W'06/S'07 moves due Saturday, January 18, 1992, this should give everyone time to regroup.

PRESS: Dateline Iceland: Genetic scientists here have conclusively proven that R. A. O'Donnell is none other than Bernie Oaklyn. Despite extensive plastic surgery that has changed Bernie's/R.A.'s facial features, hair and eye color as well as body contours and height; the DNA fingerprints show the truth. When confronted with this incontrovertible info., R.A. AKA Bernie became flustered and rushed from the room, assaulting several photographers blocking his way. Mr. O'Donnell AKA Oaklyn's lawyer appeared stunned and would make no comment; but was heard muttering, "What happens when his wife finds out?" This outburst speculated to have been triggered by Oaklyn's perverse sexual history and reputation for self-abuse.
