London-Germany: it's not nice to fool with Her Majesty's Navy. Especially without telling Her Majesty first!

FALL DEADLINES: WEDNESDAY, OCTOBER 9, 1974.

ABOUT THESE ORDERS: I'm running two games and supposedly should have 10 sets of ORDERS. Tuesday I had received 5 sets, including one that day. That evening I received 5 sets of orders, including 2 revisions I believe. On Wednesday I received 1 by mail and one by collect call. All in all, very close to the wire. I believe in stand-bys when people miss. However, this is a very low circulation mag and since I don't have stand-bys I can name you guys are really taking your chances.

ABOUT COLLECT CALLS: Forget them. I will no longer assure anyone that I will make a collect call if they miss. This being the case, any calls received on day of deadline will be ignored for order purposes (though appreciated to let me know if you plan to continue).

From Jeff Key: STAB is being delayed due to a possible strike at Braniff, so hang loose (Or tight) 'cause he's thinking of us.
