Issue Number Eight

1 April 1973

This is Everything You Always Wanted To Know About Diplomacy\*, a journal of postal Diplomacy information and puissant puerility published by Conrad von Letzke, P.O. Box 8342, San Diego, CA, 92102, U.S.A. Price \$3. per year, foreign air postage \$3.75/yr extra. Published monthly except January. No trades, but you'd marvel at the offers I'll make you for my other journals. Games are not played in these pages.

## 'Irregular' Symbol

One criterion for use of this symbol was omitted from the full explanation in Issue Number Seven. If the Gamesmaster serves at any time as a player, the symbol is assigned.

Orphan Games Project Update: Since last report the following actions have been taken:

Alpha. The 'zine has folded. All four games were easily moved.

La Guerre. By vote of the players involved, three of the four games have been transferred. The fourth remains behind and will not be dealt with further by the Project.

Arahwon. One game remains unsettled; no progress to date, but as soon as Rod Walker gets off the dime....

Lompok. No action taken; games are in good shape where they are.

SAHA. One game to be transferred today. ~~One game held in abeyance pending clarification of certain questions.~~

Stoned. Two games transferred, one in the works.

Mi. No action, no problem existed.

The Voice. Game being treated as an orphan, arrangements pending.

This section of everything will be fully updated and revised in  
the next issue.

4. Trades established/disestablished

Of the three 'in doubt' gentlemen mentioned last issue as  
likely to be dropped from my mailing list, David Dix has responded  
favorably, for which my thanks. Charles Reinsel has responded both  
unfavorably and obscenely, for which my abject pity. Colin Hemming  
has, of course, not had time to reply.

The following Gamesmaster will be removed from the mailing  
list next issue unless I see some evidence of a trade copy or two:

Peery.

Games Abandoned/Abandoned

The following games are abandoned, revival impossible:  
1971U. (1969CS) (see also Boardman Numbers Assigned).

For 1972 and 1973, which I'll do next time, I will list only games completed, abandoned, or at some point transferred. The following 1972 games are completed as of this time: (1972-A), (1972-B), (1972-C), (1972-DE), (1972-DF), (1972-AP), (1972-CH). Abandoned are (1972-AA), (1972-AB), (1972-AF).

In drawn game listings the little parenthetical numbers are the number of centers held at time of draw. I'll backtrack for 1962-1970 on this as soon as possible.

Special Announcement

This notice is wholly out of place in this magazine. However, I really don't care. I should like to offer my warmest congratulations to John and Willa Leeder on the birth of their son Roger (Rodger?) on Friday, 23d March 1973. Statistical information unknown at this end, but mother and son must be doing well since Willa answered the phone and Ro(d)ger is home from the hospital.  
Anybody for running a Babies' Game? Leeder and Buchanan and Davis and....???
