VERY IMPORTANT * * * * * PLEASE READ * * * * * ALL PLAYERS TAKE NOTE * * * * *

1. All deadlines in this issue falling on Jan. 6 (sorry about that "Tues." bit -- we used the wrong calendar....) are hereby extended to Noon, Tues., Jan. 14. All deadlines (DHG; FHD) falling on Jan. 2 are hereby extended to Fri., Jan. 10. This should allow everyone to get settled in from Xmas vacation before the next set of moves is due, and will enable the following deadline to be set after the mid-year school break. (Note that circumstances have forced us to return to the tri-weekly issue of DPBA sooner than we had planned; but now, at least, everyone will have only one set of deadlines to keep track of....)

2. All General Orders on file with the GM are hereby cancelled, with the publication of this issue of DPBA. Players wishing to do so are asked to resubmit General Orders IAW the revised DIPLOMANIA House-Rule #27 (thanx, Rod Walker & EREHWON):

27. Any player may submit General Orders for his game(s). The orders for each game should be in a sealed envelope, and on the outside of this envelope should be the following information: (a) The player's name; (b) The name of the country; (c) The three-letter DIPLOMANIA game designation (e.g., PFC, SBB, etc.); (d) The length of time for which the orders are valid (e.g., "for SPRING, 1907 only", or "through WINTER, 1908", or "until further notice", etc.). Each set of orders should contain exactly the same information as on the envelope, plus the signature of the player, and, of course, the orders themselves. The orders, as a minimum, should list (a) allies, (b) enemies, and (c) policy objectives. In the event a player who has General Orders on file misses a move, the Game smaster will have an anonymous neutral player make moves for him, using the General Orders as guidance. General Orders thus used automatically expire and must be replaced. If, upon opening them, the General Orders of any player are found to be invalid, they will be disregarded and that player's units will stand unordered for that season.

3. Since we are now back to the three-week 'zine, to keep the games moving, FALL moves will henceforth be required to be submitted at the same time as SUMMER retreats (unless the players send their SUMMER retreats along with their SPRING moves), and

Propaganda --

Berlin (31 August 1905) -- Kaiser Eduard expressed confidence that the Russian occupation of Galacia was no sign of worsening relations between the German empire and her smaller neighbor to the East. "Nicki must remember that even with his allies, were he to enlist Austro-Serbia, Italy, and the remnants of Turkey to his service he would have but 15 forces, and half are deep within his lines. Also, the Italians can not and will never build another unit as we have now totally occupied Italy. It may well be that Nicki needs a little lesson in real-politik." It was not sure what the Kaiser meant by "a little lesson", but speculation in local diplomatic circles is rife that an invasion of Russian Scandinavia is imminent.

Naples (2 September 1905) -- In ceremonies aboard the French light Battleship Normandie, Colonel-General von Schnapps signed the entire island of Sicily over to the Empire of France as a target for naval ordnance. Vice Admiral Zel Aznie accepted the new territory in the name of the emperor. It is expected that its new use will commence with the entry of the second fleet into the area this month.

Russia -- Germany: Peace! Rax! Ruhe!

Smyrna -- Well, this looks like it; will he or won't he?

NSG -- Hang on, Rick baby! With a little luck you'll survive this thing yet.

Propaganda --

Germany -- I leave you, France, to the kindly mercies of England who should speak well of me for it. It is a kinder thing than he would have done for me. I fear their coming and want to be there before they arrive. England, if you wish, I will talk peace with you.

PUC (Continued) --

France -- World: The primary objectives of my new government are to rid my homeland of invaders and to solve our internal problems. If you do not feel our revolutionary zeal, I would suggest that you sue for peace.

France -- Germany: Once should be enough! Remove your troops from my capital, or mine will occupy yours!

France -- England: In the past you have proven very shifty and hungry-eyed. I'm not sure that your sudden friendship should be trusted.

Italy -- A-H: I think my moves answer your questions! If you would like more extensive talks, please contact me.

Italy -- World: One must know what Mrs. Bendarika did to Ceylon in 1964.

Italy -- England: What'll you have?

Italy -- Others: I'm open to suggestions!

Moscow -- The newly-hatched Tsar, Philemon III, stood on a small orange crate and surveyed his dominions today. "As far as the eye can see, HOPE!" shrieked the Tsar. To support his contention, the Tsar pointed out that England, Germany, and Austria seemed friendly and that Turkey had boxed herself into a stalemate. "Therefore we must talk peace with the Turk. We want to make a deal. Offer us one. You can have what you've got if the same applies reciprocally. Please?"

NSG -- There's your chance, Turkey!

Propaganda --

Berlin -- The Government was distressed with the tone of the Council of Vienna's latest press release. It is hoped that this element of dissatisfaction was caused by faulty translation, not by any feelings of discontent among the Council. The Council is reminded that the German Government has kept all promises, private and public, and the righteous shall always triumph. Armies Berlin and Munich are on stand-by alert, making no hostile moves, but ready for any.

Germany -- Italy: What shall we do about France?

Russia -- The Russians are sad that the Austrians have forced invasion by their accusations of cheating.... ##### Russia hereby accepts the kind offers of their humble allies, the noble Italiahalles. ##### The Czar also accepts the apologies of Turkey for antagonizing him at the outset of the year 1901, by drawing funny faces. The Czar appreciates your humble acceptance of a secret treaty which says...take Austria, even if it costs Germany all of her centers.

PVC (Continued) --

Russia -- The great Czar of Russia beseeches her neighbors in Germany to avenge the Russians, who have undergone attack by the Austrians, who moved massive armies from Trieste to Budapest, and mobilized even more troops in Vienna, near the border of an undefended Warsaw. Our treaty demands you defend our honor, as we would have defended yours. The Russians are an honorable and fair people; note how we have released our prisoners in Turkey from occupation.

NSG -- The situation in the West looks like a repeat of 1940. When does Russia get invaded? But then, the Balkans come first, don't they?

DEE (Game of Chaos) -- CHAOS REIGNS AS FUTURE OF AT LEAST ONE ALTERNATE WORLD IS IN DOUBT!

The Players -- Replacement apparently needed for Koning (FRA); if interested, send SPRING, 1909 moves (both alternate worlds) to GM NLT Jan. 6.

GM Note -- After studying the moves (or lack of moves) submitted for the past few seasons, we wonder if the players are really interested in seeing this game continue? We've heard occasional grumbling from the players currently in the game, and there seems to be a heavy turn-over of players (not counting Von Metzke, who is now playing for the second time, there are only two original players left -- Koning and Huff -- and it appears that Koning has lost interest and is dropping out). So we put

DEE (Continued) --

the question to you:

1. Should both DEE-A and DEE-B be cancelled?
2. Should only DEE-A be cancelled, with DEE-B going on?
3. Should only DEE-B be cancelled, with DEE-A going on?
4. Would you like to see one of the two games cancelled (you don't care which one), with the other continuing?
5. Should both games continue?

In responding, just give one of the above five numbers, and we'll understand that is your choice. No answer at all will be assumed to mean that you choose #1. Deadline for voting is January 6, 1969. If both games are cancelled, and you are one of the original players who has stuck it out this far, you may have a free game (either Variant or Regular -- please specify your choice when voting) when the DPBA roster is again opened. NOTE: When voting, please be sure to send in your SPRING moves for both Alternate worlds, in case both games are continued. Also, if both games do go on, please try to get your moves in all of the time -- having only two or three persons send in moves for a season gives us little choice to draw from, and destroys the purpose of the game. Now, on with the moves: (NOTE: See below.)

GM Notes -- No orders received from Naus, Koning, and possibly Just (we're not sure whether the orders we used above were from Just, or were an earlier set of orders rec'd from Von Metzke; please sign your orders in the future, people). Also, Beyerlein sent an incomplete set of orders, which had to be discarded. All sets of orders should contain complete orders for every nation still in the game, or they will be discarded.

Mirkwood -- Barad-Dur: Our alliance still stands. Signed, The Delinquent Elf-King.

Umbar -- Dear Sauron: We wouldn't want any last-minute thoughts of keeping Gondor alive, would we? Nothing like, A Ithilien (S) GONDOR A Calenardhon-Anorien. Just in case, I have ordered a move which will nullify that possibility. I insist that Gondor is the exclusive property of the Haradrim, so I hope you will understand this necessary precaution. Besides, you will agree with me that a little suspicion is necessary, inasmuch as you did not warn me that my support orders were not those you needed. In any event, I dislike treachery, and in this case, I can prevent it. This way, also, I can get a clear shot at Rhovanion, whereas your continued possession of Anorien will cramp things for both of us. Fear not! We will make things miserable for the elves together. /s/ Zaydath-Allah.

Propaganda --

Ankara -- A state of war now exists between the land of the allpowerful Ottomans and the barbaric hordes of Russia. "It is to the interest of humanity that Russia be removed from the world of man", claimed the Sultan Rum III.

Berlin -- Due to hostility beyond the desire of the Germanic people of Europe, a war must be undertaken to place the total German population of Europe under the command of the Fourth Reich. This statement by the ruler of Germany had led many to believe that a new Eastern war is about to hit Europe.

From the Desk of Jeanne Dixon -- My prediction is that Italy will fall next, and Russia will win the game.

London -- The King Sir EDI STRETCH I today declared that a state of unfriendliness exists between his Viking republic and the dictatorship of the Sweetwater Canyon. "No one, but no one sails into the Viking Channel without paying homage to us!" When the King's aide pointed out that the "invaders" were really nobody of any importance, the King had him sent to the Eastern Front as a sled-dog substitute.

Moscow -- A simple letter of policy was given to the German representative in the latest piece talks at the Kremlin. It read, simply, "Should you take one more step into France you shall experience a severe Jaring of your armies."

Paris -- Contrary to Pope Louis XXIX of Avignon's statement on the equality of mankind, the French government today announced that, "Although all men are equal, some deserve more than others; thus, there exists a state of affairs in which some must get more than others; thus, all men, though created equal, become unequal." The Pope's comment on this was, "They can go to Clackers!"

Rome -- We appeal to the nations of Europe to stop the advance of the Russian bear. --T.D.C. Borgia, Pope.

Rome -- The police today found a mad 6'8" English teacher running around the now Sour Marsh saying: "Ribet; Ribet; Ribet" to himself over and over again.

GM Notes -- Note that a Link or Separate order which includes a bi-coastal province is interpreted by the GM to mean the entire bi-coastal province, unless the Link or Separate order specifies a particular coast of that province. If a coast is specified, then the order applies to Fleets only in a "Separate" order; if a "Separate" order is meant to affect Armies as well as Fleets, then no coast should be specified in the order. ### Vice versa, if a player links to a multi-coastal province, but doesn't specify a coast, then Armies may move thru the link to the multi-coastal province, and Fleets may move to either coast. In other words, a link without a coast specified in the order is assumed to mean a link to the entire province, so movement is possible from the linked province to any point in the multi-coastal province. If a player wishes to limit Fleet movement to a particular coast of a multi-coastal province, the "Link" order should specify said coast. (Armies may still move to a province thru a link when said province is only linked to a single coast.) ((This was all in response to a question from one of the players.))

SCC (FOUNDATION GAME) -- FUTURE OF GAME IN DOUBT AS ANOTHER LEADER DISAPPEARS! REPLACEMENT SOUGHT FOR LEADERSHIP OF FIRST EMPIRE!

The Players -- If interested in taking over play of FIRST EMPIRE, contact GM NLT Jan. 6 (send SPR, 8005 moves); Dave, you can still play if you apply for your own pos.

GM Note -- With only three original players left (Gemignani, Brooks, and SECOND FOUNDATION player), and two of these three having expressed some reservations about the game, there is some question in our mind as to whether the players wish this game to continue. So, we ask you to please let us know by Jan. 6 (no vote will be taken as a vote to cancel) -- all players please choose either alternative #1 (Game continues) or alternative #2 (Game is cancelled). Should the game be cancelled, replacement play-

SCC (Continued) --

ers have our heartfelt thanks, and original players, if they desire, may have a free position (please specify whether Regular or Variant game wanted when voting) when DPBA again runs new games. (Original players getting free game are ones who stuck it out this far -- Gemignani, Brooks, and the SECOND FOUNDATION player.) NOTE: Be sure to send in your SPRING, 8005 moves by Jan. 6, in case game is to continue.

Propaganda --

Far Galaxy -- Top Job, illegitimate son of the Mule, swore as he read his father's note. "So he seeks to force me to help him to kill the Lebling Misfit. Even his First Lieutenant can't force me to help him unless he declares me his heir!"

Synnax -- Gee whiz! All you nice people have persuaded me to send a visitor to yore l'il ole module...and what do Ah find? Nothin' but empty sectors is what! They ain't no supply centers for miles 'n miles roundabouts. Ah b'lieve Ah'll just stay in l'il ole civvil-ahzed Trantoor moduule, Ah will. Ovah thar thar certly IZ enough supply secktors foah evrywon. It's jest a kwestion of sharing them EEqually, yew sea. That's whar we gotta watch MIGHTY careful, mighty careful INDEED!

Synnax -- For the second time in recent years fighting raged on Trantor this fall. The Colonies' Empire's brave generals and soldiers caused much destruction to Trantor. They then sailed to Neotrantor, destroyed the miserable hovels of Lebling Mis' Imperial Mud Hut Village, and proclaimed their fearless leader and valiant conqueror Harsin, EMPEROR OF THE GALAXY; thus founding the Second Galactic Empire. The capital of the new Empire was temporarily removed to Synnax. However, despite this victory, the nefarious Mis remained at large and continued to elude capture with the rest of his traitors to the Emperor.

Trantor -- To the Ex-Emperor: While I will probably never build again, neither will you. Too bad, isn't it? Who will be the first outsider "invited" into the Civilized Module? I will not begin the process. Will you?

ERRATUM -- Another oops! Discovered with some moves for another game were four builds for AITR: (B) F Mnemon(39); (B) F Radole(44); (B) F Haven(46); (B) F Iss(50). So change AITR's positions at end of W'04 to: F's 36, 38, 39, 40, 41, 44; 2F 46; 2F 57; 3F 50; 4F 55 (17 -- 1 unit short next year).

Deadline for SPRING, 1904 moves -- Noon, Tues., Jan. 6.

(cont from page 1) --

players are requested (but not required) to send their SPRING moves along with their AUTUMN/WINTER orders (unless, of course, all players send their A/W orders along with their FALL orders). Also, players are requested to try and get their moves in a couple of days ahead of a deadline -- otherwise, with 39 games to GM and type, the 'zine will take a week to get out, which will either mean effective 2-week deadlines, or 4-week deadlines if we extend the deadlines a week to allow for production time.

4. The replacement rule is being revised. Suffice it for now to say that we would like as many players as possible to list themselves as stand-by replacement players for specific games (to automatically submit moves whenever someone misses a move in their stand-by game); we would also like one or more players for each sub-zine to list themselves as stand-by replacement players for the entire sub-zine (this is one sure way of getting into a game!).

The Players -- A new roster will appear shortly. No room here for all individual game changes (see inside under individual games), but remember that many players will be home for the Xmas vacations (Latimer, 18 Dec-6 Jan; Turner, 18 Dec-31 Dec; Greene, 16 Dec-17 Jan; Scholz, hmmm...don't see his note, but figure the last couple of weeks of Dec., anyway; no word from anyone else, but assume Hoheisel & Lebling will also be at their home addresses during the holidays); see previous roster(s) for addresses.

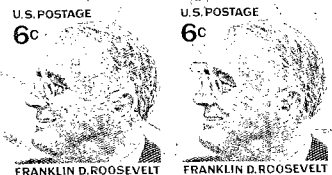

Replacement Players -- Needed immediately for several games (see inside, under individual games; no room here to list them all); send required orders to GM by stated deadline, if interested. Also needed as specified in note #4, above.

The Gamesmasters -- For all games but DFF, DHG, and FHD, Don Miller, 12315 Judson Rd., Wheaton, Md., 20906 (ph. 301-933-5417; call only between 8 & 10 p.m., EST Mon. or Thurs.). For DHG, Terry Kuch, 4242 E-W Highway, Chevy Chase, Md., 20015 (ph. 301-OL6-5845; if calling long-distance, call person-to-person). For DFF (eff. with SPR, 1909 moves) and FHD (eff. now), Buddy Tretick, 3702 Wendy Lane, Silver Spring, Md., 20906 (ph. 301-942-8306).
