### TOJO'S TEETH

Dentist Drilled 'Remember Pearl Harbor' in Japanese General's Dentures  
By ANN BANCROFT  
Associated Press Writer  
SACRAMENTO, Calif. (AP)

Nearly lost amid the World War II retrospectives is a postwar prank that literally had Japan's vanquished military leader chewing on the words:

'Remember Pearl Harbor.'

A draftee dentist drilled the message in Morse code inside Gen. Hideki Tojo's dentures while the general was imprisoned in occupied Japan. The dots and dashes remained for three months before the secret got out and they had to be removed.

'It wasn't anything done in anger,' recalled E.J.

'Jack' Mallory, who made full upper and lower dentures for Tojo in 1946. 'It's just that not many people had the chance to get those words into his mouth.'

Tojo, who had approved the surprise attack that drew the United States into the war, asked for the dentures so he could speak better at his war crimes trial. He was convicted and executed in 1948.

Mallory, then 22, knew that writing out the words 'Remember Pearl Harbor' could get him court martialed. An amateur radio operator, he decided to inscribe the letters in Morse code instead.

Also in on the secret was George Foster, who died in 1990. He was assigned to provide dental services at Sugama Prison near Tokyo, where he extracted Tojo's teeth and sought Mallory's help in making the dentures.

'I figured it was my duty to carry out the assignment,' Foster wrote in 1988. 'But that didn't mean I couldn't have fun with it.'

When the dentures were done, Mallory said he and Foster told other buddies in the dental service.

'We took them on an excursion to the prison to show them our masterpiece,' Mallory said. 'The only ones in on this were my dentist room-mates and myself, all sworn to (See TOJO, page 2)

### SLONIM, ENG STUNG!

[SPECIAL TO THE STAR]

"Well, I guess I'll have to break down and take food out of the mouths of my kids so I can pay illegal aliens to mow my lawn, just like everybody else in Buffalo Grove does" lamented Scott Slonim on the day after he ran his lawn mower over a nest of bees with stinging results.

Scott was stung close to a dozen times on his arms and legs, but nonetheless seemed to be in a cheery mood an hour or so before his appointment to see a doctor. He was going to see the medico because his arm had become swollen.

Perhaps the attack had another ill effect on the well-known Public Defender. In one breath he vowed to stay indoors as much as possible for the rest of the year. In virtually the next he made his reservation to play in the STAR Open Golf Tournament. As a warmup, Slonim also plans to join several TBA owners for a round prior to the owners' meeting on Sept 23, one week before the open. It will be the first time in about 25 years that Slonim has used golf clubs.

MEANWHILE, on the left coast, STAR Bay Area Bureau Chief Tom Eng got stung in a different sort of way.

He and his wife went from San Francisco to Los Angeles to attend Tom's brother-in-law's marriage. The one hour flight took 2 1/2 hours (the radio on the United jet wouldn't work so they replaced all the parts for naught, then discovered that the plane's antenna was loose); the rental car agency had lost Tom's reservation and he wound up paying twice as much for a much bigger car he didn't need; Tom got stuck in the elevator of the L-A County Art Museum; and hoping to cut the trip short, Tom & Char were told there were two earlier flights open to San Fran. When they arrived at the airport, there were 100 people on standby in front of them and they had a six hour wait. Sometimes you just can't win...

But Tom will try to win a foot race coming up in Oregon. (See STUNG, page 3)

TOJO (continued from page one)  
secrecy."

But the secret was just too juicy to hold. One of the men wrote about the escapade to his parents in Texas, they passed it to a brother, who broadcast it on a local radio station. Suddenly, the tale of Tojo's teeth was broadcast all over the world.

Mallory confessed to his commanding officer, who told him to hide while the story was denied. Late that night, Mallory and Foster drove to the prison and woke a bewildered Tojo in the middle of the night to "borrow" his dentures.

Using a crude grinding stone, Mallory removed the dots and dashes.

The erasure came just in time. The next morning, a furious colonel called Mallory and his roommate.

"Is there any truth in this report that 'Remember Pearl Harbor' is inscribed in the dentures?" the colonel barked.

"No, sir!" the men were able to answer truthfully.

Mallory said he never learned if Tojo found out about the trick, which was not publicized in the Japanese press. But a dentist who succeeded Mallory in Japan told him that the general began complaining about the dentures' looser fit.

Mallory, now 71, retired a decade ago from his dental practice in Chico, 90 miles north of Sacramento. Since his military service ended, he has talked openly about the prank. There is even a display about it in the Navy Dental Corps Historical Museum in Bethesda, Md.

In 1969, Mallory returned to Japan for a reunion with several Japanese dentists. Over dinner, he told them the tale of Tojo.

"They thought it was the funniest thing," Mallory said. "They all said, 'Why didn't you tell us this?'"

"I said, 'well, the timing just didn't seem right.'"

**MAYOR SLAMS "VULGARITY" AS ITALY  
GOES ON HOLIDAY**

By Alan Baldwin

ROME, Aug 15 (Reuter) - The mayor of an Italian seaside resort who sparked a so-called "Bikini War" with a reported plan to ban "ugly" women from walking around town in swimsuits said on Tuesday he was merely against "vulgarity."

"It is not true that I have issued any decree," Andrea Guglieri, mayor of the north-western Riviera resort of Diano Marina, told Reuters as the rest of Italy enjoyed the main Ferragosto (Assumption Day) summer holiday.

"I merely made recommendations to combat vulgarity," he said, emphasising that no fines would be levied against anybody who refused to listen to the authorities.

The mayor hit the headlines over the weekend when Italian newspapers, who have dubbed the summer spat the "Bikini War," reported he had banned "ugly women" from his town.

"It's a pleasure to see a beautiful girl in a bikini, even if it's very scanty. But one can't tolerate certain sights," the daily Il

Giorno had quoted the mayor as saying.

"We're making allowances this year. But next summer there'll be no more flab all over the place and buttocks, cellulite thighs and drooping boobs will all be banished."

On Tuesday, Guglieri said he was saddened by the media coverage of his plans when compared to more important issues. "You have the Bikini War on one page and the real war in Bosnia on another. That is really sad," he said.

He cited as examples of "vulgarity" heavily pregnant women strolling around town in bikinis or indeed anyone of either sex baring a big belly off the beach.

"A big belly and swimsuits don't look good," he said. "(German supermodel) Claudia Schiffer, if she were to behave in a vulgar way, would be ugly too."

Most Italians, leaving the semi-deserted cities to the elderly and foreign tourists, ignored the fuss and crowded the country's popular beaches en masse as usual.

But the ex-mayor of the Tremiti islands in the Adriatic intensified the debate by saying Gugliero's remarks and various bans imposed by other mayors elsewhere were racist and discriminatory against ordinary people.

"It's a form of racism," said ex-mayor Giuseppe Calabrese. "It's not just important and beautiful people who go on holiday but also the workers, the employees with their arthritis and cellulite. And they are the ones who spend most too."

A top lawyer on Monday threatened legal action against mayors who tried to limit individual freedoms in their towns and said he made a complaint to public prosecutors.

The Riviera towns of San Remo, Imperia, Finale and Alassio already ban naked flesh from the town centre. Alassio, which banned bikini wearing in the town centre in 1993, fined 20 people 50,000 lire (\$30) in June and July.

The city's mayor Roberto Avogadro was unrepentant on Tuesday, telling newspapers: "I know perfectly well that the 1993 by-law limits individual rights but I have no regrets at all. In two years our tourism has improved."

Figures in the business daily Il Sole 24 Ore on Tuesday showed that tourism in Italy was booming with resorts booked out and foreign visitors arriving in ever greater numbers, mostly from Germany and France.

The newspaper said a survey showed some 30 million people were expected to have visited Italy between April and the end of August, a rise of 14 percent on last year.

MUSIC: JAZZ NOTES

Until June 21, 1948, listening to records amounted to a three-minute thrill. This was the day...at a news conference in New York City...Columbia Records unveiled the first long-playing record.

While it pales in comparison to today's 70-minute maximum on standard compact discs...the L-P played for what was then an astonishing 23 minutes. It opened up recording freedom for musicians to stretch their solos and their songs. \_\_\_\_\_

**GOLF**

For some reason, our computer golf competition is stalled. We await word from the Voigt household about round four of the Memorial at Muirfield, then round one of the Western Open at Cog Hill.

In real golf, the STAR's and WBBM's Chris Boden recently played the Golf Club of Illinois in Algonquin which includes the longest golf hole in North America, a par 5 678-yard hole. Chris said it "was an experience." He didn't say if it was one he wanted to repeat.

From our golf calendar: Guests from the Equinox Hotel make up the majority of players at the Gleneagles Golf Course in southwest Vermont. The 522-yard par-5 7th hole is unique: the second shot must carry busy Union Street. Local rules dictate a one-stroke penalty for failure to carry the roadway. The calendar says nothing about what happens if you smash a windshield.

**STUNG** (continued from page one)

It is a 196-mile long relay and Tom will be one of 12 runners on his company's team. They will run from the top of Mount Hood through Portland all the way to the Pacific Coast. Each runner will do 5 to 6 miles three times during the race, which in total should last 24 hours. Tom says there may be an eight hour layover between stints. Also, each runner will perform one of his stints during the dark hours, carrying a flashlight!

Good luck, Tom!
