RAMNESIA . . .

Ed Tobia '64 is stationed in Frankfurt, Germany in U.S. Army after his tour in Vietnam.

Elwin T. Broderick received his J.D. in May from New York Law School.

Stan Serafin '65 is working on a special program in Yonkers, teaching emotionally disturbed children. The Serafin's plan to move to northern California

Paul DiBianco '66 is in U.S.N. and is now in the Mediterranean Sea.

Steve Mozian '66 is S/S t. with the Green Berets and after 18 months in Vietnam has returned to West Branch, Iowa. Jim Gannon '66 is a Mechanical Engineer with Bethlehem Steel, Erie, Pa. Lt. Robert O'Neil, is a supply officer at Chanute A.F.B. in Illinois.

Paul P. Rega '66 is attending Medical School at the University of Rome, Italy.

Tom Greck is won a variety golf in Spring, 1970.

George Schelz '68 is working for the F.B.I. He plans to be married on July 18th in the Bronx.

Charles Schelz '68 of Fordham College was undergraduate president of the American Intercollegiate Sailing Association.

Gary Lednar '68 of Holy Cross College, a Spanish major, spent his Junior year at the University of Madrid. During

FUG EAST

Which just goes to show that everything you read in print need^{NOT} be true. But gifts and congratulations will be accepted, gin preferably. The above is evidently, I hope, a portion of my amuni paper where somebody got the idea to inject a little humor. Just thought you may want to know why the magazine (FUG EAST) is late, changing one's position in life takes time.

Not really, the reason is that there was a mighty poor response from the players for this season's moves. Imagine this happening in a game where four out of the five players are listed in the first Beyerlein's Rating Poll, and the other player is in second place! Tch-tch. I have written to the delinquents and with a smile of the gods the Spring 1908 results will appear in the area.

NOTE: The underlined "amuni" above should be replaced by alumni. OK?

Normally I would type up the results without notifying those who had missed their moves, but my departure from the Hampton Bays area was a hasty one and I did not return for two weeks, leaving the possibility that some of the mail collected by General Delivery was dumped or whatever they do with unclaimed mail.

Today is the twentyfifth day of August, a Wednesday, and on Friday I will leave for the Hampton Bays area again for this weekend, the week and Labor Day weekend. In other words, I will not have a chance to type up the Spring moves for some time, so stop cursing me. I then register at school for my final (?) year the Thursday after Labor Day, and things could be so screwed up that I won't get the moves out for a long time, Be forewarned.

FEUDS: Being the type that must constantly attract attention to believe that he is loved, I feel lonely that I am not in any feud of great publicity. Therefore I hereby declare a most serious and grave feud on Lee Childs-"Slap, Slap!" cracked the glove on Lee's tearful cheeks-I announce this feud to the general public because of Mr. Child's persistence in printing any junk that comes into his possession and so that the good mothers that inhabit this great land of ours will protect their freshly baked apple pies from his Childslish filth ~~and~~ by ordering the Postal Department to burn any mail with that Sherman Oaks postmark. Rise, America, and defend yourself against this Communist subversive.

Any opinions on the above would be appreciated and if you agree with me enough, please send a donation to the "Kill the Junk Mailers" Fund which would be, of course, tax deductible.

COAs: Watch some more regular 'zine for the address changes of the players in this game (LM#2), I doubt whether the next issue will be out early enough to be helpful.

WOW: I used up all this paper in just getting the message to you that things are delayed. Was it worthy? Ahhhh....The Nays have it!

If you don't got your moves in yet, please send them to me, George Schelz Jr., 9 Suffington Pl., Bronxville, N.Y. 10708 immediatly.

BODINIC REVIEW 14

SEMING. OF 1907 LMI 6

This is the Last Issue of the

BERZERKLEY BARK

BERZERKLEY BARK #25 marks the incomplete end of 1969CC, better known as "BZ1". This has come about because our sterling cash of last issue has dwindled down to just myself and an offer by Rod Walker to act as stand-by. Since we were operating at less than full capacity last issue (3 out of 7), the mass desertion comes at a time of very low interest and resistance to terminal illness. My thanks to Mike Hoos and Don Morin for their help in
