BNC Project Update

I haven't been able to get as much done as I would have hoped on the project. For those of you who don't know what it is, I'm trying to catalog all the past games into a reference format (BN, zine, GM, Win or Draw, E started and E endgame listed). Hopefully I'll have enough to print next time.

END-GAME REPORTS

Please note the following standard codes are used through the listings: * - Played one unit short; + - Played two units short; ! - Played three units short; \$ - Played four units short; % - Played five units short; & - Played six units short

If you have any information on any game that is incomplete, it would be appreciated if you would forward that information to me. If additional information is received on an incomplete game, an updated report will be printed in a future *Everything*. Corrections are also appreciated on any printed report.
