This issue has been delayed because of this game. I get a letter in April from Lewis indicating winter builds for France and Austria, but not for Russia, which should have a build. He also states the game must be delayed. I assume he wants me to hold up to let Spring moves and Russia's build come in. After getting back from Cornell in late May, I find an ultimatum demanding the publication of Mars Vigila or my games will be considered "orphans" and myself a derelict. So here is the set of builds - Russia is playing one short, I guess he missed the deadline. Spring moves were also due but I haven't got them so they will be the next moves due.

Lewis informs me of errors in last issue - there is no Turkish F Aeg, and Austrian A Boh's support should have been underlined.

Sorry for extremely short deadlines last time, but my help (?) did not mail out Mars Vigila until weeks after it had been entrusted to his care. He is no longer with us. Now that I am back from college, I'll be able to give MV the attention it deserves. Any of you with a need for extention or more time got as much as you needed. Lewis, what is going on with 1971V?

Moves for 1971V are due at noon, Friday, July 12, at Bellevue. Moves for all other games are due at noon on Friday, July 19, at 12 S. Chenango St., Greene, N.Y.
