

MISKATONIC UNIVERSITY

Series 1, number 20

We hope that our quality will be improved over the last couple of issues. One version of this issue has already been 'supressed', and,, as a first step, we will discontinue the practice of printing on both sides of the page. Additionally, we resolve to use only purple masters of high quality. One further notice-that Charles Turner is no longer involved with the editorial process of the Journal...

EUROPE ASUNDER AS CAPITALISTS OPPOSE SECRET UNDERGROUND!!!

Diplomacy fandom's two most enthusiastic enemies have agreed to a battle of skill and luck in the pages of MISKATONIC UNIVERSITY. As the identities of the players will become blatant with the publication of their first press releases, an appropriate aura of mystery will prevail (in order to confuse the pleasant white suited gentlemen from the State Hospital)

MOVE TO SUNNY BELLY RAVE SOUTH!!!

(Moscow) Spring has arrived early in Russia this year. Everywhere birds are singing, children laughing, armies marching, and flowers blooming. The Most Glorious State has acquired some rather large areas of real estate in the South (formerly the Ottoman Empire) and it is being subdivided for the poorer families in Russia. It is terribly sandy, (due to the neglect of the previous owners) but with modern irrigation and hard work it just might become useful soil.

PLUS LA CHANGE, PLUS LA MEME CHOSE... (from our readers)

CHARLES REINSEL...

Lusitania is dead! Leave it that way!
Every issue that "Brat" put out had mistakes in it! Mistakes that he sometimes would not correct!
The only decent way to play it out would be to start it over. This game was a 'miscarriage', and I will never count it in my (official) rating system anyway!
At least three different times my moves from Bernie Kling arrived by 'postage due' Twice he did not put any stamps whatsoever on the letter!
He would put the stamps in the wrong place & mis-address the envelopes! etc.etc.etc.
So no one can say I refused to move here are the moves under protest! (he encloses moves)
However IF you want me to play in this game start in possibly Spring 1904 where Bernie made the error of 2 mis-written orders!
"F Helgoland Bight to North Sea" cut my support! There was no fleet in Helgoland Bight. It was in Denmark! (See Fall, 1903 #8) and therefore the support was not cut! So he did not legally get into Norway! I asked him three times & he would not correct this error on his part! Will you correct it?

hmm. You must realise that we lack anything like a complete set of Lusitania back copies, so that it is really impossible to simultaneously research the matter and get this issue out at a decent interval. I would say offhand that the gamesmaster's decision, however capricious, is binding in all cases. BUT, so as not to start a feud, I will agree to run the game over from Winter 1903, if all of the players agree that this is agreeable to them. 'Lusitania I' has had a long and trying life, though, and I imagine that its players might as well wish to bury it soon. Fair enough?

MISKATONIC UNIVERSITY is published at the sign of the four by:

Walnut Creek poles lining it)
California 94598
U.S. of A.

GOOD LUCK, FOLKS!

Rool-Turner also says he's running such a team game! in ARMA!
hope you'll see fit to play in both! By the way, Bul + Turkey are impassable in this 6-man variant; one moves directly F Bha → Agran.

Good Luck
