Austria-Hungary has one build, which must be sent in by IMMEDIATE RETURN MAIL. The other players will be informed. The deadline for "Spring 1911" moves will be NOON, SATURDAY 20 NOVEMBER 1976.

Both proposals for ending the game failed once more of unanimity, and are hereby re-submitted for another vote. (See postal Diplomacy rule 19A in GRAUSTARK #346.) The proposals are:

1. A general concession to England.
2. A draw.

Some readers have asked among whom is a draw in a Diplomacy game. Since the consent of all surviving players is necessary for a draw, all of them participate in the draw. There can be no such thing as a draw, or as a "shared win", among only 2 or 3 of the players in a Diplomacy game.

APATHY AND SAFETY

By the time most GRAUSTARK readers receive this issue, the carefully scheduled and orchestrated election of James Earl Carter to the Presidency of the United States of America will have been accomplished. The election which has brought this to pass will have been the result of the smallest percentage turn-out of eligible voters since World War I.

This last aspect of the election has been obvious for several months. There have been many commentators who claim that a low turn-out is undesirable, and much ink has been wasted in trying to persuade people that they should "Get out and vote". It seems to be taken for granted that people ought to vote, and that a large participation in the political process is desirable.

This belief flies in the face of the last 15 years of American history. There have been several incidents in that period when people outside the usual political process have felt impelled to speak out and act in public events. These people have given the United States many protest demonstrations, bombings, irresponsible prose designed to promote a lack of confidence in our leaders, and a pack of wild-eyed incorrigibles as "Third Party" candidates: George Wallace, Eugene McCarthy, Eldridge Cleaver, Lester Maddox, and miscellaneous Birchers, Marxists, and plain nuts.

The last thing that public life in America needs is a proliferation of types like these. The media have acted with commendable responsibility in relegating these extremists to the lunatic fringe, portraying them as laughingstocks, as dangers, or both. If the McCarthys and Wallaces are allowed to be parts of the American political dialog, anything could happen.

The narrowing of the gap between Democratic and Republican candidates has been of great help to the national stability. No longer are we faced with drastic changes of direction in national policy as a result of one election. The steady expansion of America's imperial role in the world cannot be made the plaything of politics.

America's domestic tranquility has benefited from the decline of voting levels. Over the past 15 years, many people have got discouraged and opted out of the political process. These have been, by and large, precisely the people who ought to get out of the political process: the adherents of Pacifism, Socialism, Liberalism, Anarchism, and racial segregation. Without them, we can be sure that the even tenor of American life at home, and of American conquest abroad, will be uninterrupted.

The two splinter group candidates, McCarthy and Maddox, bear a peculiar resemblance to each other. Maddox would have America turn inward upon itself and begin the long, bitter, bloody, destructive struggle that would be required to turn blacks back to the status they had 50 years ago. McCarthy would have America abandon its globe-girdling Empire, turn away from its imperial mission to bring the entire human species under its absolute dominion, and look inward to concentrate instead upon various social welfare issues which he is promoting. This would reduce America to the status of has-beens like Britain and Sweden, or never-will-bes like Canada and Russia. The entire history of the United States of America in the past 30 years is a history of our march towards ultimate Empire, and no one will be allowed to stand in its way.

If the management of next Tuesday's election had decided to elect Gerald Ford rather than James Carter, this goal would not have been materially affected. However, the wisdom of the Carter choice is apparent: this "New Face" is better public relations.

Some people seem to think that the majority of the electorate is only temporarily turned off, and will rouse itself for a sufficiently new and different candidate or program. However, the genius of the American political system is that no such new program is going to be allowed to develop. Any person or group who attempts to try it will soon wish that he, she, or they had not. Thousands have been turned off, in this fashion, by the assassination of a favored leader, or by their obvious inability to exert any effect on the political process.

Apathy is very useful to these 'turned-off' types. If they had not sunk into apathy, they would very likely be dead today, or in jail or exile. This recently was brought home to one of the political figures of the turbulent '60's, Eldridge Cleaver, who recently came home from a 7-year exile. According to the New York Post of 28 Sep-

PRESS RELEASE - 1976DC

VARICUM, ILLYRIA: As the forces of war ebbed and flowed over the Balkan peninsula, the tired entourage of His Holiness Pope Blatent III settled themselves into their rooms at the Hotel Guelph i Ghibbiline, a once-posh hostelry serving the Italian quarter of the capital city.

"Well, and it's a sure thing they've ne'er pushed a broom through this burg," remarked the Supreme Pontiff as he tipped a snifter of Dalcassian Dew, "what a ban-shee's nest!"

And indeed, even the golden rays of the setting sun could not mask the decrepitude of the once ornate Mithradaetean Baths, Forum, and Hall of Government across the plaza. In one corner of the room a crew of linguists persisted in their efforts to translate the mysterious document known as the Second Donation of Constantine.

Just then the door burst open and Brevet-Colonel Otranto rushed in claspng the Italian-language edition of Speculum Minorus, Varicum's evening paper. Cardinal Sanguini scanned the front page.

"It says here there's been a border incident in the Balkan Massif, and rumors of espionage in the Patrimony of Polykarp. Mobilization seems likely..."

"Begorrah, then here's our chance!" yelled Blatent, "we'll effect a massive armed intervention, so to speak - protection of foreign nationals, d'ye understand. Then we'll burn every copy of that damnable donation and everyone connected with it!"

"Intervene with that?" asked Otranto. "Every man we've got is committed to the Austro-Turkish front."

"Oo, aye...I could call for a crusade right here in Illyria. They be Catholics, eh?"

"Well, um," said Sanguini, "the Hravatch population is Catholic right enough, and the Ruglans and Thurcilingians too, even if they are Arians...but the Molossians are Macedonian Orthodox and the Patzinaki worship Mohammed's third cousin."

"Be damned!" screamed Blatent, grabbing for the flask.

"What about you morons?" growled Sanguini to the translators, "anything yet?"

"I don't know, Your Eminence, it keeps coming out in limericks. Here for instance; 'There was a young girlie from Thrace, who liked it best...'"

Outside the only sound was that of the Night Watch as she rolled up the sidewalks.

PRESS RELEASES - 1976DW

PAPIS (AFP, 5 October 1901): Today was His Imperial Majesty's birthday, and, in celebration, a gala military review was held, which the Emperor reviewed from the balcony of the Tuilleries palace. Later that evening, at a gala levee in the Salle des Marechaux, he announced a momentous statement to the crowd:

"Frenchmen! Due to the continuing turmoil in the Iberian peninsula, the King of Portugal has requested French aid in putting down the disorders in his country. As a brother monarch, I could not refuse his request honorably. Accordingly, as of this evening, Marshal Layutey has been ordered, together with his army, into Portugal. Long live the the eternal friendship of France and Portugal! Vive la France! Vive la Portugal!"

To which all responded "Vive l'Empereur!!!"

PARIS (AFP, 12 November 1901): France's new Ambassadors to the Four And A Half Kingdoms were announced today by the Quai d'Orsay. They are: Polykarp, Rene Viviani & Georges Clemenceau; Skandalutz, Emile Loubet; Pundschruck, Rene Waldeck-Rousseau; Roma Temporalis, Jean Jaures; Wogastisburg-Schlampenbittel, Count Albert de Mun.

ANAKHIT, SKANDALUTZ (AFP, 20 November 1901): The credentials of ex-President Loubet as Ambassador of France to Skandalutz were accepted today by Queen Tanna Hanna in a very private, 12-1/2 hour ceremony. "Of course, it's too bad that dear, dear Faure is gone," lamented Her Majesty, "but this one does extremely well in his stead. We are confident that France and Skandalutz shall enjoy very good relations with his as Ambassador. Vive la France!!!"

This recently was brought home to one of the political figures of the turbulent '60's, Eldridge Cleaver, who recently came home from a 7-year exile. According to the New York Post of 28 Sep-

tember 1976, he made "the discovery that several of his closest friends had already been buried, the victims of drug abuse. And some of those who were left night just as well have been buried. Drugs had 'replaced politics for a whole generation of black youths'"

This story could be repeated all over the country, for whites as well as blacks. The people who were out parading in the streets, or claiming that they knew better than the President what America ought to do abroad, are now involved in religion, or drugs, or their own careers. The New York Times of 17 October 1976 had a story datelined of all places, Kent, Ohio, on student apathy towards politics. Considering what happened to these students' older brothers and sisters at Kent and other places, this apathy shows very good sense. "Today there is...little faith in the effectiveness of any kind of action...There are no heroes on the campus today. In scores of interviews, when the question was put to them, no student proposed the name of an individual who combined those traits worthy of universal respect and emulation." Among the traditional things returning to the American campus are fraternities, ROTC, beer busts, cosmetics, and better clothes. This is not the stuff out of which "martyrs" are made.

Nor will a small turn-out destroy the "legitimacy" of President Carter's victory, as some people fear and others hope. If only 40% of the eligible electorate votes, a majority of that 40% is just as good a mandate as the landslides received by Roosevelt, Eisenhower, or Johnson.

It seems fairly obvious that, as soon as the Carter Administration gets settled into office, the United States of America will once more go to war. Eugene McCarthy, of all people, seems to perceive this - his only objection is based on his old-fashioned notions that peace is better than war, a notion which no American political figure is going to advocate. (If he wants to keep getting elected or appointed, that is.) According to McCarthy, "Carter is sort of saying, 'Don't worry, just trust me, and I'll do it.'...That's what Nixon did; he took personal responsibility for it; and the next thing you knew, the CIA was involved in a political campaign." (New York Daily News, 14 October 1976) "Clean Gene" did not explain what was wrong with this, or what anybody could do about it if it were wrong.

McCarthy also observed Carter's strong, unflinching support for the American war effort in Vietnam, including that as Governor of Georgia he proclaimed a day to honor Lieut. William L. Calley. Governor Carter also gave his firm support to the suppression of the Pacifist demonstration at Kent State University.

A twitch named Anthony Lewis, who infests the New York Times "Op-Ed" page, gave out with the same sentiments on 14 October 1976 in that location. Of Carter's resemblance to President Kennedy, he says, "The talk of new American leadership in the world, inspiring to so many when first heard in 1960, ended in the disastrous arrogance of Vietnam and Cambodia." This sort of thing got the Times on President Nixon's Enemy List, and it could get it on President Carter's, too.

But there'll be no demonstrations and turmoil against the next war. Primarily, the public now realizes the futility of this sort of thing. Furthermore, the government has determined from the "Vietnam Era" what the matter is. For one thing, public opinion was not sufficiently mobilized in favor of war. For another, dissent was tolerated too much. Ambassador Graham Martin put it this way in January, in a recently released speech: "He blamed the collapse of South Vietnam," the New York Daily News of 10 October 1976 reported, "on 'one of the best propaganda and pressure organizations the world has ever seen' which he said included 'the pilgrimages of Americans to Hanoi and to the North Vietnamese Embassy in Paris' and 'the mounting crescendo of organized campaigns of distortion in the United States'". None of this sort of thing will be allowed in the next war.

The people who see resemblances in the characters of President Nixon and President Carter are quite correct. Both are hard-driving, pragmatic men with firm, determined character. The very nature of the United States Presidency demands such men, and creates them if they do not come to the Presidency that way. The necessary resemblances President Carter's deeds and foreign policy to President Nixon's will help rehabilitate the character of the latter. By 1980, or 1984 at the latest, the Republican National

Convention will be festooned with his picture, and its speeches with his name. Mention of his name will provoke screaming, stamping applause at Republican Party meetings. Books will appear, asserting that, yes, President Nixon did do the things he was "accused" of doing in the "Watergate" carnival, and yes, President Nixon was right to do those things. (This, it should be recalled, was Vice President Ford's loyal attitude all during the controversy; about two weeks before ill health and only ill health forced President Nixon's resignation, the Vice President said, "I believe that the President is innocent and I believe he is right.") This rehabilitation of President Nixon's reputation will be justified in part from the deeds of President Carter, and President Carter will concur in it as much as his Democratic Party membership will allow. (Compare the way in which President Ford has praised President Truman.)

PRESS RELEASE - 1976BV

IDYLBURG DREIBLATTER (30 February 1903): Our 5 star reporter gained an interview with one of the 7 Spacis (Polarian) this week. Granted 5 q'ns, replies to 2 promised, he got this info: (1st reply) Yes, nympho princess von Skandallust, O'Freya, is not only totally madcap, but on occasion Titans of Shamb'allah inspire her, so she really believes she's done whatever she 'confesses' to.

(2nd reply) Ah, those poor Jesuits! Like future 'Commie' cells, some of their branches are kept in ignorance of what others do & know. So Lt. Col. Ignorance Angers won't know time travel has been practiced for centuries in some branches. E. g. their Culdee College of 13 Magi, on Man, & Order of Cat Man Dhu, who don't even have location, they're so transcendent! However, don't believe anything because Austrian Emperor says it - use plenty salt. Incidentally, his great-grand-dautr becomes pregnant in 1982 by a Magus of Man who materialized into her future presence back in 1726! Such is life.
