CIRCLE TRIGON is published tri weekly by Bob Ward, 8665 Florin Rd # 176, Sacramento CA 95819, and sent to those unlucky enough to appear on games 72FJ and 73AA. Your receipt of this indicates you either fall into that class; or you publish a zine of your own and we trade masochistically, or you have no sanity and have a sub.

VIENNA: The Austro-Hungarian Government today officially recognized Aggressor Homeland as a sovereign power in Europe and admitted to secret relations with this group since the outbreak of this war in Europe. The Emperor stated the AH representatives were very easy to deal with asking only that AH receive as compensation for their fifth column work all the sewage of the city of Warsaw. The Emperor stated that the AH trucks were streaming out of Warsaw loaded withsewage and heading in a general Westerly Dirwction to establish their own land of Eden.

AGGRESSOR HOMELAND: Aggressor Traffic Control of Route 1. All trucks must go on double shift from Warsaw at once. The new four star resturant in Budapest has been an overwhelming sucess and we need more sweage for the meal preparation. It is reliable reported the Empoer himself eats here incognito, and only the very rawest sewage appeals to his palate. Expedite.

NEWS OF THE BUTURE:

You will note the 5 week deadline, which is only partly in response to the Christmas rush. I pãan to start law school in January. The present schedule of Circle Trigon and Brobdingnag has me with an issue due two weekends of every three. The two magazines will be merged effective January 18th, and the deadline is to bring the two into conformity. I think that more work every third week will be better for hitting the law books. Also it opens up a wider pool for standbys, while allowing ore pages per issue to cover the extra games. Still no press limits; but the press seems to have dropped off anyway in this mid game stage.

Doug Beyerlein was over for a night on his way to his new job in the Bay Area, causing a minor delay in the issue. I will be going to San Diego once again for the Christmas holidays. so the whole thing may come apart. Let me wish each of you a Happy Holiday of whatever type you may wish to celebrate.
