

# NEOPHYTE 5

NEOPHYTE is a journal of Postal Diplomacy specializing in the game of Diplomacy (C Games Research) for the novice player. (NEOPHYTE defines novice, in this context, to mean a person who has played less than 12 full game years in postal games, and who has not joined a postal game prior to August 1970--16 months). NEOPHYTE is Gamemastered by Lenard Lakofka, 1806 N. Richmond St., Chicago Ill. 60647 (312-342-6857).

NEOPHYTE openly solicites small articles and any questions on the strategy and tactics of Diplomacy from interested players, traders or other sources. NEOPHYTE shall print questions, with answers that we hope will aid the novice, and these short articles, on a room-available basis only. NEOPHYTE is affiliated with the N3FGBDD, and the IFW and is printed on the IFW Press in Chicago Illinois.

## THE NEOPHYTE GRAND TOURNAMENT MOVES ON!

Well we have two players to begin the 8 game series! Mr. Jim Hagelshaw and Maj. Elliot Lipson have paid their game fee. The NEOPHYTE Grand Tournament shall encompass 8 full games of regular Diplomacy with 14 players, playing 4 different countries in 4 separate games. You will be competing against all of the other 13 players in a minimum of one game, and with most players in two games. The game fee, for all 4 games, is \$7. Country Preference lists can be submitted for up to two games--we will try to give each player at least one first choice. ALL Players now in NEOPHYTE, save for Larry Blandin and Tony Pandin, are eligible to play in the series. Send your game fee today!

.....

That Opening Year--a short resumé of classic opening play.

In 1901 each country has a center(s) that it expects to gain for a build. Also, because some areas of the board cause early friction as to whom shall receive a particular center, we find certain battle patterns to evolve more frequently in games than others.

Briefly; Austria expects Ser and Gre; England expects Nwy; France expects Spa and Port; Italy expects Tunis; Germany Holand and Den; Russia Rum and Swe and Turkey Bul. France, England and Germany all WANT Belgium.

Inspection shows that the contest over Belgium and the "Balkan" area are the most explosive. Here three countries are meeting, piece to piece, and further expansion almost requires war between two or more of the nations in the area. The other early areas of battle are Iberia (if Italy goes West) The greater Ionian basin, if Italy goes East) and Scandinavia where England, Russia and Germany each get one center--but would like more.

When a country deviates from his "normal" expansion by making assault into another area, or directly attacking a neighbor, he compromises his own country's normal expansion for tangent adventures into areas where can easily be hurt! Failure to strive for classic expansion begs other countries to capture your classic centers--and then continue right into your home county.

This does not mean that adventures are not possible--in fact they are the heart of advanced play! But uncoordinated attacks, and random assaults can only lead to disaster! The reason for this is that the game is a fine example of Bismarkian Diplomacy. A balance of power is finely maintained among the seven powers. A foolish power that grows sudderly by stabbing, just as suddely, becomes the target for all the remaining powers.

The simple keynote is that if you offer another paaer temptation, he will, in good form, succumb to it!

Berlin; Johan Lieder, Foreign minister expresses shocked astonishment at Russian support for the spurious English claim to Denmark. This in spite of long-standing amiable relations with our neighbor. England's blood-lust has blinded her to her previous written approval of Germany's occupation of Denmark. England, Austria, now Russia! Is there no end to perfidy in the modern world? // NO//

Rome; After negotiations between the Latinized hunns and Italian royal Princes broke down, a French deϑlaration of war combined with a typical sneak attack caused the Italian governemnt to move the newly built capital of Genoa to Pizza, just across the front lines. It has been reported by underground experts and a French deserter that the French solliers are capturing the entire Italian National Museum's supply of 1776 Napoleonic rifles, as their brand new Krupp manufactured weapons failed to work. The Italina Minister commented on this by saying "ho-hum;" our Intelligence service long ago knew what German manufattured weapons could do, and they did. We did not resist French invasion because of this."

Rules for Diplomacy are available for 75¢ from me, order now!

NEOPHYTE 5, page 5, January 8, 1972----LD included

LIAISONS DANGEREUSES announces the DIPLOCON V shall be held in the Chicagoland area on July 22 & 23, 1972. Full details will be available as to site and tentative plans in the next LD. Until then we would be very interested in knowing if you plan to attend DIPLOCON. If yes, where do you plan to stay? What room rent would be willing to pay? How many days would be staying in Chicago? What event(s), discussions, topics, etc. would you like to see held at DIPLOCONV? Please reply at once so we can finalize plans quickly!

NEW DIPLOMACY ORGANIZATION!!

Well here we go sportsfans, poppa Rod Walker has blessed it, Larry Peery has carried it, quite a few people have called for it, and now here we have it. A New Diplomacy Organization in the making.

Bob Johnson, the Head of the "Constitution Committee in being", has the intirim constitution all set and is beginning to write the final draft from recommendations we are now to send. Larry Peery is getting the master mailing list ready and soon we will have an election! Aren't you thrilled that all of this is being done for you, without your consent, in the name of Diplomacy?? Well aren't YOU!? Aren't you glad that Rod Walker is in there pushing for a NEW organization now, after he pushed for the reform group, after he questioned the DA under John Beshara. (changes his mind a lot, doesn't he? OR DOES HE??)

Could it be that Rod Walker REALLY wanted a NEW organization as soon as the DA came into existence? Could it be that even though he raised "doubts" about "chairman John's" intentions, he was REALLY planning a new organization THEN AND THERE? Could it be that Larry Perry also thought we needed a new organization but felt reform would be a better TEMPORARY banner?

Does the beginning of the NEW organization seem a little cut and dried, kind of like John Beshara all over again, except there are about a half of a dozen do-gooders this time?

Well let's hope not! Let's hope that all these wild ideas are just that. After all that would leave a lot of people who Walker, et. al., convinced, that a "reform" group was needed, rather out in the cold. Sort of like being led into battle just to find the general safe in the back lines starting a new campaign. Sort of "they were expendable" types!

Don't you like the idea of an intirim constitution being adopted without you ever seeing it, although you can write Walt Buchanan who will mail you a copy (if you send 16¢) and if you mail \$2 to Larry Peery today you will have RATIFIED IT, and perhaps never seen it? Don't you like the idea of the final document being written up when the first was not agreed on? (The record is that of the 8 people on the committee (you didn't know there was a committee?) 6 voted. Five for, one against. I voted against! Did my notes of protest get printed? NO. Did Johnson go right ahead with plans for the FINAL constitution? He sure did!

NOW IS THE TIME WE MUST PUT AN END TO A FEW THINGS!

1. NO ONE SHALL collect dues until the intirim constitution is adopted by the members (who can apply simply by letter to Walt Buchanan, or Larry Peery, or me).
2. No final constitution shall even be started until dues are legally collected under the rules of the legally adopted intirim constitution.
3. The election now in progress shall be a referendum to select a group to act as coordinators for six months ONLY!
