You need to subscribe: 6 issues for \$1, for newcomers.

Budapest: when questioned pertaining to the termination of the Turkish war Emperor Von Mighton replied "Home by Christmas."

Vienna: The incoherent antagonisms which spew forth from the press show definite signs of tamperage by the deranged mind of Kaiser Monahan IC (Imperial Clutz.) There is no other explanation for the aggressive smut which could not possibly come from the German peoples who hold the Russians and Austrians so dear to their hearts.

Moose Factory: That would have been "Berlin press" and "Idiotic Clutz" if I'd bothered to read before typing.

The A-H political cartoon is held over till next issue because of time limitations. By the way, John, your press didn't arrive till Thursday.

Moscow: the capital has announced the acquisition of a new ally in the form of England. The move was expected in sight of the dwindling supply of tea in Russia and T. in Britain.
