This Issue of Circle Trigon, published by Bob Ward, 8665 Florin Road # 176 and chronicling games 72 FJ and 73 AA, is late. My apologies. I had a National Guard drill starting Friday night which did not permit me to get the issue out on time. The deadline has been adjusted. Please note it.

Berlin: The German government fully agrees with Turkey that St Petersburg is in the English sphere and that Lord Norman is indeed master of the Northlands. The Germans are also grateful that a truly enlightened ruler is in control of the East as the Russian government sorely mistreated its people with a ruinous war in the West.

London: Lo and behold, there came to pass, Christ returned to Earth on this day 25 of December 1902. And yea verily as he prowled the streets of London he was mugged twice, raped once, and arrested for crossing interplanetary boundaries to incite a riot. When asked to comment on this, Lord Norman responded " Jesus who? Flog him! "

And Yea verily Jesus was brought to trial and sentenced to 48 hours on the cross and then life imprisonment in a cave. And yea verily Christ claimed he would escape within 3 days after being sealed in the cave. And lo and behold 3 day passed and the cave was opened and yea verily I say unto thee " lo and behold " Christ was nowhere to be found! When ask to comment on this, Lord Norman said " Wha...?, Jesus who? Did what? Oh, thats nothing. Fogani's been doing it for years! Where's my latest copy of Play-boy? Damn! the pages are all stuck together, I don't want to be distrubed. And yea verily he retited to the bathroom! And it came

pass that Jesus again returned to the Earth on this 15 of February 1902. And yea verily his skin color was a soylent green. And he spake unto the crowded thongs " Yea verily, I have returned" and lo and behold lightening struck the Earth. And Jesus was burnt to a crisp! And lo and behold Jesus became the first crispy critter and the breakfast cereal empire was begun. And yea verily when Lord Norman was asked to comment on this he said " pant...pant... I told you...pant... I don't want...pant...to be... Aaahhh!"

And it came to pass that all of London was to be forever enshrouded in fog. It was as if, to pay for their sins, all of London was to be fogged!

SACRAMENTO: I wouldn't touch a response to that with a ten foot lightning rod! Aaahhh!!!!

Spring 1902 moves due 6:15 PM June 8th. Thomas McCloud, 26540 Chisholm Coirt #4 Hayward CA 94544 is requested to submit stand by moves for England.

(Kremlin) His most regal Czarness of the Grand Empire of Russia Nicholev Parsonitz (LVII) today announced that his country and ours is officially at war with the so called power of Aggressor Homeland. His stated reason for this decleration of war was the discovery of three of that countries agents in the Kremlin. The agenst were given a most horriblepunishment, they were sent back home!

They wre it seems trying to infiltrate the high command top secret document room disguised as members of the Russian staff. Their actual discovery came when they tries to bluff it past a sentry, but the intrepid guard caught one whiff of them and immediately vomitted. After that he was able to round them up as they sought to flee into a storeroom door.

Somewhat later they broke down and cofessed to the interro gaters that they had intended to plant one of the dreaded weapons of the A-H in the staff room, a can of A-H air. The general staff would have been wiped out in seconds if the can had been sucess- fully planted.

AGGRESSOR HOMELAND: We deny it. Anyone exposed to Russian cigar- ettes is fully aware that the only smell offensive to them is fresh, clean, air. Anyway we are quite sure Colonel Penkovsky was framed!!!!

Moscow: So the foul tongue of Aggressor Homeland has struck! Trying to tell the world that our compasses worked by searching out flies. Well, they shall not be allowed to get away with this foul blasphemy, the 4238½ Grenadiers received new compasses which will aid us in our fight with the A-H. The new type of compasses are attracted to sewage, and soon the Army will be marching down the capital streets of Aggressor Homeland (with gasmasks in place of course). No more is that vile Assad's location safe. We will find it and put an end to their evil plans of world conquest!

AGGRESSOR HOMELAND: Word has reached here from Aggressor agents in Russia that the field test of their new Mark XVII Sewage activated compass were unexpectedly set back when the first platoon using them marched into the Czars Palace and disturbed his dinner. The compasses strongly homed in on a stew that is a particular favorite of the Czar, being made from an old Polish recipe that is a family secret. The only known ingredient is the socks of a Russian regiment after a 50 mile forced march.

Smyrna: The Turkish government would like to indicate that it has nothing to do with that silly Athens release in the Fall. We will, however, investigate.

Paris Dec 5, 1901: President Oscar La Ha announced today that France will defend her eastern frontier to the Death.

Budapest: Concerning the odorous 4238½ Grenadiers. After a long brutal diplomatic tilt Austrian Ambassador Awful C. Nile and Russian Ambassador Laugha Minutski proudly announced that they have brought both their respective countries "Peace with Honor" in the Budapest Zoo conflict. Minutski, after personal negotiation with the skunks succeeded in arranging the release of all Russian prisoners of the Zoo War. They are to be released in groups of 15 where Austrian authorities will then rush them to nearby tomatoe juice factories in downtown Budapest where the prisoners will undergo medical treatment that will help them easily readjust to, and be accepted by, the outside world. The "prisoner Releases" will start Dec 1, 1901 and take place every three days until all of the 1355 men are released in a short 273 days or by sometime in August 1902. Both Ambassadors then shook hands confident that the settlement would insure them of their jobs for many more years.

AGGRESSOR HOMELAND. Ambassador?, Ambasator? Those Austrians and Russia's share have funny titles. But then anyone who goes around assigned fractions in Regimental numbers is a little weird anyway.

Trieste: Emperor Blank today announced that due to the tremendous success of the Naval Recruiting Service Austria would be building a new fleet this year to accommodate all the new sailors of the Empire. The Second Austrian fleet will be commanded by Vice Admiral Blue Chow who has demonstrated his fine seamanship aboard the mail packet Minnow in the swirling waters of the never calm Lake Geneva. Chow has reportedly recruited his ships for high seas duty and has been quoted as saying he will occupy the Ionian by fall 1902.

Vienna: It is obvious that Pope Priapus I not only intends to subject his the women of his country to rape and forced servitude but that he also intends that his country and fair cities be subjected to the rape and Hell of war!! People of Italy, arise (so to speak) and put down this devil who falsely claims the position of Pope.

Serbia, Dec 1, 1901: Austrian toy manufacturers have supplied the Austrian army stationed in Serbia with several 183 foot darts with the added improvement of hugh feathers for guidance purposes. They were christened Blanks Supremos and three of the aero-craft were fired today at the Turkish city of Constantinople. The projectiles were manned with a cargo of "vinnerenitchals" which should prove our friendly intentions to the Turkish government.

Constantinople, December 31, 1901 (Via Vienna): Not twenty miles from the city of Constantinople the authorities have found three large projectiles which each bore a box containing some sort of exotic food which Sultan Joel is reported as saying "tasted as if it was the food of the Gods!" Joel is reported to have consumed two boxes of the goo and is starting on the third.

Vienna: 20 miles!! 5 points??

POLITICS AND POKER: THE WATERGATE AFFAIR

Until a few weeks ago I was inclined to dismiss Watergate as a political joke, different more in degree than in basics from the usual run of the mill political sabotage. My favorite line was "If there was a crime called Felony stupidity President Nixon would be in jail." I can't take it that lightly any more. The recent "full disclosure" speech was as phony and non responsive as any in American history. Clearly there are answers not being given, and unless they are furnished quickly the country will have every reason to believe in the active involvement of the President. If such is the case impeachment is not only warranted, it is mandated.
