VOLUME I # 8

January 17, 1972

ARCHHHHHHHHhhhhhhhh

Do you get Liaisons Dangereause? Hor poop! In my involvement with Diplomacy and especially the DipOrg, I have run into more than a couple of foolish people. BUT!, none nothing has been as bad as the recent claptrap I received recently of the Mimeo of Len Lakofka. You had to see it to believe it and you thought John Beshara was bad---oy vay!

After a stupid, ignorant attack on Rod Walker (tto bad Len is unable to collect fact facts as easily as he makes charges), none of which to my knowledge is true, and I think I know a little more than Len on the subject. He thereafter, makes a number of veiled allusions about things her knows hotfling about, but it is just as well, amobecause of my surposcous else will know that he lettalking about wither.

But he was just warming up. Now he begins speaking for everyone, telling us what we don't like about the potential new DipOrg, the interim constitution and assorted people! Isn't wonderful to have Len tell us what we believe, maybe next he'll tell us what we do like. no people this is Len Lakofka not John Beshara that I'm writing about. You know tho, it is too bad he doesn't read things before he attacks them—most of the few (very few) facts he does give are wrong. Can it be that his real complaint is that noone went along with his ideas on the interim constitution? Or perhaps because that has been no rush to join the IFW Diplomacy society—with Len in Charge? Of dear us foolish mortals, to argue with the likes of the president of the IFW.

Well, now len wents his way! We should follow his ultimatums -- right? Hah! or maybe not? Gooky this is a lot of fun; we have lenny Stalin to the left and John Hitler to the right!....no no, it must be the other way Johnny Stlin to the left and lenny Hitler to the right --- ahh who cares.

Lenny, baby--I ask you, if you didn't want to work within the DraftComm, why did you come crying to me, begging that I let you on. You know we haven't been playing secrecy games. The CA is available to anyone for an SSAE; and you had the addresses of all the members of the DRAFTCOMM, so you could have wrote them with your ideas. But it is easier to make charges and emear isn't it Lenny. I know you learned this well when running for President of IFW. Now when can we expect you to trot out all your little stooges?

Perhaps, as I have long felt, this is naught but an exercise in futility. The only organization that did succeed in accomplishing anything was the NFFGEDD under Rod Walker and even a number of crybables tried to jam that. There are too many people who have to have their own way or else they definite as soon that the accomplishments of others, like the Besharas, Reinsels, Treticks, Boardman's and even the Metzkes. Well, none of them have the answer, and lakofka doesn't have the answer. Oh, by the way, Lennie in no way speaks for the DraftComm, the interim Constitution or what constitutes membership in any DipOrg governed by the above. His severe case of sour grapes may sour the concept of DipOrg for a couple of years, but then we aren't ready for it perhaps. As for our wonderman Lenny---wouldn't it be nice if he waited to run for office and promised to obey the rules that govern an organization that then just announcing he has become god--good grief another God of Diplomacy

Lass for the Dipore is \$2 annually. The real thing behind organizations of this kind is that there has to be enough willing workers or else the organization collapses or becomes an object to be manipulated by people like Beshara and Lakofka. A good constitution can halp prevent takeovers, but only people can prevent collapse. a sentence -- if you want it or need it, then work for it, especially now. The interim Con requires 7 officers.
