As it happens I just got a letter from D. Henderson, 8845 Langdon Ave # 25 Sepulveda CA 91343 asking about playing Diplomacy by mail. I am therefore asking Hal Norman to submit a statement of intent to continue by the next deadline December 15th. Failure to do so will result in his replacement by Mr Henderson. Naturally the Turkish build can be conditional on the German retreat if desired.

CONSTANTINOPLE: I guess this is our declaration. For the time I've been in this affair it seemed more a matter of being out of reach than nuetrality. But don't quote me.

RUSSIAN RETREATS ARE DUE 6:15 PM DECEMBER 19th.

John Morgans move s arrived late last time as I am not counting
this as a second miss. However the collapse of the position is quite
instructive as to how non receipt of orders can sabotage a good
position.

I am requesting stand by orders for France from: William Clumm

AGGRESSOR HOMELAND: Advance units of the Homeland Army are
reported prepared to move into Russia to safeguard essential
supplies believed the target of the Austrian advance. It is well
known that the Austrians intend to ship these supplies to the
Budapest Zoo, the target of a Russian boycott of smoking supplies
since the peace talks were broken off. It is now apparent the
"peace talks" were merely a screen for logistic deployment for
the invasion. Other nations should take note.
