CENTURION desperately needs standbys. If you desire to be placed on our list, which is as follows: Fujihara, Diehl, Kendter, Sr., Mann, Mueth, Weinstock, Watson, Clement, Kelly, Verheiden, Gerber please do so NOW! Its' worth the effort.

THIS IS CENTURION, a magazine of postal DIPLOMACY and related matters. Subscriptions sell for 10/\$3, 11/\$3 to new subscribers. The sub includes the gamefee to ONE game.....Extra games are \$2, \$1 of which is refundable. Articles are generously paid for, at the rate of 2 for anything under 1 page, and 3 for anything over one page. Letters, especially on the SERRANO vs. PRIEST matter and THE SIMI FREEWAY matter would also be appreciated. PLEASE EXPRESS YOUR FEELINGS. Back issues are available for 20¢/issue. All but #7 ~~is~~ available ((are available)). CENTURION is published by CHIPUAHUA publications. Chipuahua publications will be putting out NEW ALBION, the magazine for Southern California. Subscriptions will probably be 10/\$3. It will be offset, and probably appear every six weeks.

SERRANO vs, PRIEST:

For those of you unaware of this, Los Angeles homeowners are having major problems with property taxes. This article directly concerns you. I'd like to hear YOUR OPINIONS on this.

Many of you may know how shcools are financed: at least in Los Angeles they are financed by property taxes. In the case SERRANO vs. PRIEST, this means of support has been declared illegal.

There are many reasons for this. Some say that this allows wealthy school districts such as Beverly Hills to have much better equipment and supplies, than say East Palo Alto((this school district was picked deliberately, more on this later)).

However, I cannot comment more on this for the moment. Maybe((???) more later on in this issue.

1976Acv addenda:

France owns 11scs. It does not get to build an extra unit. It has an A Bre((which has been unordered since Spring 1904). Turkey retreated A Mad OTB. Everything else there is A OK. Change Japan's orders to:

## CENTRAL AMERICAN DIPLOMACY RULES

continued from issue #28

by Russell Fox

xxx

11. Units may be built in any province of your country, INCLUDING ANNEXED PROVINCES. Of course, ~~xxxxxxx~~ provinces which are annexed may not be used for building in the same month in which they are captured.
12. The one exception to rule #11 is that for British Honduras units may be "built" off the board. These units DO NOT APPEAR ~~is~~ rightafter they are built, since it takes a while for them to get from wherever to British Honduras. For this ~~is~~ delay, see rule #13.

13. Also see rule #14. TABLE:  
die roll on two six-sided dice.

2. ~~a~~ Unit sunk on way to British Honduras by Loch Ness Monster. No one believes this however, so no news is ever told to the British player
3. British pound sunk so low that there will be a delay in building the fleet until the next building season. News of this reaches the British player~~s~~ in two turns
4. Mapmaker doesn't know where British Honduras is and left it off map. Will take extra 1-3 turns
5. British player forgot to send enough money for unit to be built. Unit will be normal strenght.
6. Storms at sea. Unit gets delayed 1-2 turns.
7. Peaceful journey.
8. Tarzana flu strikes ship and causes one month delay
9. Ship runs aground on Mini Barrier Reef causing everyone to laugh in hysterics. ~~Causes~~ Causes oneturn delay.
10. ~~British~~ British ship-builders on strike. Causes 1-6 turn delay.

16. Use the following table to see how long a unit produced will take to reach British Honduras.

die roll on two six sided dice

2. Takes two turns
3. Takes three turns
- etc....

17. Now, some of you may be a little confused....((so am I))so here's how you work the British Honduras reinforcements. First, you roll on table 16 to determine the time it will take for the reinforcements to arrive. Next, you roll on table 18 to determine WHERE they will come on. Then, you roll on table 19 to see((continued in rule 20))...

## 18. TABLE:

die roll on one six-sided die. If the result is.....

2. Cay Sea
3. Cay Sea
4. North Pacific Ocean
5. South Pacific ~~XX~~ Ocean
6. Gulfo De Panama

## 19. TABLE

die roll on ONE six-sided die.

- 1, 2, or 3: Peaceful Journey
4. Roll on Table #13
5. Roll on Table #14
6. Roll on Table #15

20. ...if you have to use any of the supplementary tables(~~xx~~ 14-16). If you ~~don~~, then ONCE(or one time) roll on these tables. If you should roll a "Peaceful Journey" than nothing happens. If, however, you get some other result add or subtratt this time from the base time (# rolled when using table #16). Then roll on table #19 until you get a "Peaceful Journey" result (either on table #19 or one of the supplementary tables.).

21. There is an error...all B.H. units must use these rules to be placed on the board (that's reinforcements.).

22. Capture of Loch Ness Monster Rule. Any B.H. unit which gets a "Captured the Loch Ness Monster" result when using table #15 will ~~xx~~ know the following. The Loch Ness Monster is just that. It moves like any other unit(s). However, since it was captured, it is under the control of the B.H. unit that captured it. It may release the monster. However, the monster, after it has been released is under NO ONE's control but the GMs. Here is how movement works It is done randomly by the gamemaster. Also, the Loch Ness Monster ALWAYS gets to move wherever it wants. Any units in a space that the Loch Ness Monster moves to are DESTROYED!!!! Also, if the Loch Ness Monster should move to a coastal province, it is considered settled and will remain there. Whoever...

owns that province gets an automatic FREE UNIT!!!! However, if that unit is destroyed, it is NOT replaced.

30x 23. Montezuma's Revenge Rule. This unit who gets M.R. will destroy any unit blocking its entrance into the game. If there are no blocking units, it will function ONCE, and only once (or until it is used, I mean it will always function as it, but once used, that's it) as the Loch Ness Monster, except that it's(the unit) movement is NOT random. However, it will work on ANY unit, including a BRITISH unit.

24. "I loveeeeeeeee Howard Huggins rule". If a British unit should possess this horrible weapon of terror, usable only once, he will follow the following details of use(usage): This is a mobile weapon. It may be dropped anywhere. If there is a unit in the province it is dropped in, that unit becomes x clogged in red tape/etc. and will be unable to move for 1-6 turns. If there is no unit there, then nothing happens(this is, of course, at the end of the turn).

25. TABLE: There is a 50% chance that any B.H. unit produced OTB will be a normal (1 strength) unit. There is a 50% chance that if it is not normal, it will be 2 times strength. There is a 50% chance that if it is NOT ~~2~~ 2 times strength it will be 3 times strength....etc....

26. Rules 12-25 cover the British reinforcements.

27. The game begins in January 1982. January corresponds to Spring, February to Fall, March to winter; April to Spring etc.

28. ADDENDA on the B.H. rules. A loss of a turn means that the unit will get there ONE TURN QUICKER. A gain(delay) means that it will take one turn longer.

29. Victory Criterion is 12 units on the board. A militia counts as 1/2 a unit. Double, triple, etc units count as ONE unit.

30. Only fleets may be built off the board.

31. The Canal Zone is to be treated like Suez in the Youngstown Variant.

32. The following are the players in this game: British Honduras, Guatemala, El Salvador, Honduras, Nicaragua, Costa Rica, and Panama.

The above rules will be continued.

Have a good new year, and may it be as pleasant to you as I hope it will be to me.
