BERLIN: Arise, England and Turkey and Crush them.

BERLIN: Well, so much for the faithful, half bred German Von Metzke . As for Germany withdrawing, it appears she will go down but will make life hell for you foes of the fatherland for as long as I can. The Austro-Hungarian move was a stab Nixon would have been proud of.

SACRAMENTO: Now just a moment!! To call Von Metzke half bred is all in good clean fun but to compare the Noble Conrad with Nixon is low!!! Of course you may decide for yourself which was insulted.

VIENNA: Strange how the absence of Italy clears the air. Up tonow I have been a tolerant, gentle, honest, player. And then, as soon as Italy went under I stabbed three countries in one move. Yes that was a stab, Normally this would guarantee a stab of France next move, but instead I think I'll revert to my old gentle tolerant honest self except for the slight addition of an insatiable blood lust.

Jamul to Pprt Albianni: Believe it or not, if Germany does not remove Silesia, may I borrow a second fleet.

JAMUL: The Supreme Court of the United States, sitting in Jamul in special session this afternoon, handed down a hugh number of decisions expected to affect the entire future of the world. Highlighted among the opinions issued was the voiding of the revocation of Aggressor Homeland's suspended liquor license, which had initially been yanked by the ABC Board for refusing to serve big blacks. In overturning the Appellate Court, which had overturned the ABC action, Associate Justice Billiam Rehsquish wrote for the majority " it has nothing whatever to do with the specific issue of big blacks; rather it is a matter of national security. The passing of false data and misrepre-

sented data without specific approval of the Chief of the Bureau of False Data (BFD) is an act which the Court can not condone nor endorse. Since it is well known that the Emperor of Austria has size 17 feet, the falsification is, quid pro quo, an a priori non sequitur.. Laudemus me."

SACRAMENTO: For you non California ABC is the Alcoholic Beverage Commission.

AGGRESSOR HOMELAND: The Ruling Council denounced as a hoax the purported session of the United States Supreme Court in Jamul. " It is well known Jamil has no chairs and the native sit on the outstretched arms of cactus. The unapportioned posteriors of the Supreme Court would hardly take such indignity. The story is further branded a lie by the reference to both voiding and passing by members of the Court. The dignity of the Court would not permit such action in a town with no toilet facilities. The final proof though is that Aggressor Homeland has no liquor license in California. The happy weed concession still does quite well, in spite of the defeat of Proposition 19 and we have no need of the revenue from alcohol. Our happy weed is available to all with the price, even ~~for~~ blacks. However, to punish such lies we have indefinitely suspended sales in Jamul and the San Diego Post Office.

UNOWNED? Tunis

Note that Ronald Kelly is now playing Germany. Also, Conrad has asked to be replaced in this game. A Volunteer is needed for England. Conrad may suggest or recruit one which will be announced with the Winter moves.

MOSCOW-London: You know why no one proposed an attack on my beloved homeland? It's because I am trustworthy, honest, faithful, and last but not least, humble. So you see you're attacking a very nice person when you tried to jump me. So.... get the Hell out of Sweden before I get mad and...and...and... uh... ah,yah. Care for an alliance?

Good old Greece: " Gee but its great to be back home?" Not exactly, but it'll do. We would like to caution the Austrians (though I am sure they are aware) of the dangers of using forecast deadlines. It is tricky, depends on good timing and the actions of your neighbors. So watch it!

Rumania: Now wouldn't it be funny if this release was also false.

Smyrna: The elimination of the Russian Black Sea fleet was a real relief, sure took a load off (no shit?). Major reason for destruction was cited as the continued refusal of Russian forces to support Turkish forces in Bulgaria.

BUDAPEST: Russian representatives today walked out of the zoo talks when it was discovered that there were 14 Russian delegates and only 13 Austrian reps. Thus One Russian was forced to stand with lap board in hand for every other song on Radio Budapest. Complaints were also filed by the Russians over song lengths, giving the Austrians unfair advantage and the undecided state of Commercials.

ZOO: Zorba Bear spokesmah for the "Zoo 16" today went on national TV (advanced aren't we) to spew forth the whole story of how Russian soldiers had enticed them into trying the disguised cigarettes and had hooked the poor creatures on the strage Russian blend of tobacco, charging them outrageous prices for the "weed" which they had also traded for the many invaluable Austrian military secrets ( disposition of the soda machine in the Vienna recruiting center for example).

VIENNA: In answer to Zorba's moving speech Emporer Blank today granted the 16 their freedom to return to the Zoo. It is reported that the bears were greeted by thousands of cheering animals on their return. All the animals were complaining of some animal vexing them called a cold monkey. Hmmm.

AGGRESSOR HOMELAND: Russian tobacco is strange all right but it is not addictive. Anyway the recent Russian military campaigns show little proof of any advance information on Austrian plans. It appears the Zoo 16 may not be the only ones in need of the solace of "weed".\*

\* Weed, California of course.
