PRESS: ANGIAR: The piteous Orcs of Angmar are now beset by both men of the west and Grolls from the east. Doesn't leave much room in between for helpless Orcs. A pox upon all of thee.

POSAION(SENCH) of prof. Enwhistle gazes across the sea, that stretches before him bewildered eyes. Finally after a long hard squint he sees a big old lead in the distance. As the boat nears the shore he goes to pray and braver as he finds his sea legs. Then by the time he is within a 1/4 mile of shore he is standing on the bow of the ship pondering his fate as he peers upon the land that this boat is bringing him to.

Suddenly, and of no where, CRASH!!!! the boat hits a sand bar and Enwhistle is head first in it unconscious. Upon awaking from his sleep, he finds that he is out of the boat, in fact the boat is no where to be seen! Jumping to his feet the Professor realizes that he is now in a forest, and wearing green PJs which like Robin Hood would have worn. On his side was a long horn, made of wood, double hard rubber. A horn is slung across his shoulder. Taking the horn to his lips he blows it and a loud sound is heard...ARRHHHHH..
