Lord Zabington has returned from a tour of the continent and announced that he is retiring from aggressive diplomacy. He intends to spend the rest of his life helping the disordered of all creeds, colours and nationalities.

Autumn & Winter 1905 and Spring 1906 orders are due Feb. 17, 1931. If I receive two requests, I will separate the seasons and only Autumn & Winter 1905 will be due. BUT protect yourself and send in conditionsl orders for Spring 1906!!!

Since France is now a two center power and no one wants to send in orders for that country, I regretfully (but in accordance with Claw & Fang house rules) I officially declare the Republic of France to be in permanent and total Civil Disorder.

Now a word about POSTAL Diplomacy. This game is meant to be played through the mail. I don't care how many times you players call each other and I don't mind taking orders over the phone, but some of you (who shall remain nameless) are using the phone a bit too much. I'm giving you this lecture for your own good - lately I've been spending very little time at home. Therefore I am becoming hard to reach by phone. Protect yourselves and mail some orders in. My mother and father are capable of writng down your orders but you are warned - any such orders will be used at your own risk - you, and only you, will be responsible if there is a mistake in the orders ~~you~~ that are relayed to me through my family. To avoid any hard feelings anywhere, I urge you to mail your orders in!
