NECESSARIA DE LE COLLEGIE DE C Dedication: to THE liberated couple!

On April 26, 1975 Doug Beyerlein and harie Cockrell (alphabetical billing) will be united in he bands of holy matrimony. They have decided on the wedded legal names of Douglas-Marie Beyerell and Marie-Douglas Cocklein. We have heard that they are planning a true uni-sex wouding although it is now being argued as to whether they should wear lace 3 piece outfits and sandles or needlepointed blue jean ensemples of jeans, boots, fitted jackets and motorcycle caps. (aunt Cleo, one of the flower people, is wearing a bejeweled chafon bodice with 4 foot 'virgin' veil, studded leather peddlepushers, spiked knee high boots and will carry an 8° mexican whip--always the well dressed perfection!)

walt and Carol Buchanan are planning on levi 'farmer suits' complete with broom (for him) and pitchfork (for her). Walt will drive the wedding tractor will-ride shotgun on a Harley Davidson along with 'Auto Cleo an her and Carol

Honda (Civic).

The CROSSED KMIFE-BRIGADE will consist of Edi Birsan (who is still protesting the marriage in California courts because it will give the Beyerleins a higher CPCR than his. Reports also claim that he's planning to diworce Carol so that he can marry Marge Gemiganai -- she has one 'win' after all.), Stan Wrobel (who has given the couple a year's supply of Stan's Hardware's best brown shopping bags -- to carry off their wedding gifts), John Boyer (who is giving them a sterling silver 20 pound air hammer staple gun so that California Reports will be mutilated when Walt Buchanan tries to take the staples out), The Buchanans (Carol is giving Doug a safe and 15 filing cabinets -- it is also reported that if she does walt will diverge her--and Marie will shoot her!), Mike Rocamora (who is planning to arrive in his VW super beetle--you can't miss it, he has the HA trophy on the hoood as an ornament), Arnold Vagts (who will passing out MENSA tests during the proceedings), John Beshara (who will be passing out Beyerlein player polls -- with his ouwn name already at the top), Eric VErheiden (who will dedicate his 712th Deadlock position to the happy couple), Brenton VerPloeg (if he can ski in from Vale. He too has a WIN sweater and in fact may be looking to rip off Rocamora's hood ornament), Lew Pulsipher (who will be conduction a short poll on the ensemple from 2PM to SPM, after the reception), Gordon Anderson (who would like to have them put the marriage off until Aug 17 and have It dubbed DIPPY WED I, a part of Citex 75), your's truly (I'm baking the cake and many many more.

To these of you who don't like Doug, for some unknown reason, it has been usegested that ou call for a Boardman # on their wedding night—but you'll have to find out which State Park their bicycling off to. For the rest of us we'll have to be content with wishing the couple all of the best; happiness, long life, and polyperity. Deer and Marie will be a truly handsome couple and will prove that Diplomacy tan mile game long allinaces that work. (I still have to speak to Doug about stealing the jewel of Chicago Diplomacy players right out from under our notes!)

GOD BESS THEM!

The First Diplomacy Review has been published by Gil Neiger and it looks quite good. Rod Walker has agreed to help me on the Publihser's handbook. Other aid will be solicited soon.

Sorry This issue is so short but I've been very busy at work and my personal life has been rather choatic. Next issue will be longer-aren't your thrilled? The IDA Calhamer Awards Committee is working on the proposals for the next awards later this year. White to John Beyor for information.

What is brown and sounds like a bell? DUNG Stan Wrobel is publishing JASTRAZAB again. I'm trying to be thankful but the #%\$\$¢ put a substitute in the game just as my Austria and my ally's Turkey were breaking bugland. Love you Stani

## Notes;

i. This page is a part of the NEXT issue of LD. Therefore when you receive the next LD please don't call me collect to ask where the missing page is?

2. It has been my experience that Air Mail overseas takes from 3 to 4 days and rarely takes 5 or 6. Mr. Johnson has not asked for deadline extensions and I will not consider them until it can be shown that he is being hurt by the shorter deadlines preferable for a demonstration game.

3. As I have said moves dependant on the same secson are unacceptable. Vacations and business trips not with standing it is up to the player to plan whether he is able to play in a game or whether he will be away most of the time and can not engage in active Diplomacy.

4. Press releases that are really negotiations are not acceptable, they just waste magazine space. Black Press is acceptable IF IT HAS NOTHING TO BO WITH THE GAME, thus satire is quite acceptable but material about the movement of pieces etc. would not be printed under anothers dateline. Mr. Johnson did not author the last "Warsaw".

5. I would appreciate it if you would not make comments on my analysis until after the game is over. I do not wish to have my brilliant analysis muddled with facts!

1974HW. analysis.

The South

In the Fall of 1901 Austria had a fair amount of Diplomatic clout. She can hang her fate on either Turkish or Italian help because if Austria is destroyed then Italy or Turkey will be next in line. An Italian-Turkish alliance versus Russia is highly unworkable and the lest likely 2 way allinace to emerge from the Austrian defeat. Diplomatic cards can also be played with Russia for fear that an English-Turkish alliance might emerge in end game. However, we have seen the threads of the Russo-Turkish alliance already form over the negotiated demilitarization of the Blace Sea. Russia's capture of Rumania precludes land intervention into Austria and thus Russia's only Fall 1901 hope was a stab, A Gal to Vie (or Bud) was one alternative and A Ukr (s) a Gal-Rum, F Rum-Bla was the other. Austria, already out of position, was the most likely target. Austria was sure to ask both Italy and Turkey for an insight into where A Gal was going. Either (both) of these powers could set Austria up for the Russian stab. Itsly could be told by Russia 'I'm going to Vic' then Italy tells Austria to defend Bud. In this way Italy gets the build for Tri when A Tri misses the invaders by defending the 'wrong' home center. (Italy can then say that Russia lied to him but A Ven-Tri was not a defense of Tri, was it?)

The German attack of Russia may well be being induced by Turkey (least Likely), England or Italy. All three of those powers have a great deal to gain from a Russian player that does not grow too strong. Germany's attack on Russia is clearly an after

thought because A Mun(Ber)-Sil in Spring 1901 was the best bet by far!

England has stooped for Belgium -- but he's done it with the army and not the fleet. Thus England inducing Germany to attack Russia is not as likely as Italy (knowing the true Russian move) inducing Germany to attack Russia!

France has fallen into an unfortunate trap. The 'unwanted support' is highly favored in the Italian position. True, France would like to build F Mar but he really can't afford to cutguess Edi and lose a sure two builds for Spain and Port. I think A Spa-Port, F Mao-SpaSC is called for in that position. The attempt to outguess Italy is poor by France since, if wrong, France seals his own fate. France would still be a viable contender in middle game with SpaSC and 2 builds. Now the English Army Bel, the 2nd English build (F Lvp), the Second Italian build, and the Italian fleet's free access to wes will cause France, along with Austria, a speedy death.

As things now stack up England and Italy are playing excellent games, Turkey is proceeding alright, but A Ank-Smy(?) seems poor, Germany's play is alright and he is still able to play strongly against Russia. Russia's play is adequate, but had

he guesses wrong about Gal he would be in severe trouble.

why is A Ank-Smy poor? If Turkey has taken all the time and trouble to demilitarize the Black Sea and get F Ank out to the Aeg it is logical to back the move with F Smy. If he plans to build A Con then wouldn't A Ank-Con be betler? If he plans to attack Russia then A Ank-Arm is flavored. A Ank-Smy makes no strategic sense and ties him to a convoy across the Aeg and a backward piece in Con. (It will also allow for a delayed Lepanto if Turkey is very careless.)
