

N.A.V.B.

REPORTS

#2

North American Variant Bank Reports is the official organ of the North American Variant Bank (A subsidiary of World Variant Bank). This zine is published on a highly irregular basis and is devoted entirely to material concerning NAVB and WVB. NAVB Reports is available free upon request as long as copies of any issues last- one to a person or organization.

NAVB PURPOSE

North American Variant Bank is devoted to the collection of every published variant that ever has come into being in the past, or will come into being in the future. Anyone donating a variant which the Bank does not have in stock will receive a credit of .10¢ per page towards purchase of Bank materials in return. Duplicates of variants in stock will be returned with payment for your postage.

OPERATION

NAVB works on a xerox basis, and does not now intend to reprint individual variants. This means that anything we have in stock is available (see prices inside) but the cost from us is considerably greater than from individual publishers. In order to make ends meet, the cost is basically .10¢ per page except where a designer has requested or negotiated for the price to be higher.

ALTERNATE SOURCES

Due to the high cost of our xerox reproduction readers should look into possible alternate sources. For probably the most complete listings we advise you check John Bayne's Imagable or the Variant section in Diplomacy World published by Wail Buchanan, or Speculum by Dave Kadlecck which has extensive zine reviews giving news and contents. NAVB does not desire to become the sole source of variants, merely a sure source, thus we urge you to take a look about before ordering from us. We gladly fill all orders, but wish to see you get the most economical deal possible.

Variants arriving too late for inclusion in above listing

Colonia	F. Hyatt	-	1.40
Eckert's Napoleonic Dip	B. Eckert	-	.30

The above variants are tentatively all for sale. Should any designers withdraw
their permission or forbid sale of their wares, and you order these variants, you will
of course receive a refund on those products.

ORDERING

Minimum Order: .50¢

FIGURING POSTAGE

To figure how much postage money to add use the table below.

<u>Order Amount</u>	<u>Postage(1st Class)</u>	<u>Postage(3rd Class)</u>
.50-.50¢	.10	N/A
.50-1.00	.20	.10
1.10-1.50	.30	.15
1.60-2.10	.40	.20
2.20-2.70	.50	.25
2.80-3.30	.50	.30
3.40-3.90	.70	.35
4.00-4.50	.80	.40
4.60-5.10	.90	.45

I reckon you can see how we are figuring. Above 5.10 you can figure the needed postage-handling fee yourself.

The above rates are for domestic and Canada- overseas should about double the rates. Shipment overseas will be either airmail or surface- simply double the 1st class and 3rd class rates for these. Overseas customers could do best by ordering through CEVE which will soon have the same stock as NAVE.

Payment- By check or postal money order please. Send no cash, we can not be responsible for cash payments getting lost in the super efficient mails.

Delivery Time- If you ask for third class, or surface mail- only god can tell when it will arrive. For third class, figure 2 1/2 weeks for us to fill and send your order, surface mail figure 1 month. 1st class orders should arrive within 2 weeks of your ordering. If you do not get your order by these times- inquire- these are the maximum times for delivery after your order reaches us. These time limits should be realistic enough for us to meet and beat.

SPECIAL ITEMS OF INTEREST

Simple Diplomacy Variants by Lew Pulsipher- an article giving a good review of many simple rule change variants of special use to people just becoming a fan of Diplomacy Variants.- Price-.40¢

Youngstown Variants- by Dick Vedder- an excellent explanation of the how and why of the 10 versions of Youngstown we have in stock.- Price .20¢

Rod:

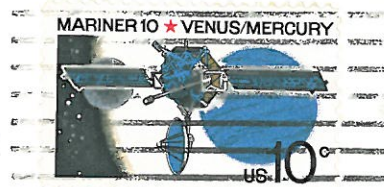

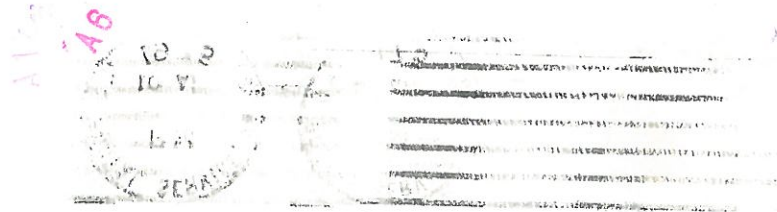

Thanks for the order, it was shipped the same day
as this year and should arrive there the same time
as this - I hope. As you can see, your works are
all over the price list. Should the bank break even
(HA, HA) you'll set royalties on any of your variants sold.

I hope this will be O.K. with you. I presume
its O.K. to Xerox your work.

Yours
Dan

P.S. Good luck Gandalf.
