News are due April 4 at noon. Press follows. (Paris - Sept. 1) - In an unprecedented midnight address before the entire French National Assembly, President Pompidou today asked France for war with Austria-Hungary:

"It may well mean the doom of France to enter this conflict," said the President, "but the 'easy occupation' of foreign supply centers, and the belligerent loud voice of Austria must come to an end. We have no quarrel with the Austrian people, but only with the reckless, clandestine, and provocative actions of the Austrian General Staff. We seek not a dominion, but only a tasteful peace abroad. Thus, I ask you to give the warning tonight: Austria beware! For the Franks are coming. We're coming over there."

The Assembly erupted into standing ovation, and later passed the resolution unanimously. (Marseilles-Aug. 2) - French Army history was made here today as General Pounce-on de Lion, descendant of the famous explorer of Florida, became the first Spanish Commander-General of a French Army Corps. Needless to say, the Spanish general was overwhelmed by the appointment. Upon taking official command of the French 2nd Army, now stationed in Piedmont, the general was quoted as saying, "If damn Switzerland weren't in the way, we'd be in Trieste by now."

(Sicily) - Mr. Stein, President of the Stein Wine Co., announced that
 key taster, Auntie Deluviano, a 100-year-old lady, has found a new
 wine by spilling one red wine into a white wine. Mr. Stein expects
 sales to be higher.

However, E. Olie Rav, owner of Rav's R. Grapes and Wines, disagrees.
 He said, "Mr. Stein should be frank with you press people. His new
 wine is monstrous. Anyway, we will make Stein back off from his state-
 ment. We will lick Mr. Stein with our new wine called Small Country."
 Rumors persist that the government has aided Mr. Rav because of his
 support for farmers going to California in the United States.

(Rome) - The Roman Scandal published an exposive report on the "real"
 reason why there is a new English government. The paper whose
 slogan is "Of the wicked, by the wicked, for the wicked" said that
 former King Ben the First was dethroned by his son. The son was ready
 to reveal that the king had an affair with Italian chorus girl, Betsy
 Rossi. Miss Rossi had flaged down the king because of tire trouble
 near the Watterfence Hotel in London. The king fell for Miss Rossi
 and everything was fine until the son found out.

To prevent people from finding out, Ben put his son in prison,
 paid the girl to remain silent and resigned. No one in the English
 government was available for comment, but one source said, "Ben reaped
 what the singe? sowed."

still going on with England, Germany, France, Austria, and Scandinavians are suffering when an army of 100,000 men would be sufficient to thrust into France. In view of these facts, the Alliance can set about eliminating its last opponent - TURKEY. To this end French naval predominance of the Mediterranean would of course be essential, and any nation opposing that course of action would have to be considered in the enemy camp.

Italian reaction to this policy cannot be evaluated at this time. (Vienna's Zeitung) - Crowds fraced the palace grounds for the crowning of His Highness. Due to the unfortunate sudden death of late Stephan I and war, it seemed that no ambassador was willing to come. Due to a mysterious disappearance of Herr Vigala, the secret papers of all Austrian foreign policy, a new one will have to be arrived at. His Highness, normally an outcast for royal society because of his religious and political views showed he had the royal bearing and more. His Highness hinted at his future moves or lack of them. Italy: send letter of intentions - have a plan to coordinate; Turkey: same; England: same; Germany: same; France: no plan - send letter of intentions. Confer before acting since you don't need the "tiger of Europe" as an enemy.

(Wozcom Gazette) - "Traditional coronation followed after 3 months of preparation for this momentous occasion. Despite the arrival of two friendly fleets and one army in Russian territory, only my cousin, His Highness Stuart wrote and came. All advice is welcome by the ambassadors. Warning - Policies, alliances, etc. must be revamped - Hence hostile actions because of my errors will be tantamount to declaring war. Note my cousin and I believe in the "honest" approach, backstabbing is the equivalent of poor leadership covered by mud. Everything quoted will be true or not at all." We have now presented a few key concepts of the Imperial Magistracy, Lord Sovereign Ruler of One thousand peoples and hundreds of Lands from Armenians, Baku Cossacks, Carpathian cossacks, Don Cossacks.

1972Q

Lahy and Falconer have missed their moves again so they are out of this game. Fortunately, I have players willing to take over their places and take over for Germany. However, the details of who gets which country has to be worked out, so I will send this information out to all players concerned as soon as I can, but definitely some time before the next deadline. (The next deadline is April 4.) I will not print moves this issue because of the new players taking over. Moves received so far will stand unless replaced.
