Total points are USA 9 Fra 20 Bri 17 Russ 27 Ger 15. Thus the winner was none other than Russia. The players were as follows: USA Atteberry, France Harrison; Britian Willner dropped F 35, Matthews from F 35. Russia Londry, Germany Deasecker.

This game was a mix of all the different types. Each player had his NOC and PFC picked.

This was the first game I ran of OWII and it was of the Historical type. Russia won this game due to the 1-1 attack that took place in the Baltic in Fall 40. The USA had 12 ptes placed there and was attack by 14 Russian factors. With out this attack Russia would have had only 16 points and the USA would have had 13, and France would have been the winner. It is interesting that the one out of six chance did come up.

Since this game started in DCAST, all the players still have their first game coming to them in STENCH!!, except for Greg Harrison who is now playing in 72.29m. I have 3 players signed up for the next game, and need but two more.

I'd like to note that France, Lewis Ritter, missed his last moves due to the fact that he never got issue #7. It seems as though the mails got the poor boy. I have not heard anything from Mr. Weeks, or Mr. Van De Graaf, I'll ask both to submit the S-39 moves, and ask Bob Matthews to also submit them for Mr. Weeks. Thus I hope that there will be a player for the USA with the next set of moves. The next moves are due on 19-1-73 which is a Friday. Make sure you get your moves in early.

The Fall 1977 moves are due 19-1-77, a Friday. If both Ger
 and Rus want to have control of Rom, I must have, from each,
 a written statement saying this. I still have game openings
 and need buy the players to get S-III started. See fees on the
 front of this note.

This is a game of OWII and dippy variants. I have started a
 ILLIV game and have two signed up for a Youngstown Variant.
 I will start any variant of dippy that anyone want to play as
 long as I have the rules and map.

It seems as though this will be to date the longest STITCH!!
 that I have put out. It should run four pages. Anyway, for those
 of you that are interested, Ed Birsen's ARITHA carries OWII
 and a rating system of postal OWII. I'll see if I can get
 permission to reprint the first rating list and those there after.
 I'd like to mention that Ed is on the first 5 of Postal
 OWII and so is your humble G. The best OWII zine, in my
 opinion, is OWII by John Boardman, 234 E. 19th, Brooklyn
 NY, 11226. Game fees are 93, and this is the only zine that I
 play postal OWII in. It runs 12 pages long and is full of really
 interesting things and the best press around. Right after FREEL.
 I read FRAGE AND FROM the 2 zine. It is put out by Lew Pulsipher
 and he does a great job. Besides Orgins he has Dippy Variants
 and other things. Ed can be obtained from Lew at 329 Twin
 Towers Abilene TX, 49224. Lew plans to run a course with his
 next OWII game. That is five people, other than the 3 OWII players
 will be trying to buy and sell money, Francs, Marks, Dollars,
 pounds, and rubels, according to the play of the game, as the
 one with the most winning country's currency will have the
 best shot at winning. Could be fun.

Lastly, the Leagrave's Orgins article that I have talked about.
 Understanding Orgins.

In the games of Orgins that I have played, I have found that
 the countries with the best chance of winning, are not the
 countries with the most power, but those that go after U's
 instead of C's. It is clearly much easier to place U's than
 C's and this I contend will make the U'countries the ones to
 beat.
