-----VERY IMPORTANT ANNOUNCEMENT-----

As of June 26, 1977, my address will be: Russell Fox  
c/o Golden West Forensic Institute  
University of Redlands  
Redlands, CA 92373

I want to emphasize one thing: all orders should go to this address:  
Russell Fox  
5160 Donna Ave.  
Tarzana, CA 91356

What this means is that from June 26, 1977 through JULY <sup>14</sup>~~16~~, 1977 I will be at the above address. However, orders do not go to the first address, but to the bottom address. I hope you understand this: it is important. While I'm at the top address, I will throw out junk which I receive(this includes orders).  
NO PHONE CALLS WILL BE ACCEPTED until after ~~June~~ July 16.

THE DEADLINE FOR ALL ORDERS IS: JULY 16, 1977.  
except 1976ID, due to Lee on JULY 11, 1977 to Lee.

Now, here is where mail sent to me goes: ORDERS, TRADES(except if I tell you otherwise) got to go to my Tarzana, CA address. Personal letters, (how's the weather up there?) etc(and designated trade copies) go to my Redlands address.

On to another subject. As some of you know(I hope you do, since you're reading this in GLASC), GLASE, the Greater Los Angeles Simulations Convention II is being held. It has many wothwhile events, including Dungeons & Dragons, La Battle de Moscow (I still can't spell that game properly), and of course Diplomacy. I hope you enjoy yourselves, since I did work on this erstwhile convention. Who do you think did the mailing addresses?

Some of the people from our mailing address that should be there: myself, the Beyerleins, Conrad von Metzke, Marc Lubin(player in 1977FG), and some others who my memor y forgets. If I only was young again(!!!).

A couple final notes before we enter the wide world of the games:  
the owl with white(and now gray)sideburns  
anonymouse

We rejoin the investigators in the San Sui Internation Flea Market and al airport((lousy joke, whoever wrote that)). Thetherfore((I didn't write it, I only typed it)) they immediately went to the Casino.

As Colin entered, he noticed how small it was. It was not even as large as any of the sadly small Las Vegas Casinos. He walked to a row of slot machines, and put in(as the machine said) 10 Suis(equivilant to 10¢). He pulled the lever and lost. However, on the other side of the machines were a number of telephone booths, one per slot machine. He thought he heard the clanking of coins in the machine opposite his slot machine.

He walked into the booth and saw about a hundred fuis onthe floor of the the booth and said, "PHOOEY PHOOEY PHOOEY." He walked out of the booth, ignoring Go, who was talking to his sister, Stop Milk(as you might remember Go's real name is Go Tea.

for more laughterfunfrolicsmerrimentmus&c stop reading this but  
for the owl with gray(see later in this issue)go to p. \_\_\_\_\_

This is CENTURION.

This is some more editorializing. Some of you may have notice that our usual typewriter is not with us today. This is due to a breakdown of its' return key necessitating the use of this Smith Corona Coronamatic. It usually contains typewriter cartridges (instead of ribbons) but since this is going on stenciã, there is none.....I DO NOT reccomend anyone for buying this machine----it eats up cartridges.....

## THE OWL WITH WHITE SIDEBURNS...

by me.

When we last left our friends, they had just arrived on San Sui an tropical island located in the Carribbean just 30 miles from Cuba. We rejoin them on "Avenida Marcos" near the Presidentail Palace. It seems that a parade is occurring...

"Somos en el dinero, Somos en el dinero," began the aid of camp tp San Sui's el presidente, "Nuegros Antem Nacional....Repitan despues de mi:

Somosen el dinero, Somos en el dinero,

Si, somos, somos en el dinero.

Usted es en el dinero, Usted es en el dinero,

Si, usted es, Usted es en el dinero.

Todos son en el dinero, Todos son en el dinero,

Por supuesto, Todos son en el dinero.

Somos son ricos, Somos son ricos,

Si, somos, somos son ricos.

El Presidente es en el dinero, El Presidente es en el dinero,

Por Supuesto, El Presidente es en el dinero.

Vamos unos dineros, Vamos unos dineros,

Vamos unos dineros, Vamos unos dineros.

Somos en el dinero, Somos en el dinero,

Si, somos, somos en el dinero.

Somos en el dinero, Somos en el dinero,

Si, somos, somos en el dinero!!!!!!!!!!!!!!

Then everybody sang the anthem, appropriately called "San Sui's National Anthem," and Go aksed Colin about the history af San Sui, which Go never heard of (It's hard to hear an Island). Colin began, "San Sui was formerly known as San Jose dela telavición. In 1973, July 30, to be exact, which today is July 30, 1977, a fefferendum put out by El Presidente, El Maestro, y el Dinero Rico el Sr. Jorge Smith was approved by an overwhelming majority 2 votes to 1 cast ballot. Atthis time, Tokikuku Wine, Inc., started investing money in San Sui, and this changed the people from poor, impoverished souls into extremly rich, very prosperous, people. Their capital even has a new name:"Prosperous." Their president is elected every 87.2 years, according to the nation constitution which was held in Buena Ciudad last year. Their national dog is the Suian Terrier, also known asthe Mexican Chihuahua."

44444"Who cares about all that junk" says Go.

"I don't know who cares, but the typist must think that someone does, or else he wouldn't be typing this right now....."

"You know, we ought to find that casino"

"It shouldn't be difficult, it's the only one in San Sui."

After taking the wrong turn on ~~the~~ "La Autopista del Sr. Marcos" and heading toward the Tokikuku Grape Farm, they turned around and looked in every conceivable spot on San Sui for the Casino, they found themselves in front of a shack near the end of a small peninsula.

"This couldn't be it" said Go, "We're in the city of Prosperous, not Los Angeles or Edison, NJ"

"But look at that sign written in the sand, " as Colin said that, Go noticed some rocks in the sand which formed the following drawing:

C A S A N<sup>O</sup> (who said I could spell?)

"Yep, this must be the place, " said Colin.

As they entered the place they heard some men talking.

"I'll bid 200"

"so we have a bid of 200 Suian Sokos Yen to the man in the burgundy shirt, do I hear 250?"

"250." "300" "350" "400" "500" "1000," said Colin who moved into the room.

What is Colin bidding on? Is it animal, mineral, or bed? Will it be exciting? What if I were to tell you that it hoots? But it is NOT the owl.....

((we continue with the story))

We rejoin our travelers on flight 707 on World Airlines from San Sui to Los Angeles. In fact, we rejoin them just a few minutes above the city.

"Go," said Colin, "Why did you buy that Pink Flower for \$10,000?" asked Colin?

"Because it's a clue to the whereabouts of the owl. Look carefully at the flower. It's not an ordinary flower. It's got petals!!!!!! And there Grey, and when you touch them, they HOOOOOOT, also there's a note on the back of the flower written in Pig Latin which says the owl's in Los Angeles....."

"Passengers, hick, this is Captain, Hick, Pilot, Hick, Jones, Hick of World Airlines, telling you that we'll be landing in about 2 seconds... (at that a huge THUMP is heard), make that, hick, negative 2x seconds, at Los Angeles International Airport. It is 63, and overcast. There's too many people in the movies, I suppose. The weatherman calls ~~me~~ for night and Morning low cloudiness, with sunny days, and highs around 74. Gee, if I could get that high on pot it would be good! You may...."

(some time later)

"Ah," says Colin, "K Los Angeles' Bonaventure Hotel, what a beautiful place. And I love driving here..."

"Turn on the radio to the Dodger game," says Go, "790 on the dial. They're playing the cubs today."

"And after one inning of play, Cubs 7, Dodger noting. Your American Lung Association urges you to remember your lungs. They keep you going. In fact, without them, where would you be? So please, don't irritate them. Don't smoke and Stay out of smoggy air..."

"I guess we're going to have to leave Los Angeles," says Go

"It's a matter of life, or smog."

"I'm turning the radio off," says Colin, "I don't need to hear any more bad news."

But before Colin could turn it off, he heard something which made him stay tuned. "We interrupt his program to bring you this special announcement. Three robbers have broken into the home of Dr. Jose Santoyo, professor of Owls at Taft University in Woodland Hills. We'll bring you more information as soon as available. CONTINUED-----

Also, The Air Quality Management District has predicted second stage smog alerts throughout Los Angeles ~~Quakery~~ County. Wait, we have more information on that daring robbery. Our reporter, Jerry Cates, is on the scene in Woodland Hills."

"Yes, folks, that was indeed a daring robbery. It seems that all of Dr. Santoyo's papers on the probability of Electronical Kontosis in Kapitricophics and Owology were stolen. Five members of Dr. Santoyo's research team, which has been conducting reasearch here in Woodland Hills, were taken hostage as the robbers ransacked Santoyo's office. And, oh hello Linda, do you love me? Yes, you do, good, then I'll---"

"And we'll bring you back to the Dodger game in a minute, but first, these commercial messages."

"Do you have---diarrhea? Do you feel ashamed to talkabout it? If this is yor problem, take Pepta Bimol. Pepta Bimol coats your stomach with Luctie paint. We ~~guarentee~~ guarantee that you will not have diarhea EVER again. We also can guarenttee that you'll never do a lot again. So remember, Pepta Bisma."

"Support your cancer society by getting Cancer. How else can we keep those donations coming in?"

"And now let's look athe dodger's score:After 1½ innings played: Chicago Cubs 14, Dodgers 0"

At that, Colin said, "We're going to Woodland Hills!"

Colin stopped at a nearby gas station and asked the attendant how he could get to Woodland Hills.

"Well ya just take the Ventura Freeway to the Winnetka off ramp, and ya can't miss it. It's the only town on the block...."

~~REAR~~ LATER

"Doughnuts for sale! Doughnuts! The Ventura Freeway Doughnut Seller Sells. Hot fresh Doughnuts! Don't worry about howlong it takes for us to make them(just 3 minutes), you're not going ANYWHERE, Doughnuts!"

"I wish that attendant would have tolda us that the Ventura Freeway doesn't move."

"Freeways usually don't, except in earthquakes, Go."

LATER, about 1 block down on the Ventura Freway...

THE NEXT DAY...

Press; VERLIN: The government today announced the vanning of the letter (curse it's mention) "b" From now on that (expletive deleted) letter will ve replaced vy the letter "v"

MUNICH: The government of Vavaria, also known as the Vavern's Shmaukensfinkenschtein (or some such) today supported the drive into France vy the 5th Army. Units of this force, assisted by Herr Herr, mayor of Munich, helped the army with artillery duty. Their paintings were good (don't you see the reference to "art"?)

PARIS: Reports from this veautiful city confirm that the Germanization effect has happendd. Paris used to ~~ha~~ ve a junk yard, now it is a place people are proud of living in; no longer is there a swinish government, just the superior German race.

DANZIG: Kaiser William Russell IV today gave annual "state of the state of the empire address". He said it was on 7th Avenue. Then he went into a discussion of the current "Eastern Front" situation.

"Der var is govng vell for us"! the emporer vegan, We will win!!! Our forces are now closing in on Warzawa from the North, South, East, and nera East through Palestine!!! Our Turkish allivs are soon going to move through Vudapest (according to a recent dispatch, although this might danger a non-aggression pact now holding with the Austrians). The English have succeeding in capturing Scandinavia and Northern Russia. ( We hear applause). Our forces have captured Paris and the wine producing areas in Vurgundy!!! Our English friends have taken Vrest and the Atlantic!!! Our exclamation point is almost ruined !!! Vut that will help our period (get it, ha ha ha...).

HAMVURG: Rumors are abound about the elimination of the letter "c". These are omconfirmed at the moment, but quikley new poliçies are being offered vy the superior government of our Kaiser, Kaiser William Russell IV.

Note, you might want to subscribe to Andy Cook's new magazine. Since I have relatively little info, and right now I don't have his address handy, all I'll say is that he seems reliable enough for you to have interest and if that's the case, right me for his address.

HAVE FUN AT GLASC!

ONE PLUG:

LIBERTERREAN (Jim Bumpas, 948 Lorraine Ave., Los Altos, CA 94022) has openings in a gigantic game based on World War II. Each player will have one country and each country shall pick its friends and enemies. These countries shall then fight it out in a scenario. Production rules based on those in Third Reich shall be employed, and the game will be based on Armored Barbarism, and I believe the Firefight! map shall be used. Gamefee is 25¢/turn, plus a \$2 refundable deposit, plus subscription at 10/\$3. Excellent mimeo magazine using a selectric (I wish I had one) typewriter.

Please excuse the typing. This is on a machine I'm not used to.  
NOTE: I'm sorry that the OWMS is also on page #1, that was done by my brother, trying to imitate my genius. Even though I dislike the front page, I'll keep it. NOTE THAT ALL ORDERS GO TO 5160 Donna Ave., Tarzana, CA 91356.
