and LIAISONS DANGEREUSES #18

This is LIAISONS DANGEREUSES, incorporating brontosaurus. LD is affiliated with the IFW Diplomacy Society, Conrad von Metzkie hier-apparant, the N3FDD of the National Fan Fantasy something-or-other and is a member of the Diplomacy Association. We wholeheartedly support the N3f Diplomacy Division and its chief, Rod Walker. We support the board of the DA BUT DO NOT SUPPORT (KING) JOHN (THE FIRST) BESHARA as chairman of that board. We find mister Beshara to be a pedantic Wazir!

.....  
Is it new?

Is it for you?

The Diplomacy Association is created FOR the player of postal Diplomacy. It is (?) a democratic organization supposedly with credentials and elections and plans for the future. If you find the proof of these last two statements please forward it to me! WAZIR, the journal of that organization, contained no membership list, although we are sure people do belong to the group, and no plans for organization. We did find some plans and some pronouncements and some biased diatribe in an unbiased (supposedly) periodical of postal Diplomacy. In short we support nothing less but elections to be held in the next three months for the members of the board of the DA. We support the overthrow of Mr. John Beshara as a member of that board, and failing that, we will support just about anyone versus that man for the post of chairman of the board of that organization. Finally, as a member of the DIPLOMACY ASSOCIATION, I wish to nominate myself as a ~~member~~ <sup>nominee</sup> to that board ~~and~~ if and when elections do occur.

A note from John Beshara:

I have written John Beshara recently concerning a vile letter printed by him attacking, in the most vulgar way, Mr. Rod Walker--hief of the N3F DD. I made a protest to the concil of the DA over this letter and called it to the attention of the board that the author of such a letter was not, in my opinion, fit material for the chairmanship of the Diplomacy association. In addition I commented on the first WAZIR & supported the three proposals made on page one. John asked if I will publically endorse these three goals, and I do wholeheartedly! However:

"You previousl indicated to me you would not publicay support TDA or plug it in your publications until you had evidence of its worthiness -- I am not quoting you directly, that is my recollection of your general feeling. Will you now give us this public support which you previously denied us?"

The answer is NO. Not until full election by-laws and a membership of the DA is printed and made available to the general membership. The current board is semi-competant I am sure. But they are ruling by devine right at the moment. They have been appointed(?) by no higher authority. I will suppor the DA when the founding fathers let go of the apron strings and turn the project over to the members. If after elections the same 6 men run DA I will support it when I feel the interest of postal diplomacy are being fostered, as in the three

May 18, 1971

.....  
 proposals made in WAZIR number one. I shall not support it if it continues to be run by an aristocratic elite-- I refer to Mr. Beshara-- for we have heard NOTHING from any member of the board, just Mister Beshara!

continuing " On behalf of TDA I want to thank you for your offer of help to assist as as a Consultant in the Midwest area. The Chairman of the Consultant's Committee in the Midwest is Walter ~~KIMMACK~~ Buchanan and he alone choses the members of his committee."

-----I would ask how Mister Buchanan also inherits the devine right to choose, to govern, or to do anything? After all, "it's new, it's for you" If the committee chairman approves it? Where are all of these rules ONE PAPER so we THE MEMBERS OF THE DA may see them? How can an organization, such as this one claims to be, be so damn arbitrary and lofty. Who elected Walter Buchanan? Who appointed Walter Buchanan? Please note, I do not object to Walt personally, I am sure he is quite competant, and I do not question his credentials to be upon the board, I just want to know how he got on the board!

" As to your other inquiries, those are matters for the Board and when a determination is made it will be announced in the WAZIR, where all members will receive the news simultaneously. Might I ask the reasons for your "interest" in inquiring when elections will be held?"

-----Well John, for starters I'd like you out of office as ~~rapidly~~ rapidly as an election could spirit you out of office. Second the Board has NO RIGHT to determine ANYTHING! Where do these six people get off running this organization and making laws by which it shall run? Daily business, production of the WAZIR must be done by a few until organization is achieved. But POLICY AND ORGANIZATION, the board has NO SUCH AUTHORITY OR RIGHT!

"There are a couple (of) items in your letter that might be desirable to quote in our next publication:

'I fully support all three of the proposals outlined on page 1 of the May issue of the WAZIR'.

' the idea of the 'tactical quiz' in the May issue of the WAZIR is excellent, As an old bridge palyer, I can appreciate the format of such a presentation.'"

YOU have my permission, as I do endorse these proposals and I urge the membership to legitimize them via a vote, or urge that the elected board make them top on the priority list of officail DA functions!!!

"The article you referred to, published in GRAUSTARK 238, was written by me. It is not connected with TDA. When I became an officer ((howdid you do that?)) of TDA I did not give up my American birthright, including any of my rights as an individual. Ip If you consider the truth to be 'vile', you must really be horrified at the filth, not suitable even for a sewer, which Rod Walker is spreading against me in the form of press releases in GRAUSTARK."

-----I thought they were rather funny! I have never been upset about some lewd remark in a press release that was aimed at me. I do live so far above the rest of the world that a good joke upsets me.

Being the brunt of a series of press releases is a fate that never has and never will upset me. It is part of the game. Al Capp must give you warts every Saturday afternoon when you read the funnies. At any rate, I still want the board of the DA, either present or to be elected, to censure you for your invective. When you attack another head of a Diplomacy association you undermine your own office and everyone who is a member of the DA, and that is me too. I do not like to see Spiro Agnue make an ads of himself and my country--I don't like to see you cast aspersions upon the DA of which I'm a member--I don't care if you make an ass of yourself.
