LIAISONS DANGEREUSES # 25--Compiled October 6, 1971. For this issue incorporating the NEOPHYTE games, which are usually carried in the subzine NEOPHYTE. LD is published upon the IFW PRESS and edited by Lenard Lakofka, 1806 N. Richmond St., Chicago, Ill. 60647 312-342-6857. LD is affiliated with the N3FDD headed by Tony Pandin, Cleveland Ohio, and the IFWDS headed by the duo from Phoenix Bob Strayer, and Pete Weber, 207 E. Alice St., Phoenix Ariz. 85020.

The Gamemaster of LIAISONS DANGEREUSES is a member of the DIPLOMACY ASSOCIATION and an advisor to novice Diplomacy Players in concert with Mr. Rick Brooks—another member of the DA. Mr. Brooks and I shall offer to council, together or seperately, any novice player wishing tips on the tactics of Diplomacy—both in Diplomatic relations or in military maneuver. We agree to have our names published as advising a particular player who wishes advice within the 'zine that carries the game(s) under consideration. Personally, I do not choose to advise a person on the ability of the other players from past game records, and I shall make no judgement based upon any personal relation—ships with any person in other dealings. Advice will be made on the basis of negotiations and positions—in fact I prefer NOT knowing the names of the remaining players so that I can be totally objective.

In addition, the Gamemaster now fully adds his support to the effort of Mr. Larry Peery, et. al. to revitalize the DIPLOMACY ASSOCIATION for a period of three months. If such revitalizations is not accomplished within that time I shall move for total break with the DA as headed by John Beshara and his flunky John Boardman.

LIAISONS DIANGEREUSES fully supports Mrs. Walter Buchannon for QUEEN OF DIPLOMACY--we all know a real woman makes a better queen than.....

(If I had \$\$500 I would give it to Larry Peery before I'd give it to John Boardman, but it seems Beshara is giving to Boardman anyway, so......

"First, last season, Austria a boh, a bud, a vie, and a ser were U. ((that is wrong, no a Bud see LD # 23 Aug. 16, 1971))) A Ser was A. Now, you donot report Aus a boh, a bud or a Vie. ((There is no a Bud owned byAustria-as anyone who can read will note, Austria is reported to have a boh and a vie-I have the origional, if anyone would like a Xerox of it to see, that in fact, this was noted!)) You allowed ITA to write orders for a bud and a tri when he has only a tri and a ven respectively. ((again I'm correct-see LD # 23)) And you allow Rus a gal-bud. ((because it is a legal move, you dolt!!)) Boy, you are really screwed up, as usual. Either get on the stick or we will order the game transferred to some competent GM. I have written this farce of yours to four of the other players and I will publish this move sequence in LA GUERREE for all of the world to read.

And, Dear Len, if you are going to accept moves over the telephone, how about having someone competant answer the phone. It costs me \$7

(As I noted, that second note did not arrive.) At this point we could vote on whether to remove the Fall of 1902! The game is based on certain rules of order and proceedure. Those rules were not broken except by the U.S. post office. In short tt would be there service on which we are voting. Therefore, even though no one may be happy with FSEV, there it remains. Whether it would be a special case or a precident it is an area in which I fear to tread. If one player could challenge a me season on the basis on orders send but not delivered then where would it end?! Comments welcome, of course! Tunis--FLASH--The great Italian Naval Hero, Count Gotchaballs, said today in his weekly news conferencethat the Russo-Turk alliance is a farce, and should be Flushed, or rather Buried, at once. When asked why hisreply was merely "belch! 'em all" which ended the conference, and a few of the less sturdy reporters. However, in the privacyof his stateroom, he was heard to say "Lookin' grim for the Hunkies. However this reminds me of the time I was surrounded on one side by a Bear and a KMIM Bum and the other side by a Heck of a nice guy. Using a little logic, we game the Bear an address of the local behive and rolled the Bum for his bottle. That was a good year." END:

Clyde---King Milktoast IV today announced the marriage of his daughter, princess Chastity, to the son of the Kaiser, Prince Moring Star. Neither the bride nor the groom were willing, but the King and the Kaiser convinced their respective off-spring to accept the match. The 4 ft 5 in bride is expected to wear a gown made by her mother, while the 7 foot 4 inch groom will be attired in his Prussian uniform. Rev. Godsend will officiate the creemony at the summer palace.

Ankara---Turkish officails expressed shock today at the Russian presence in the Black Sea! The Russians are here by warned to leave the Black Sea immediately or Turkish Reprisals will result!

Moscow: The Czar, in an infrequent public appearance, blessed the courageous sailors of the Russian fishing fleet now traviling in the Black Sea. Fierce winter winds, however, may drive the trawlers towards the Turkish coast!

London-The foreign office today announced the declaration of a x state of war between England and France, confirming rumours (occasioned by the abortive maid on London of an Entire French Fleet) that a war had in reality broken out. Blame for this unfortunate turn of events was laid squarely on France by the foreigh minister, who indicated that "the government of England had no reason to believe that the French would do something so contrary to their best interests. We also did not fully realize the unique French ability for deception, deceit, betrayal, and outright lying. We were quite shocked!

Our correspondent with the English Fleet which repulsed the French assault on London was indicated that orders to turn from London towards the continent were received only after the battle commendec. "a near thing mates." admiral beady was heard to murmur after the fight. "something seems to be wrong with our bloody foreigh office today.

\* Note that I had printed the incorrect address for Peter Keleman in the issue of NEOPHYTE starting this game. Also I sent it to the incorrect address and therefore it arrived late. Peter did send in moves for the other game in NEOPHYTE but not this game. I feel that conditions, oversight and/or the PO have placed Kelemen at a disadvantage in negostations (since none of you had his proper address) and in getting in his move, as the chance of his missing the game announcement also exists. Lastly, the entire game would be compromised by this early miss-and in fact the smothness of the game would be destroyed. Needlessto say some players might also get an advantage from a missed spring move by ANY country in sp '01. Thus I have allowed a neutral substitute to make a series of moves for Russia that do not infringe upon any other's borders. Peter Keleman is hereby notified that he must notify me by October 27, 1971 if he intends to continue. If he does not a substitute will be assigned and the fall 1901 deadline extended.

+ + + THE DEADLINE FOR THE FALL OF 1901 IS NOVEMBER 7, 1971+++++ notes on move notation: The final position of your piece is shown in capital leters. Thus A BOH-sil would mean A BOH did not move successfully to silesia, whiel a boh-SIL shows it does succeed to a boh-sil would imply that it did not succeed to sil and was dislodged from bohemia. A game of International Power-politics, recreating the diplomatic war of 1935-40. Players take the part of the major diplomats in an effort to stifle Germany's emergence as a world power while initiating powergrabs for themselves. Were this game to be played tonight by today's great diplomats, they might be able to prevent history from repeating itself - the game is that realistic.
