New Diplomacy Organization begins now!

The last issue of NEOPHYTE has brought results! That issue has prompted Bob Johnson to say, "Do you get LIAISONS DANGEREUSES? Hor Poop! ...I have run into more than a couple of foolish people. But!, none nothing has been as bad as the recent claptrap I received recently of the mimeo of Len Lakofka. ...After a stupid ignorant attack on Rod Walker...he begins speaking for everyone, telling us what we don't like about the potential new DipOrg, the interim constitution and assorted people. ...Lenny baby, I ask you, if you didn't want to work within the DraftComm, why did you come crying to me, begging that I let you on. The CA ((CANDIDO ANNOTATED)) is available to anyone for an SSAE; and you had the addresses of all the members of the DraftComm, so you could have wrote them with your ideas..."

"Oh by the way, Lennie, in no way speaks for the DraftComm, the interim constitution or what constitutes membership in any DipOrg. ...as for our wondermay Lenny...wouldn't it be nice if he waited to run for office and promised to obey the rules that govern an organization."

A few Days later Rod Walker said:

"You ((Bob Johnson)) wanted to get the machinery rolling whether it was ready or not. Len is right in this respect; the DraftCom did not write a constitution. It merely accepted, without public debate, one you wrote yourself. I will tell you frankly, I think it is a very bad document...it would have been wiser to let the Comm. work and propose a better product.... The point is, we now have a document which I doubt will inspire confidence, no election in sight, an exorbitant \$2 fee, and a public fight among the 'founding fathers'".

I believe I shall quote the last NEOPHYTE, to refresh your memory: "1. No one shall collect dues until the intirum constitution is adopted by the members.

2. No final constitution shall be started until dues are legally collected under the rules of the legally adopted interim constitution.

3. The election now in progress shall be a referendum to select a group to act as coordinators for six months only."

I can also quote more from CA 1,2, &3, GALLARDIA 1 #7&8, and NEW ALBION 3, in whihc the following was stated: 1) Bob would collect opinions on the Interim constituion he wrote and mail them to all of the committee for discussion and debate. (He did not.) 2) An election was to be held and finished by Feb. 1, 1972 (It has not been run.) 3) A contest for the name fo the New Organization was to be held. (It was not.) 4) The Interim constitution was to be ratified by the membership by January 1, 1972. (It was not.) 5)"Disagreements should be resolved privately...we should coöperate, at least publically."

LIAISONS DANGEREUSES is a journal of postal Diplomacy edited by Lenard Lakofka, 1806 N. Richmond St., Chicago Ill. 60647 312-342-6857. LD # 28, Feb. 4, 1972, incorporated NEOPHYTE and bronto. LD is affiliated with the N3FGBDD and the IFW; and shall act as a news source for those interested in the new Diplomacy Organization.

LD #16 is open, game fee \$4, NEOPHYTE #7 is open for \$3 to Novices only. The Neophyte Grand Tournament has 9 places still open with a game fee of \$7. Separate notices of each game are enclosed. This zine contains LD 8, 9, 12 (LD 15 due on Feb. 9), bronto 1 & 2, NEO 1,2,3,4,5 & 6 (opening). LD listings will be given after feature editorial.

New Diplomacy Organization begins now! cont. from page 1

Now where are we going? The members have a right to a democratic organization and not all of this bickering. The wheels of progress have stopped! I propose to restart them through a simple opinion poll. I am asking all publishers to reproduce the enclosed ballot and mail them with their next issue so that all results can be in my hands by March 20, 1972--if at all possible. This poll should be able to ascertain what the membership (the potential membership) wants in a new organization.

This ballot will not include everything and I ask each person to add whatever he feels is necessary. Every GM (publisher) may add any question(s) he chooses. (ballot is back page of this issue)

PEACE!

HOW TO AVOID MISSED MOVES/ the submission of orders

One of the most vexing problems in postal play is the missing of a move (build, retreat, removal). As you may know the U.S. Postal Service Inc. is not too swift when it comes to getting mail from place to place on time--if at all! Orders and 'zines are often LOST NEVER to be found! How can you avoid this problem?

The first problem involves the receipt of the magazine. You can, with a reasonably dependable GM, time the arrival so that missing it will be obvious. Yet not every GM is on an absolute schedule. Therefore it is wise to have your ally write you as soon as he receives the zine, and for you to return the favor. You can go so far as to have him include the zine in xerox form, but that is asking a lot. If the zine is missing you can usually recover if you find out quickly.

The next problem is the submission of orders. There are a number of systems.

1. The carbon system: Make a carbon of your moves and mail them on two separate days. One will almost always get through.
- 2) The receipt system a) enclose a stamped self addressed envelope or post card to be mailed back by the GM or b) get a Post Office receipt card for 15¢ (I believe).
- 3) The advance order system. File with the PRIOR move, a set of orders AND some "sealed orders" to be used in case you miss a move. Most GM accept this type of order. SO can be as brief or as detailed as you wish. ALWAYS provide for retreats/removals/builds! It can be a fatal error to overlook this possibility. If you have to, give a general rule of thumb for these three possibilities, i.e. build armies before fleets and list supply centers in order of desire, or remove in the north first, or retreat to the home lines first, etc. Always provide SOME kind of rule so you don't miss all-important builds, removals, and retreats!!
- 4) Telegraph your move REQUIRING the message be MAILED NOT PHONED to the GM.
- 5) Telephoning your moves yourself (if you're rich or close)
- 6) Ally method. Send a copy of your moves to an ally who will mail them with his orders (this is not allowed by some GMs so check first).

It is important to note that the GM does not live at home waiting for your move AND that people living in his home are NOT his agents. Special Delivery letters, Letters he must sign for, and phone calls at all hours are NOT appreciated by the GMs!

Your best policy is to mail SOME orders as soon as the zine arrives, and ALWAYS have sealed orders on file. Don't wait till the last minute and depend on the mails to get the move through!

I recommend the purchase of a columnar pad to use for your records. Title the columns:

- 1) Gamemaster &/or magazine
- 2) Boardman #, game #
- 3) deadline,
- 4) moves dated
- 5) moves sent on
- 6) receipt enclosed
- 7) receipt returned,
- 8) phone call made on
- 9) deadline extension requested
- 10) communique sent on
- 11) communique required answer on
- 12) Treaty expires in and whatever else you care to add. This system allows you to keep track of your games and communications. A receipt should take 7 working days to get back to you.

Good luck, and lets hope postal rates don't go up AGAIN!

MUNICH; minister of culture Karl Kunstliebr expressed shock today at theflippant characterization of the German people as "Latinized Huns" by the great Italian General, Luigi Cadorna, of Caporetto fame. "I can't imagine why he would say such a thing," the Minister complain, "Why, hardly any Germans can speak Latin, and it's common knowledge that all of the Huns are in Austria-Hungary!" The Minister added that he did not consider it an insult to be called a Hun, but only wanted to set the record straight.

MARSEILLES/via munich/; German enginners on loan to France today broke into a network of Italian tunnels while digging fortification five miles east of the city. Advancing down the tunnels toward the Italian border they uncovered and caputed what porved to be the entire Italian spy organization in Southern France, gathered together to celebrate the birthdayof Benito Mussolini. When asked about the Italian intelligence operations the captain of enginners snorted in distain. "Intelligence? Stupidity is the word! If there ware any brains in Italy they come from Austria!"

KIEL--In a raredisplay of diplomatic candor German Defense Minister Wilhelm Kriegmacher admitted that there had been a mistake in the recent sale of arms to France. " We game them the wrong files, " he said. " instead of modern, German made weapons we game them Italian muskets of the ighteenth centruzy. It's not surprising they didn't work, considering the country of origin!" He indicated that the muskets had been captured en masse by a band of German mercenaries in 1783 in Bologna and sent home to Bavaria as a trophy. When askedif the mishap was accidental he replied, " just a slipup in the supply system. We're looking for the guilty culprit now." He mentioned a group or suspicious Italians known to be working in Germany. When told about Italian contempt for German weapons the Minister collapsed in gales of laughter. "We'll see how they like the battleships our marine enginners are building in Marseilles!"

In one we have a series of simple moves. One standoff prevents Eng or Germany from gaining the north sea, but France can't take London without support. In (2) the same result except Germany supported his move to nth. in (3) Lon was attacked at 2:1 and so was north sea. Thus Germany gets Nth, and France London, England may retreat to York In 4 we have a very complex situation. The English have used a purposeful standoff of the French invasion. Note that England's 2:1 attack on London will not dislodge it! You can't dislodge your own piece.
