

This is Everything You Always Wanted to Know About Diplomacy*, the official journal of the Boardman Number Custodian. The Boardman Number Co-Custodians are Doug and Marie Beyerlein, 240 Hawthorne, Apt. F, Palo Alto, CA 94301, U.S.A. Our phone number is (415) 329-8034. The editor of EVERYTHING is Doug Beyerlein. The publisher is John Weswig, 2115 N.W. Elder St., Corvallis, Oregon 97330, U.S.A. The associate custodian for the U.K. is Richard Walkerdine, "Cheriton", 15 Crouch Oak Lane, Addlestone, Surrey, KT15 2AN, U.K. The associate custodian for Continental Europe is Michel Feron, Grand-Place 7, B-4280 Hannut, Belgium. The director of information retrieval is Walter Buchanan, R.R. #3, Box 324, Lebanon, Ind. 46052, U.S.A.

There have been two additions to the BNC staff since last issue. Michel Feron, publisher of Moeshoeshoe, has agreed to handle the Boardman Numbers for Continental Europe. With Diplomacy starting to spread throughout Europe we hope to get well organized before the real crunch comes. Michel will contribute the expertise needed to allow things to run smoothly for everyone. All Continental European publishers should establish trade agreements with Michel, if they have not already done so. Also, please continue your trades with me in exchange for Everything. I will continue to assign Boardman Numbers to Continental European games for 1975. Then starting in 1976 Michel will be given a block of Numbers to assign to continental games. Any questions about all of this should be directed to me, Doug Beyerlein.

The second addition to the staff is Walt Buchanan, publisher of Diplomacy World, and Hoosier Archives. Walt will (and already has been) assisting me in gathering information on finished games so that they can be reported within these pages. I ask that any of you who are now not trading or sending copies of your zines to Walt to please do so.

As you can see, this issue of Everything is late. I was hoping to get out an issue around the start of July to get back on my pseudo-schedule, but found it to be impossible. I didn't find the necessary time needed to sit down at a typewriter and type for nearly two days straight to get this out. Editing and typing up Everything is only a small part of the overall work in running the Boardman Numbers. Also, I have other interests in life (my spouse, bicycling, and hiking) and they are prone to take precedence. This does not mean that I am withdrawing from Diplomacy, but only that it will not get more than a fair share of my leisure time. I am confident that that is the only way to participate in this hobby of ours.

The tentative schedule for the rest of the year will be for issues in October and December. Then at the start of 1976 I will probably reevaluate the situation and perhaps go to a quarterly schedule. We shall see.

The previous custodians up through von Metzke kept running center year charts on all current games as they progressed up through completion. This insured that the published results would be accurate in terms of both the number of centers and units each country owned every game year and the players as they entered and left the game. I tried to continue this policy when I received the Numbers from Conrad, but quickly found it to be impossible. Today I rely on the individual publishers and gamesmasters (yes, you) to provide this information at the conclusion of your games. When info is not available or incomplete for one reason or another I have Walt check it out in his archives collection. I have a fair zine collection myself, but there is little or no organization to it and to find anything older than a few months can be near impossible. Thus, the need for each of you to trade with both Walt and myself. That helps to insure that what you find in these pages is as accurate as possible.

*But Had Better Sense Than to Ask

222

Below is the current status of the publishers I know of in the hobby, as updated from #21.

Current traders: John Boardman, Rod Walker, Hal Naus, Len Lakofka, Chris Schleicher, Andy Phillips, Greg Warden (away for the summer), Walt Buchanan, Michel Feron, Herb Barents, Tom Leahy (no longer publishing), Burt Labelle, John Boyer, Paul Wood, Edi Birsan, Fred Davis, Graham Jeffery (no longer publishing), Richard Walkerdine, Jim Benes, John Leeder, Mike Bartnikowski, Mick Bullock, Don Horton, Howard Johnson, Steve Nozik, Robert Lipton, Randolph Bart, Dan Gallagher, John Hulland, Richard Scott, Peter Shamray, John Mirassou, Randy Christopher, Dan Gorham, Mike Rocamora, Jim Bumpas, Richard Sharp, Al & Tom Burkacki, Roland Prevot, Robert Correll, Anthony Kniaz, Michael Lind, Frank McIlvaine, Douglas Reif, Joel Klein, Don Efron, Raymond Heuer, Richard Loomis, Gil Neiger, Scott Rosenberg, Steve Solomon, Dave Kadlecek, David Truman, Bruce Schlickbernd, Michael Homeier, Peter Berggren, Robert Sacks, Tony Watson, Lilliput Crowd (no longer publishing), Ed Kollmer, Richard Kovalcik, Dave Head, Randolph Smyth, Michael Friedman, Laurence Gillespie, Warren Wyman, Dave Staples, George Phillies, Walter Luc Haas, Ake Jonsson, Dennis Brackman, Russell Fox, Steve Cook, Peter Birks, Bob Hartwig, Roger Oliver, Ben Grossman, David Holmes, John Baker, Robert Goldman, B.E. Hessel, Fred Brenner, and Charles Spiegel. The last five names on the list are all new to publishing since the last issue of Everything and I wish to welcome them to the ranks. I have received at least one issue from each of the above publishers since May.

Questionable traders (no issue since May): Don Miller, Bernie Ackerman, Duncan Morris. If nothing comes by the end of September this is your last issue.

Refuse to trade: Charles Reinsel and John Coleman.

Apparently no longer publishing: Conrad von Metzke, Joseph Antosiak, Mike Worthington, Ron Melton, and Nicholas Ulanov.

Since I became custodian last October a number of things (both good and bad) have been said about how I am handling the job. I appreciate and need comments and suggestions from you, the readers, so that I may best serve your needs -- which is what this job is all about. Marie and I will be attending the DipCon in Chicago in a couple of weeks and if you are there and have anything to say please speak to Marie or myself. And if you can't make it to Chicago then send me a note whenever you have the time or an idea strikes and I will see what can be done to make the job work a bit better for all of us.

I will not bother to print some of the comments that have appeared in a few zines in the past months regarding this job, but I do want to answer a few questions and set a couple things straight.

It has been said that I will give the status of irregular games to the games of any publisher who does not trade with me. This is not true. Conrad advocated this policy in Everything #18 (his last issue), based on the belief that he was providing a service and he would not cooperate with those publishers who did not cooperate with him. In principle I tend to agree with what Conrad advocated, but in practice I believe in extending cooperation to all whether or not they wish to respond in a like manner. Thus, I call all games regular for my publishing purposes in Everything that are not local games or contain gross gamesmaster errors whether or not the particular publisher trades with me. Or, specifically, I do not discriminate against the games of Reinsel or Coleman (the only two who refuse to trade) despite what they may say. The only problems that exist in publishing results of their games are in trying to get information on their games.

Some (or at least one) thinks that Everything should be monthly. I would agree, except for the fact that I have to do the work to get this thing out. As described in the front page, monthly publication is impossible, plus with our format of reduced photo copy it takes about two to three months to collect enough information to fill ten pages or five sheets of paper. And as I mentioned on the front page, there is a fair chance that we may go quarterly in 1976. That hopefully will give me more time to catch up with my other commitments in and out of the hobby.

2240

In my role as custodian I am completely neutral in dealing with other members of the hobby. Everyone will get treated the same in the pages of Everything whether they like it or not. As a private individual I do belong to a couple of Diplomacy organizations and I do have opinions that I will express now and then. I can guarantee you, however, that I hardly have the time or desire to again get involved in the management side of any organization. This is true as long as I remain BNC. As for my personal opinions that may find their way into someone's zine at times, these are my views on subjects as I know and interpret the facts of a situation. I have been in this hobby for a number of years now and have seen quite a bit first hand, but please don't accept my word as gospel on every subject. If you have doubts or questions do some research and check out the facts, but then hopefully that is just common sense.

I think that that is enough commentary for this issue. John will undoubtedly have a few things to say (like about subscriptions rates and the like) and so I will leave the rest of the page to him. All for now. Hope to see you at the DipCon.

1974 BOARDMAN NUMBERS UPDATED:

As I mentioned in EVERYTHING #21, there was a problem in the transfer of the Numbers from Conrad von Metzke to myself. This resulted in a few Boardman Numbers for 1974 not getting assigned to a game. All of the problems were resolved last issue, except for 1974GG. It has now been assigned and follows.

- 1974GG. The Loner. Holmes. A- Mark Zimmermann. E- F. Roy Thomas. F- Wayne Callahan. G- David Graber. I- Lee Kendter. R- John Weswig. T- Wayne Gildroy.

Comment re: the Turkish player. I have no idea whether or not there are two players with the identical name of Bruce Webb, but the "#2" was the notation von Metzke made in his notes for this game. Does anyone know?

The following games are irregular or local games that have finished since EVERYTHING #18. The information that you see on each is all that I have at this time.

(1962A). unnamed (to F01), Seitenstetten. von Metzke (to F01), round robin by the players. A- Conrad von Metzke (droS04), c.d. (outF04). G	5	6	4	5	4*	1	1	draw
I	4	4	4	4	5	6	7	draw
R	6	7	8	11	12	13	13	draw

Comment: there are numerous obvious reasons why this game is irregular. Also, I am skeptical that this game actually started in 1962, as Conrad claimed. I have heard from an old friend of Conrad's that this was not the case. I suggest that anyone who has proof otherwise to bring it forward.

- * - one unit short of the center total after the winter adjustments
- # - one unit extra over center total after winter adjustments
(this actually should never occur and is a gm error)
- (1975XX) - the parentheses around a Number designates that the game is either irregular or local
