PREMIER HAGELSHAWSKI PRAISES FRANCE!!!

(Moscow): Comrade Hagelshawski, duly elected leader of the Russian People, has called the French "a courageous and honorable people" for their glorious attack upon the English pigs.

"The French are striking a blow for civilization," added the Premier, "Europe must be cleansed of savage barbarians such as the English and Austrians." The Premier also had some kind words for his German and Turkish allies: "These two nations are proof of how successful people's rules can be when not abused by sub-humans such as those who rule England and Austria. All the free people of Europe must unite to destroy the imperialist aggressors."

### King Overstarched the Oprulent in London!

(London): King Overstarched today tried British cuisine as an attempt to quell the restless British from revolting in occupied French territory. "Disgusting!" he cried! "I will not feed my troops this gruel! Import pâté and poulet rôti avec cresson!" The Prince Imperial ordered the construction of a new fleet at Brest to carry over the new supplies to feed the French. The King then proceeded to revue the French 6th Army, currently in Wales on the way to Liverpool. The troops were in high spirits, and when the King drew near, shouted "Vive la France! Vive L'Empereur! Vive Bonaparte!" Evidently the troops were in very high spirits.

The Prince had an interview with a correspondent from La Nouvelle Observateur. Prince Phallus was asked about the readiness of the French to do battle. He replied that "the readiness of the French to fight is demonstrated by the stalemate war on the Franco-German frontier only a few years ago. Of course, the true worth of the French in battle has not yet been clearly indicated as the English have been unable to put up any firm resistance. Two thirds of Britians Empire will have fallen by the end of next year. The true worth of France's vast fleets and crack armies will be measured in the future."

((Vienna)): Princess Elmirelda the Excitable was reported to be hiding out in a small farm north of the city today. The report comes from a bewildered goatherd who happened to venture upon her. In Any Case, the Princess is rumored to be having an affair with that well-known artiste and actor, Tony Coitus. The Princess is said to be awaiting the advent of the Turkish armies, in order that she enjoy more exotic adventures in their midst.

((Berlin)): The French delegation here declared that a major breakthrough had been made in relations with China. It was expected that King Overstarched would soon be dining on Oriental fare - but then he would probably have to be fed continually and negotiations are going on for sufficient food with the Chinese.

LONDON: Crowds thronged to the London docks today as HIS Magesties 7th Fleet, (The Fighting Limeys), departed on the long awaited Royal Oceanography Exposition. This survey, sponsored by The Friends of England for Free Trade and Spritual Consciousness, is expected to have immense social consequences for the state of the Arts in the British Isles.

CONSTANTINOPLE: Returning from his travels to European capitals, the special envoy of our Sultan reported a friendly reception in Italy. His visit to Budapest produced little of substance, but Moscow is reportedly ready to upgrade diplomatic relations. Stepping off the Orient Express, our envoy uttered his favorite quotation: "Ask not what my country can do for you; ask rather what you can do for my country."

NOTE: you may already have noticed that I often don't follow my own House Rules. I'm just getting used to them myself, so minor discrepancies about the number of parentheses a press release should have and so on should disappear in the future.

REVISION TO THE HOUSE RULES

Just a minor correction here. Under Section I (Orders), Part C, substitute "a player not involved in the game whom the judge selects" for "the judge or gamemaster" in the second sentence. Second revision: Under Section I (Orders), Part D, add this to the end. "The judge may, if he finds it plausible, ask a replacement to submit moves for a player who has missed moves or for all players, and his moves are used in case one misses. In all cases except those where the judge has been told that the player missing moves would rather not take part or continue in the game, the substitute does not take over for that country. In cases where the player has expressed this desire, the substitute player takes over." Third Revision (kind of grows on ya after a while); "This judge takes it upon himself to inform players when they have missed a move or made an illegal move, and if possible, give them a chance to make corrections. IN such cases, the procedure will be: GM will make a person-to-person call to the player in question. The player will say he is not home. Then the player will call the GM station-to-station. When you hear "person-to-person from Greene, N.Y." you're not home. As an added precaution, I will call COLLECT." so, that's the code. This should be added to Section I, and given the Part letter E.

All players who would like their phone numbers printed should send them in and I will print them. This will not only make it easier to make last minute changes, but it will take a lot of effort out of my calling COLLECT if I should have to.

Five first choices - pretty good. The selection was made on the basis of the set of choices whose sum was the lowest. Everyone is paid up and the game is ready to go. Deadline is below.

Game IV

Well, this game was opened to take care of the extra demand which has materialized lately. There are already two people in it. All others should get their country preferences in.

This GM follows a policy that attempts to keep players from the same town or village from playing in the same game. Adamec and Falconer are both in Alpine, N.J., and both of them have applied for the same games (2&3) but I have placed them in separate games. Falconer - in case you're wondering, you are one of the two people in Game IV. Blame Adamec for the fact you're not in Game III.

I was going to tell all of you about DipCon V and the New Diplomacy Organization under Larry Peery, but unfortunately due to lack of masters and sleep, this will have to be left out of this issue.

DEADLINES: Moves for Fall 1901, Game 1972Q are due April 18, 1972 at noon at 78 Genesee St., Greene, N.Y. Moves for Spring 1901 for Game III are due May 12, 1972 at the above address. 249 S. Kanx St., Burlington, Wisc. 53105 is Dave Kincaide's address. (Sub for Phillies in 1972Q.
