

FROBOZZ

Issue #7.5

October 3, 1984

This special, limited edition of *Frobozz* is being brought to you WWIIb players free of charge. Since I made so many mistakes in last issue's supply center chart and then didn't even manage to correct them properly, I figured I'd better do the whole thing over. Also, because there are so many adjustments this winter, I've decided to call for winter builds/removals only this turn. Your vote on the Australia/UofSA/WAF draw proposal will also be due on October 19. Remember to vote if you want the draw to pass; submitting orders but not voting counts as a "no" vote.
