Knights #22

IF THERE IS A RED X IN THIS BOX THEN YOUR SUB IS IN DANGER OF LAPSING. If you are a player you get 1 issue more than your sub and then I call for standbies. If you are not a player then you do not get any issues past your sub amount.

Standby list: Hickey, Ashley, Cusack, Conlon, Walker, Acheson, Kane, Jewett, Anderson, Lowes, Gautron, Jung, Punches, Sampson, Jensen, Heintzman, Torres, Head, Paulson, Winslow, Watson, Bennett, Rauterberg, Keller.

22 week Standby list. Hickey, Cusack, Jung, Walker.

33's are assigned by how few games you are corrently playing in SK. Once assigned to a position you will always be called for that position unless you request to be taken off

IMPORTANT NOTE: IF YOU ARE A PLAYER IN THIS ZINE THEN YOU CAN EXPECT TO RECIEVE EITHER:

(A) Your Game Report (B) Information about why you do not have a game report

2 players did not receive any game reports when they should have and this caused some problems. If for any reason you do not see anything about your game when you get SK then look under "Games in this zine" on P1 or for a personal note. If there is nothing at all then contact me and I'll mail another copy.

Ma reponse a ete affirmative. Donc si il y en a parmis vous qui sont interresse faite le moi savoir en me faisent parvenir une lettre avec votre liste de preference pour les pays.

Le jeux debutera aussitot que sept joueurs seront disponible. Hater vous! Car je ne mene qu'une seul partie. Cette partie sera publie dans une sous section Francaise de Sleepless Mnight(Chevaliers sans Repos) et devra suivre tous les regles maison de Dave Certer.

Is this really a 10 page Sleepless Knights ???? ....And not even a double issue! Oh well, don't expect to get this every issue. Just to give you an idea of what's inside. Judy Winsome calls me a sexist on Page 5, Sick jokes are om Page 2, IPR on page 3, a new column by Bob Acheson on page 10, Barry Hickey explains house rule 27.36a on page 7 and the Trivia quiz is on page 2.

Talking of Trivia quizes....Not only is Judy Winsome raking me over the coals but now Kathy Byrne has filed on afficial protest with her Ombudsman (Steve Arnawoodian) because I would not accept one of he answers in last issues trivia quiz. Asking for various WWII events to be put in order did not mean I would accept alphabetically Kathy. Oh well, I'll not take this one lieing down. I have already filed a protest of the choice of ombudsman. I can't accept an ombusman who has donated 123 supply centers to Kathy in the last 2 years. My suggestion for an Ombudsmen would be Styleve Hutton or Ron Brown. 2 fine Canadian GM's.

Baby wise, Julie has 7 weeks to go. Of course she may be acrly which would really wreck up the next deadline.

HAI JIKAI by Mark S. Keller, 9536 Shumway Drive, Orangevale, CA, 95662, USA. Mark uses a VIC 20 to type up also zine and he also publishes a computer related dip zine along with HJ. Sub fees for HJ are 30 cents per assue, ditto for the TWO FACES OF TOMORROW (The computer thingee). Lotsa game openings in: Reg dip, Bourse, Bio-War, Flat Lux, Hyborian age II, Kregish dip, Time Distortion dip and Treachery. \$2 game fee. Marks standby list is 4 people so you stand a good chance of getting a game that way.

From HJ #? March 1983. BLACK HOLE DIP

- 1) After each spring and fall move, one province is randomly chosen to become <u>black-holed</u>. The province becomes impassable, in the same manner that Switzerland is impassable. Any unit present in the province when t is <u>black-holed</u> is eliminated.
- 2) Starting with spring 1904, one previously <u>black-holed</u> province is <u>white-holed</u>. This means that the province becomes passable. Switzerland is considered to have been <u>black-holed</u> before the beginning of the same, and therefore Switzerland is eligible to be white holed.
- 3) A player may not derive support from a supply center in a province that has been black-holed. If a Black-holed province is white-holed it's supply center status is unchanged, and the supply center of the province If any) is returned to the player that owned it when the province was black-holed, unless the player has been eliminated, in which case it is considered neutral.

- Lotsa game openings for regular dip in MIDLIFE CRISIS by, Paul Rauterberg 4922 W Wisconsin ave, Milwaukee, MI, 53203, USA. Subs \$4.50 for 10, 4 week deadlines, no game fee but there is a refundable NMR fee of \$5.... ..not a bad idea cos I'd be rich on confiscated NMR fees. Paul is a 10 year vet of PBM war and drives a red Z-28 to boot.
- Not to forget Mark Luedi who publishes 30 MILES OF BAD ROAD, 730 Atwater #15, Blcomington, IN, 47401, USA. Subs 10 for \$4, 5 week deadlines that may move to 3 weeks (Bad for us canuckies but good for all youse south of the border). GF \$2 with a \$3 NMR fee. Mark does not drive a red Z-28 but he does have a beard so he can't be all bad.
- 3: What do you call a leper in a wind tunnel? A: Bones.
- Q: How can you tell when a poker game is over at a leper colony?

  A: When everyone throws in their hands.
  From Rob Winslow.....
- 9: How many IRA "Freedom Fighters" does it take to change a lightbulb?
- A: 100. 1 to replace the lightbulb and 99 to kill the innocent by standers.
- Did you hear about the new german microwave oven? It seats 6.
- 9: What's the difference between a LSU Co-ed and an elephant? A: About 10 lbs
- 3: How do you make up the 101b difference? A: Forcefeed the elephant.

(3) What is the name of the Spaceport on Tatooine where the cantina was? (4) What does T.I.E stand for in TIE Fighter (From Star Wars)? (5) In the Movie ALIEN, most of the action takes place on a 7 man commercial towing vehicle. What was it's name? (6) Donal Graeme is a mercenary from what planet? (9) In Marion Zimmer Bradley's DARKOVER books the power to command the Matrix is limited to what select group? (10) What author writes about Fafhra and the grey mouser? (11) Farl Cabot is transferred from Earth to a counter-Earth named.....? (12) Retief was a diplomat in the CDT. In which century?

A question for every number this time....amazing. I have had 3 offers from person's willing to do quizes for me so maybe I can keep my own brilliant quizes for emergencys. Rob Winslow has offered a WWII quiz for next time so over to you ROB. I have noticed that certain topics don't go over too good, mainly TV and Movie questions and anything I come up with.

(Clarice Marie Lowes, age 2 months) Dear Mr Carter, thank you very much for the sample issue #20 that you sent. It was a bit confusing to me - so many things I don't understand yet. But I like the pictures. The SIAR WARS shots had to be explained to me but Dad says he'll take me to see the fifth one - I should be old enough by then. And those girls aren't wearing very much clothing. Everytime I have that few on I get cold. Im I supposed to look like that? Daddy mumbled something about needing a big club if I do....Anyways, I don't think I should subscribe yet, maybe in a couple of years after I learn to read. Good luck with your new Babt-to-be.

((I'm sorry to hear that you don't want to sub just yet Clarice. Don't let the fact that you can't read stop you, Steve Hutton publishes a zine without being able to write))

(300 Acheson) While I won't bet on my leafs yet, at least until they KO Minnesota and Chicago, I do believe that Ms Byrnes Islanders would be very lucky to get by Washington.

((If I had any compassion I wouldn't print these old letters written before the playoffs but a real letter from Bob Acheson is hard to pass up.))

(ROD Rochester Winslow) The SEC is indeed a very good basketball conference, Jeorgia proved that. I never said it wasn't good. About NCAA Football though, it seems that Penn State won the National title last year and this yank seems to remember that Pennsylvania is somewhere North of the Mason-Sixon line.

In the Northeast we do like to give our student-athletes an education, is that wrong? Bill Bradley, for instance, had a fine career with the Knicks and is now a US congressmen (Although I'm not saying Congressmen have any brains, take Jed Kennedy for example) ((No thanks, you can keep him))

As far as toxic wastes go, how come every train loaded with some kind of poisonous gas seems to derail in Louissiana? Perhaps all the Chlorine gas drifting around down there has screwed up a few too many minds. This could explain why some folks actually brag about consuming Budweiser.

 $\ell$ (If you guys would argue about NHL hockey maybe I could get in on this.))

(3en Schilling) Any one who believes that ACAA athletics are amateur sports expects ALL Dip players to keep ALL their promises.

(Doug Kernes) you might as well put me on your list of new daddys. Elsie (My wife) gave birth to our first child, a son, which we named James Christopher Ryan Karnes, on Feb 23rd at 1.26 am.

((Congratulations Doug, if any more dippy-types have kids we'll have to call in the Atlanta disease control center to find out what is causing it. Maybe the thing is a virus transmitted by dippy zines?

(Jeff Punches) The floods and high seas we had in California have subsided and spring is in full bloom - it's 80F out and beautifull sun - how's yours (ha,ha)?

I've been busy at work lately but still have some time for fun. I've been appointed the Iraffic Safety Commissioner for the city of Carlsbad - no pay, but it does further my political career.

((We share the same sun Jeff. Weather-wise this winter was the mildest I can remember since I settled here in 1964. Hardly any snow, moderate temperatures and little ground frost. My job is construction-related and due to the moderate winter the Spring construction season is 4 weeks ahead of 1982. Spring is always our busiest time and we still hamve 1/3 of the staff working on winter research projects. I deleted your joke

cos city officials in Carlsbad should not go around telling ethn±c jokes...got any more?))
(Mark Keller) yes, my zine is done on a VIC 20. The VIC has 23 lines of 22 characters. The text editor I use is one that I wrote myself. It provides me with 5 logical lines of 82 characters each on thescreen at once

together with a status line and a command line. The VIC is now selling for \$89.00 in the US. One nice thing about Commodore is that if you buy the VIC with a printer & Disc drive you can use them when you move up to the "64". I may be moving up very soon. The "64" is now selling for \$399.00 US. I've also heard that Commodore is starting to offer a trade-in offer with the "64". You buy a "64" and send them an old computer/video game and they discount \$100. Disc drives are now selling here for less than \$300.00 US. If you buy one be sure to get the 1541.

I don't like or use a Commodore printer, I have a MX-80. It has much more flexibility and better quality printing. If you get an Epsom printer let me know and I'll fill you in on what I know about interfacing it.

To give you an idea of how much having a word processor means to me. I would not have started publishing without one.

((Oh. shit! I forget to change elements!! Thankee Markie for an interezting letter, I've had little formal education on computers but it's a subject I'm very interested in. I wasn't aware that the VIC 20 could do so much until I saw what a nice job it did with HAI JAKAI. My basic requirement for a computer would be word-processing and other things would be secondary. I've been saving up these last few paydays like crazy to beat the MAY 20th deadline (Julie quits work for good and I'm in trouble) and I'm, gonna be short for what I really need but I may have enough for a VIC 20/disc and printer if the salesbeing feels real sorry for me. Prices in Toronto are: Vic 20 + Accessories=\$400 CDN, "64" =\$800 CDN, "64" + disc drive + Desk = \$1300 CDN "64" + Monitor + Desk = \$1200 CDN. I intend to check out the duty charges for computers and I may pick something up when I'm at ORIGINS.....you know what I mean.??))

Others may not rate GM's inwhose games they were not active players during the poll period. Violations of these rules will result in invalidation of the entire ballot.

No Fractions. Specify subzines and rate them seperately from the parent zine. Subzines will be listed seperately in an independant list.

....and to think that this all started because Dave Weatherhead refused to draw a nude male for my front page.....3 heeesh.

Little Johnny was 12 years old and, like other boys his age, rather curious. He had been hearing quite a bit about "courting" from the older boys and he wondered what it was and how it was done. One day he took his questions to his mother who became rather frustrated. Instead of explaining things to Johnny, she told him to hide behind the curtains one night and watch his older sister and her boyfriend. This hadid. The following morning he described everything to his mom. "Sis and her boyfriend sat and talked for awhile, then he turned off most of the lights." 'Then he started kissing and hugging her. I figured Sis must be getting sick, because she started looking funny. He must have thought so to. because he put his hand inside her blouse to feel her heartbeat Just like the doctor would do. Except I guess he's not as smart as the doctor because he seemed to have trouble finding her heart. I guess he must have heen getting sick too, because pretty soon both of them started panting and getting out of breath. His other hand must have been gold because he put it under her skirt. About his time Sis got worse and started to moan and sigh and squirm around. They slid down to the end of the couch. This is when the fever started, I know it was the fever because Sis told him that she was really hot. Then finally I found out what was making them so sick. A great big cell had gotten inside his pants somehow. It just jumped out of his pants and stood there, about 10" high, Himest! Anyway, he grabbed it with one hand to keep it from getting away. And when Sis saw it she got really scared ... her eyes got big and her mouth fell open. She started calling out to God and stuff like that. She said it was the biggest one she had ever seen (I should tell her about the ones down at the lake,. Anyway, Sis got brave and tried to kill the eel by biting its head off. Then all of a sudden, she made a noise and let go of the eal... I guess it bit her back. Then Sis grabbed it with both hands this time while her boyfriend took a muzzel out of his pocket and slipped it over the eel's head to keep it from biting again. Then Sis lay back and spread her legs, so she could get a scissor lock on it, and her boyfriend helped by laying on top of the cel. The eel put up one hell of a fight. Sis started groaning again and the she squealed and her boyli-lend almost upset the couch. I guess they were trying to kill the eel by squashing it between them. After awhile they both quit moving and gave a great sigh, Her boyfriend got up, and sure enough, they had killed the eel. I know it was dead because it just hung there, all limp, and some of its insides where hanging out. Sis and her boyfriend were a little tired from the battle, but they went back to courting anyways. He started hugging and kissing her again. But by golly...that old eel wasn't dead. It jumped straight up and started to fight again. I guess eels are like cats...they must have nine lives or something. This time Sis jumped up and tried to kill the eel by sitting on it. After a 35 min. struggle, they finally killed the eel. I know it was dead for sure this time, because I saw Sis's boyfriend peel off the skin and flush it down the toilet.

- A Regular Column in Sleepless Knights by: Bob Acheson, c/o Echo Bay Mines, LUPIN, NWT, Canada, XOE 140. Why? Why write a column for Sleepless Knights? Well, basically there were two main reasons:
- il. The undisputed Canadian Champion of the fine art of groveling, ie: Dave Carter. Dave has been pleading & begging me to write one. I "honestly" believe that he is trying to double the circulation of his zine.
- #2. While the above was very flattering to this "humble" person; it just wasn't enough. So, to be honest, Dave is pasing me for my literary contributions. I carrot relate the agreed upor sum; but jary Carter's got nothing on me.

# -1\_HURJACKH\_KJJAJ**3.**

'the Fellow Canadians'; Iver the last decade we've heard from Juebec on the problem of French rights. Which nakes one wonder who really won the battle on the Plains of Abraham. Western Separation had it's moment in the sun. I'th deal with our"friendly" farmers in another article. Even our Newfies are crying; Uncle Pierre's got lots of hierex for these boys, because Newfies should neither be seen nor heard.

I now present the Northern Rights problems and possible solutions. Basically this can be broken down into three deparate areas.

(1) Indian protherhood: The Indian protherhood is the total of all the Northern Indian tribes. It some point in the past they decided to present one united claim as well as putting an end to their intertribal rivalries. that these people wart, outside of the obvious cultural and language rights, is the creation of an IIIsIAH 141901. Which would guarantee the natives their own rights and laws. In order to have this they require approx 2/3's of the north West Jerritorries (five or take a mile).

(2) Inuit: Regard themselves as "the People". I believe that we used to call them iskimo's. Sasically these people wart the same cultural rights as the Srotherhood, but do not demand the same land track. About & of the Jerritories will do for these guis.

The Jovernment's solution has been to get together in committies and present one claim. This has to be a wood tactic - because to late, despite many meeting between the two groups, they just cannot agree; continuals presenting overlapping claims. The second government solution has been the "jovernment sand-)ut" to keep the ractives in a mode of survival.

 $M_{m{x}}$  solution to both parties would be to: #1 Stop funding the committies because there shoultn't be any claims at all! (Ever hear of Mongolliar or Siberian land claims?) If the Native people want land them buy it. Instead of spending all those welfare cheques on booze they should go on the wagon, save their Shechais and buy the land. Forget this give! give! #2 Scrap all the "Native" joo craetion programs. Jow there is considerable pressure brought upon Horthern mines, drilling rigs etc to hire a percentage of natives. Atmictedly the government programs make it very attractive to the employers in substities and relaxation of various control factors. But somewhere along the line we pay for this. As well, bringing people in order to fiel "quotas" has an affect on production and morale. People should be hired to fill requirements based on their own quatifications and not simply to fill quota levels set by government. ##3 Imstement more re-schooling and training programs at the same time as pruning the welfare rolls (This should be done on a National pasis). The emphasis of the re-schooling should be on Northern Requirements. Instead of continual handouts, which does a lot for their self-respect, teach these people to help themselves.

That terves us with the final minority. I refer to those people as the VIACRS. The VIACRS include anyone the is not an Indian or an Inuit. Jessir, that's me. How what rights could we possible want? as no taxation on the Northern Living allowance (freedy? who we?).

5/ Hil jovernment freezies that are given to our Inuit and Indian friends. ie: land claims, easy welfare etc. c/ Longer bar hours. We want equality with those Frenchmen from Montreal.

Ibviously none of the above will take place so at least give us more time to Irown our sorrows in the traditional forthern vay.

The above ominions are those of Robert Acheson and do not represent the opinions of this zine etc.... grovel. ..grovel..grovel.Any counter-arguments or comments will be printed next issue if you send me any.

Basically Bob's politics are the same as mine although my main beef is not Native Rights but Capital Punishment. Still, I agree....grovel...grovel...å100 that a job should go to the person most qualified; black, white, eskimo, male, female, gay....whatever. Currently, the government of Untario (My employer) has a polic to fill positions with females, even when a male covaterpart has better credentials/more set Despite some of the jokes that go into 5% I am a strong believer in treating all people the same and male counterpart has better credentials/more seniority rewarding those (of any minority) that have proven they deserve it...grovel...growel...grovel...
