RUSSIA, AUSTRIA RETURN TO THE FRAY!!!!!! FRANCE ENTERS POETRY

Note that issue 17 is incorrect in not assigning a build to Rod Walker AUSTRIA for Serbia. Russia needs to remove only two units including Kiel, not in addition to it. Rod had his moves in the day after the issue was run but explained the issue had not reached him until quite late. His moves would have been allowed except the net effect was for all to hold anyway.

THE WINTER BUILDS ARE:

AUSTRIA Build A budapest
ENGLAND Build F. Edinburg, F. London. A Liverpool
France: Build Army Paris, A Marsalled
Russia; Remove A Galacia (in addtion to F. Kiel)

We have one press release from Rod as usual:

BUDAPEST (25 Dec 1905) Today, during the celebration of the Annual Winter Fertility Orgy, His Holiness. Papal Kalif Innocent XIV of the Holy Islamo-Christian & Church, declared a Jihad-Crusade against the infidel nation of France. "Invade Bohemia, will you? Conquer Italy will you?. Death, doom, destruction, and despair! Die western infidel dogs!!"

Spring 1906 moves, press releases, poems, threatenig letters, and requests for small loans or medical assistance should be recieved by the editor not later than September 25.

The address of ye kiddly editor, for those of you have have trouble keeping track of such things is now:
