

Published by Rob Nielsen and Steve Marsland, 73 Gansesee St., Greene, NY 13778. Gamemaster for 71V is Lewis Pulsipher, whose address on August 25 will change to 114E Graduate Center, Duke University, Durham, North Carolina 27706. Gamemaster for all other games is Steve Marsland. Subscriptions are 10/\$1.50, but we're thinking of raising the sub rate, so resub now and save some money to be eaten up by inflation. Game fee is \$1.00 for the first game and 50¢ for each game thereafter. No game fee is required for ADA members although a sub is required. Standby players are asked to write and sign up for any and all games.

---

Due to Steve Marsland moving, college quickly approaching for both of us, and GS being expanded, we could use a breather. This issue will merely clear up a few mistakes from last issue, and give an accounting of moves received so far for the games. By the way Stephen Marsland's new address for Dippy moves, will be 12 S. Chenengo St., Greene NY 13778 as of August 28.

(1971V) -- From Steve Marsland to Lewis Pulsipher. I believe that I did send Winter builds to you along with last season's moves, which were "build A Par, F Bre, F Mar." If in fact I am wrong and failed to give you this tentative build, I will accept the game report sent to me. Thank you.

(1972Q) -- Moves are on file from Aus, Ger, Italy and Russia(landEng). Moves are still needed from France, Weidmark. One note, I failed to note Russian A Swa /a/. Deadline for Fall 1904 moves is Friday August 24 at noon.

(1972AG) -- Builds received from France and Turkey. Build and tentative orders received from Austria. Removal received from Italy. Builds still needed from England (Weidmark). Winter 1904 builds are due Friday, August 24 at noon.

1972 BI -- In the moves of last report change "A Tri-Alb(A)" to A Tri-Alb and "A Tyr-Tri" to A Tyr-Tri. That will teach me (Rob) to pay more attention to the house rules. Sorry about such an incompetent mistake. Moves on file from everyone save Russia (Weidmark). Summer retreats and Fall moves due August 24 at noon. Summer retreats cannot be given now because of NMR from Weidmark.
