a philosophy of life. I'd advise you to see John Boobman, editor of Grossout. He might know."

"Well thank you anyway sir." Melvin politely responded, and as he walked away he heard God talking to himself again "Nyah Ha Ha, they'll never get this one....."

WOULD John Boobman know the answer? Would Naomi marry Melvin, or divorce him? And what about Grossout? Well what about it.

All underlined moves fail. Dead lines for this and all games is October 14, 1974. Remember anyone can send in press and it is appreciated. It liven's up the game. This is awkward, I've got this space to fill up and can't think of anything to go in it. I guess I'll just surprise everyone and leave it completely, totally blank. I won't put a single thing in that space. I think that unbroken, empty space is nice to look at once in a while. It kind of breaks up the monotony of the page and makes it easier to read, I mean who can't read a blank space?
