

# The Journal

#12  
November

Next month is the JOURNAL'S first birthday and it has been a long year (this month didn't make it any shorter). Anyway this means that a lot of subscriptions run out. If yours has I'll let you know about it on the last page. Please be prompt in payment so I don't have to hound you about it. The JOURNAL is 12 issues for \$1.75.

As you must know by now we skipped a month. The reason for that is simple. we didn't print. All the GF's got there stuff in late because of school and then I was delayed for the same reason so I just said to hell with it. I hate to do this for it slows everything down but I think that skipping is the best all around. I will try to be on time in the future and I apologize to all.

Bruce Gletty still has a few openings for his game. If you wish to join send \$1 if it is your first Journal game, 75¢ otherwise, to his new address (see his section).

The people who did not get their moves in, better news as any as people of the month are: Mike Wright, Ray Bergerson, Greg Pitts, Bill Arnold, Doug Schaefer, Pat Egan and Tim Tilson. Lets get on the ball.

There is no cartoon this month because of popular demand. Everyone please move this month, it makes the game better. I would like to see an empty lazy ass of the month section.

### Polack Predicts

After picking 3 out of four baseball division leaders I felt I would be hot in picking this year football champs. However because of no JOURNAL what month I couldn't. I will say that Detroit was a sure SUPER BOWL favorite. The rest of the division winners will be Oakland, Baltimore, Cleveland, with Miami scratching past K.C. for runner up team in the American. The National has DETROIT, S.F., Dallas with Miami getting the runner up position.

College will see the U. of Michigan Wolverines take #1 followed by Alabama, Nebraska, Notre Dame, Penn ST., Georgia, Oklahoma (the Dawn K will not print) Arizona St., Auburn, and Texas. Look for Alabama to beat Nebraska in the Orange Bowl (Nebraska earning their way there by beating Oklahoma on Thanksgiving).

I'll be signing off now as I being a loyal MICHIGAN fan have to start packing my bags for a little trip I'll be taking on down Pasadena way.

the roses are on the wall for Michigan.

The Kobeldomichtenstein Journal and Monthly Cyclopedic of the Autonomous  
Grand Duchy of Strassmohouffalitzheim

Kobeldomichtenstein-This is the first issue that originates from a new base  
of operation---Hoboken, N.J. My new address is:

Box S-284  
Stevens Institute of Technology  
Castle Point Station  
Hoboken, N.J. 07030

If you want to contact me you can either use the above address or send it  
to my home (North Haven) in which case the mail will be forwarded to me. If  
mail will arrive during an obvious vacation period (like Christmas!) then play  
it safe and send the letter to my home.

Also since I am not working anymore, I don't have much much money so I  
cannot subsidize the Cyclopedic as I used to. So next month's JOURNAL will  
contain what would normally appear in the Cyclopedic. I really hate to do  
this because it slows the game down. If players have any suggestions on how  
we can keep the Cyclopedic going please send them to me.

Game I, Moves

Notes: Last months retreats were omitted in the Journal so here they are:

Press Release Game VI.

Sevastapol- Russian Troops Have Begun carrying the word of Christus Pandan to the infidel turks. General Stybesia accompanied Matriarch Quicklay to Serbia where she intends to have a revival meeting among the Turks who are stationed there. Sultan Simburn is said to be very upset with her Unholines's plans. He is especially disturbed mentally which accounts in some part for his pacing of his tent. Matriarch Quicklay has stated that she will not stop holding her revival meetings until, all of the Sultan's land is converted to Pandinism.

I still have only 4 people for a new game. If any of you wish to play, please cocontact me soon, as I wish to get the game under way. If too many people write, I will open another game. I will ask for votes on the conduct of builds in this game to avoid the hassel of the previous four.

Regarding build policy, I got 3 for separate season and 1 for conditionals. As next turn is a fall turn, this is a little late for a revote. Come on you guys, tell me what you think. Also write some press releases. I will use a separate season for builds this time and if opinion changes, I will change to conditionals.

Space below for rent. (CHEAP!!!)

## THE RABBLEASIAN GAZETTE

(Official state newspaper of the People's Republic of Rabbleasia issued under the authority and complete scrutiny of Elmo and Lenard Box, as authorized by the powers vested to them from Governor-General "Bwana" Bill Roche, as authorized by the powers vested to him from his majesty, Rollo the Wonderful, King of the Eskimos, Emperor of New Jersey, and Lord of the Flies, whose authorization is Divine. Good Lord, man, are you still reading this?)

Hubbally-Bubbally, Rabbleasia: One player has just succeeded in missing two consecutive turns. This is the Russian player. Should he miss the next turn, I'm going to have to replace him. I have a standby player in the event, heaven forbid!, of the Russian player not getting his Spring 1903 moves in. It's not fair to some of the players to have Russia just sitting there. Once kicked out, you can't get back in.

A Rabbleasian Editorial: Putting aside the recent controversy over the decency of the "Nancy" comic-strip series, the management wishes to hit hard on something that will effect everybody in Guilford. We feel that the recent influx of red squirrels into our fair town, can only spell trouble for our citizens. It is a well known fact that these creatures aspire to extreme leftist's political ideas. Rumors have it that they have strong ties with that communistic fowl from a neighboring state, the Rhode Island Red. We Demand Action now!

The true-blue grey squirrel has been putting up some resistance, but they are outclassed and have been defeated in every battle. Now it is up to us. We must better equip flying squirrels for grey air support, contribute to the grey's cause, and put diplomatic pressure on the chipmunks to abandon their neutral stance.

The menacing red squirrel tide must be stemmed. If they secure a firm position in the park, the town green, the recreation areas, and other squirrel like places are sure to fall shortly. We call this the tiddely wink theory.

Don't subject our children to the vicious guerrilla tactics, such as exploding nuts, i.e. Schaefer and Goss with grenades, connected with red squirrels. Let this, and future generations, walk in the woods with safety.

Responsible comment invited, just as long as it agrees with this editorial.

### Press Release: Game IX

Turkestan, Sept. 21, 1902: The Indian Expeditionary Force paused here to enjoy the sights (sand and gila monsters) on their way to, points unknown. (This is a definite indication of how confused the Indian Army Staff really is.) Their ~~leader~~ announced that they would probably head east to join their comrades fighting in Indo China, although a march north is under consideration. (A flip of the coin or tea leaves are likely to predict the direction.)
